

## Bright Idea Of A Six Year Old

Lewis Wendell Parker enjoys T. V. Shows, and especially those for little children. The idea came to Lewis that perhaps it would be nice to work out a T. V. Guide For Little Children and put it in The Early Bird so the children could have at hand the programs and the time they come on.

Lewis talked very freely with one of the advisors concerning his idea. He was much in earnest about the matter. He told how he had spent most of Thanksgiving Day working out this guide. He presented his guide neatly folded and in his own handwriting.

This is a copy of his guide:
