

High, two brothers, Dr. John T. High of Red Oak and S 2/C Donald Ray High, and Helen High of Red Oak. Although Gerald's last employment was at the ship yard many of us remember him as a weaver at Caromount.

RAMBLING REPORTERS GATHER NEWS FROM THE FOUR CORNERS OF THE CAROMOUNT DIVISION

NEWS FROM THE WEAWE SHED

By - Sutton, Davis, Speight and Joyner

The entire Weaving Departments of Caromount and Wilson regret the resignation of Mrs. Catherine Pitt. She has made a very definite place in their hearts by her very friendly and congenial attitude in her dealings with them.

Ed Raper and Randolph Sutton regret the closing of the hunting season on February 10th. It is not the hunting they will miss. It is the long tales they have been shouting from the housetops.

At a supper at the home of the "Dud" Adams a few weeks ago, Charlie Laughridge and Randolph Sutton decided to be big hearted and "pool" the bird they killed the next day and have a quail supper for the crowd. Laughridge hunted all day and got exactly nothing. Sutton got only one. They thought trying to feed twelve hungry individuals on one bird was just too much and the invitations to the quail supper were withdrawn.

Frank Shelton is getting a little "jumpy" lately. He is expecting an heir soon and they say he jumps one foot every time a loom "bangs off".

Worley "Gordie" Edwards came to work last week with five claw marks down his cheek. Worley says "A broken razor blade". We say "It is odd to see a blade with five fingers".

J. S. Raper recently sold his farm and bought a larger one. We wonder if it is more farming he is planning or is he providing room for a larger family.
