Community Chest Aids Many People

One Hundred Eighty Million Dollars Is A Lot Of Money—but it will buy a lot of nursing for sick folks, clinics for babies, summer camps for boys and girls, assistance to travelers, help for families, homes for old people, and all those other services which the communities receive through the Y.M.C.A., Boy Scouts, Girl Scouts, Family Service, and the Salvation Army.

The thousand American Community Chests are asking for \$180,000,000 this fall, from every one of us. When everybody gives to the Community Chest Campaign, according to his ability

Everybody Benefits!

Figure out how much you would give for each of these Community Services separately . . . for those children, and to the old people, those babies, those worried folk. Then make your pledge to the Community Chest nearest your heart, for all the Community Chest services.

GIVE GIVE ENOUGH!

Vick Receives Naval Air Reserve Training

Lester Vick, Weaveshed employee, entered the Naval Air Reserve in 1942, and served thirty-eight months on active duty until he was discharged in February, 1946.

In April, 1946, Vick joined the Naval Air Reserve Training Unit as an Aviation Machinist Mate on inactive duty.

Lester went to the Naval Air Station at Norfolk, Virginia May 13, 1947, and took a two weeks Naval Air Cruise.

Again August 28, 1948 Vick was called to the Norfolk for a two weeks cruise. This cruise consists of routine training for air crewmen and pilots of the Naval Air Reserve. In the course the men have regular bombing runs, rocket firing, machine gun firing, night navigation hops and blind flying.

During the recent cruise, Lester took a cross-country hop to Jacksonville, Florida.

Labor is the genius that changes world from ugliness to beauty and changes the curse to a great blessing.—Opie Reed.

Caromount Players Win City Softball Championship

The Caromount Entry in the City Soft Ball League came back from a fourth place standing during the first half to win the second half championship and an opportunity to play the Washerettes—winners of the first half, for the City Championship.

At the end of the regular season the Rocky Mount Mill Team and the Caromount team were tied for top place. The only loss that either team had suffered during the second half was Caromount one to Rocky Mount Mill and Rocky Mount Mill one to Caromount.

To break the tie and end the argument, a three game play-off was set up. This led to a pitching duel between Caromount's Robinson and Rocky Mount Mill's Coley. Racing against the evenings' darkness each pitcher did an outstanding job of whizzing "the old pellet" and probably deserve individual team honors.

In the first game of the play-off Caromount took the lead and defeated the Rocky Mount Mill's team by the score 2-0. Rocky Mount Mills and Coley came back in the next game and blanked Caromount to the tune of 4-0.

Scouts Attend Training Pow Wow At Camp Charles

Scoutmaster Perry English and Scouts Charles Cuddington, Dickie Edmondson, Harvey English, Mack English, Frank Hay, and Curtis Perry of Scout Troop 113 attended a training program for Junior Leaders at Camp Charles, near Bailey, North Carolina.

The Junior leaders Pow Wow began at 7:30 P. M. on Friday, September 10 and lasted through Sunday, September 12, 1948.

The program was divided into seven projects and movies were shown explaining each project.

Members of the local troop were especially interested in the program which included Patrol Troop Financing, Patrol and Troop Program Planning, Troop Meeting, Patrol and Troop Hiking, and Patrol and Troop Camping.

Troop 113 is sponsored by the Caromount Athletic Association.

They meet in scout cabin which Sidney Blumenthal & Co., Inc., recently constructed near the Caromount Athletic Field. Dedication Ceremonies for the cabin will be performed in the near future.

ADDITIONAL COTTAGE STEAMER INSTALLED

Reading left to right are Charlie Laughridge, Plant Engineer, and E. H. Suessmuth, Resident Manager of the Caromount Division. They are shown as they supervise the installation of a new cottage steamer in the Dyehouse. This steamer is the second of its kind in the Dyehouse. It is larger than the old steamer, but it has the same capacity. Its purpose is to set dye on printed goods and also to set the hair in pile fabrics. The new cottage steamer was added in order to increase the output of printed fabric.
