

**THE COVER:** Peggy Cockrell remembers June as the month of romance and brides. As a matter of fact one of these Junes Peggy has a plan or two to complete. At present part of this plan is overseas.

VISITORS FROM THE UNITED STATES ARMED FORCES

**T/5 JOHN D. CLARK:** John visited us recently while home on furlough. His parents now live in Scotland Neck, N. C. and therefore he had difficulty in getting to Rocky Mount. Just before time to catch the train headed for Canada, he visited Caromount. He has participated in the building and upkeep of the Alaskan highway for twenty six months and this service has netted 62 points. However, he still hopes to return to the states soon under the rotation plan. He carries on in the Signal Corps. Here's hoping Mr. and Mrs. Clark will soon establish permanent residence in North Carolina.

**EDMOND CREEKMORE SM 3/C:** Edmond arrived in New York harbor on V-E Day. For Edmond it was a double celebration V-E day and home again. For New Yorkers there was a triple celebration - V-E day, "blackouts" and "brownouts" - lifted and no 12:00 O'clock curfew. In spite of all of his travels, Edmond says, "I still like Rocky Mount". He says he wants no part of Europe, its people nor its country. Home for only 3 days, Edmond could visit Caromount for only a short time. He has made 6 round trips across the Atlantic. We are holding him to his promise of a visit within thirty days.

**SGT. AL INSCOE:** Al was home recently for a sort of family reunion. His brothers Jack and Melvin were here, so the Inscoe boys had a nice "get together". We appreciated a visit from Al considering the scarcity of time and the many things to be done while at home. He was returning to Barksdale Field, La., but after more than two years there, he is expecting to leave Louisiana. Maybe he has already moved by this time. We hope to hear good news from him soon.

**CPL. CHARLES M. JOHNSON:** With a 15 day furlough Charles found time to visit Caromount. Fortunately he has been able to spend most of the winter in Florida having been in Boca Raton, Florida since December 1944. Delayed travelling orders allowed him a furlough at home before completing his journey to Sedalia, Missouri. Cpl. Johnson has completed his "schooling" and now he expects to prepare for line duty. He is probably in Missouri or elsewhere by now. Let us hear from you soon, Charles.

**PFC. WILLIAM MELVIN WOOLARD:** Melvin has now been transferred to Camp Butner, N. C. after several months at Finney General Hospital, Thomasville, Ga. Unfortunately the surgery did not enable Pfc. Woolard to move his finger, otherwise he seems to be fit as a fiddle and happy. At Camp Butner he was granted a furlough. Visiting relatives (or courting) out of town occupied most of his time while here on furlough. He spared Caromount time for a most welcome visit. We are waiting for a report on Camp Butner, Melvin.
