## Softball Sidelights

Perhaps we should say "prospects" instead of "sidelights," for at the time of this writing it's much too cold to do anything except talk over the prospects and to make plans.

A season well planned should turn out to be a season well played. All managers should begin to look around and see what players will be available, and above all, start 'talking' softball. By the time this goes to press it will be close to time for practice to start. For your health's sake, let's get out this year and Play Ball!

## Profitable Pastime

### One Less To Ache

Recently R. W. Tippett went to a local dentist for a check-up. An examination proved that one had to be extracted. Well, Tippett was scared to death (so the boys say). He turned pale, and then changed color several more times. Finally someone came to the rescue and gave him a dram of courage medicine to calm him down. What happened from then on we don't know except he did come home without the tooth. "One less to ache," he said.
