Devotional Thoughts

He brought him to Jesus.— St. John 1:42.

To those of us who are interested in our fellow men here are suggestions for helping them in opening the way to our largest achievements. At the same time our efforts may assist in leading another life to successes even greater than our own. Such was the case when Andrew found Simon Peter and brought him to Jesus.

Some years ago a great Christian layman gave us this challenging theme, "Find them, fetch them, fix them".

Amongst life's discoveries none offers a greater opportunity than the man who has lost his way because of sin. One by one, some one, must "find them".

Then, some one must "fetch them". This effort tests the faith, courage, influence and love of the Christian. Soul winning calls for faith in the saving power of God and love for the souls of lost men. The art of leading the lost to safety zones needs to be cultivated by every Christian.

Then we must "fix them". Like Andrew we must stick to rescue effort until our work is complete. We bring many people to Sunday School and Church, and then our efforts cease. If we would really honour God and help lost men, we must remember that our trophies are never safe until we can say with the Psalmist: "My heart is fixed".

A Christian's greatest achievement is in bringing a soul to Jesus. "They that are wise shall shine as the brightness of the firmament; and they that turn many to righteousness as the stars for ever and ever." (Dan. 12:3).

Rev. J. W. Kincheloe, Pastor First Baptist Church

CaromountOfficeNews

Due to the sale of his city home, Ben Thomas was forced last week to move into his country home which is located about six miles from Rocky Mount in the vicinity of Nashville. He has all the conveniences of 1800, so he tells us. He manages very well without having his gas stove, water works, and steam heat, but he is having difficulty in trying to use his one kerosene lantern in the living room, bedroom, and kitchen all at the same time. More power to that kersosene lantern, and we wish Mr. Thomas luck in his new experience.

Wahab Edwards is having trouble with his eyes lately. He had an appointment at Duke recently for an examination but due to the icy condition of the roads, he was afraid to tackle the trip. We wish you better luck with your eyes, Wahab.

Mr. and Mrs. Ernest Taylor are in the market for an unfurnished apartment with about three rooms and a bath. Anyone knowing the whereabouts of such, please let them know. (That will be 50 cents for that plug, please Ed.)

Mrs. Rachel Land Harris who formerly worked in the laboratory and later was receptionist is now in Greensboro, N. C., with her husband. She had an operation recently which was very successful. Several days ago Mrs. Margaret Cockrell Lake went from Burlington to see Mrs. Harris and upon arriving Mrs. Lake found no one at home. Rachel is working now, so she seems to be getting along fine.

Mrs. Mattie Griffin joined the Payroll Department the latter part of January. She is taking over the duties of Mrs. Margaret Cockrell Lake who left to join her husband in Burlington. We wish you much happiness, Mattie, on

your new job.

Helpful Hints At Home

Do you have trouble with stubborn bureau drawers, or for that matter drawers in kitchen cabinets or any piece of furniture which contains drawers?

If so the following hints should preserve your temper and make the stuck drawer have a longer life.

Your first move with a stuck drawer is to get it out so that you can find what the trouble is. If it won't succumb to normal methods, you will save time by taking the back plate off the piece of furniture-this is generally a piece of plywood held on by a few wire nails. Now you will be able to look in behind the drawer and see what gives. If the sticking is caused by the drawer having expanded, pressure on the back should force it out. Examine the drawer and you'll find the tight spots that should be planed and sanded down. Frequently the bottom of the drawer will drop a little at the front and catch against some of the internal woodwork of the bureau or furniture. Pry the bottom up and slide the drawer out. Nail the bottom back securely using wire nails. Don't try using too large size nails as they will almost certainly split the side of the drawer, and if possible, put the nails in a new location, not back in the same hole.

More Space In Building

I don't have to climb over and around boxes." Mrs. Minnie Ellis stated: "It seems mighty fine. Now you can see the other weavers working at their loom once again." I. E. Raper said, "It really looks like a fine place now with plenty of room."

The Warping Department employees were very much pleased with more room for them. Mrs. Agnes Proctor stated: "The additional space is fine. It feels like we are out in the open and actually I believe it is warmer." The Warping Department now opens into the new building since the dividing wall has been removed.

: Births :

Mr. and Mrs. Theolphius Barnes announce the birth of a son, Jerry Theolphius, on Sunday, February 2, 1947, at Woodard-Herring Hospital.

Mr. and Mrs. Charlie J. Warren announce the birth of a son, Jerry Lewis, on January 25, 1947, at the Rocky Mount Sanitarium.

Dispatch Highlights

Mrs. Viola Winstead's birthday was celebrated Friday, February 21, 1947. Ice cream and fruit cocktail were served as refreshments.

Mrs. Irene Raper Edwards was absent for a couple of days due to the illness of her daughter, little Janie Edwards.

Mrs. Perry English was out three days due to a bad case of flue, but she is now better and able to be back at her desk.

Miss Dorothy Sturdevant is now a full fledged country gal, having moved to the country where she is going into the chicken business.

News is hard to dig up these days with the ground frozen so hard.

Engineering Dept Aids

pair problems around the homes may explain their problem in writing and address it to "Helpful Hints At Home" in care of The Caromount News and drop in the suggestion boxes or take their written statement to their foreman or talk with Mr. Lawson about it. Mr. Lawson promised the combined efforts of his department in rendering a solution to these problems.

:: Weddings ::

Miss Kathleen Brown, daughter of Mr. and Mrs. Marion Brown, became the bride of Maryland Brantley on Friday, February 14, 1947, at Emporia, Va. Mr. Brantley is employed in the Caromount Weaving Department of the third shift.
