

People You Know

Mrs. Inez Narron Dawes, Examiner in the Final Examining Department on the second shift, has been employed in this department since May, 1942. She worked in the Mending Room as a Mender for a few months at first as part of her training for Examiner, and then came back to Examining to stay.

Inez was born in Johnston County May 3, 1909, the older daughter of Elisha Henry Narron and Mrs. Bethany Parker Narron. Her sister, Mrs. Ruby Narron Evans also works in the same department, but on the first shift.

Mr. and Mrs. Narron moved from Johnston County to Rocky Mount in 1923. Inez attended Benvenue High School, and graduated from there in 1928. She attended Atlantic Christian College in Wilson for one year; and then on November 15, 1930, she was married to Roscoe B. Dawes who is employed on the second shift in the Finishing Department.

Inez worked with A. Schottland, Inc.; S. G. Fail, Virginia Beach, Va.; and Charles Stores before coming to work at Caromount. She has been a reporter for *The Caromount News* for several years.

Inez and Roscoe built a house and moved in October, 1948, at 2826 South Church Street in Rocky Mount. They completed the house enough to make it livable and moved in to finish it. It is just about finished now except they want to add a front porch.

Inez is a very active member of the Southside Baptist Church. She says there is nothing that she enjoys as much as her church work. She spends most of her spare time in that manner.

Warping News

With the opening of Spring and the first warm weather, it looks like the first thing everybody did was to take their cars from the garage, and start traveling. That is the way the first Spring weather makes you feel, and most of the people in the Warping Department have apparently answered the call.

Mr. and Mrs. Luther Cuddington spent a weekend in Tennessee.

Mr. and Mrs. Will Young had a weekend in Greensboro.

Mrs. Deanie Stencil spent one Sunday at the Free Will Baptist Orphanage at Middlesex.

Mrs. Nellie Baker rode all day on Saturday to Greensboro, Durham and Raleigh looking for a speed boat. It must be about fishing time.

Mrs. Janie Alexander spent a weekend in Norfolk, Va.

New Face

Mrs. Iris Pridgen is a new face in the department. She worked here several years ago. We are glad to have her back.

This Year's Gardeners

Herman Allen will have to watch his language this year. He is gardening next to the preacher. Herman says he is challenging Rev. Lancaster to see which has the best garden, and in an effort to win he has had to replant some of his seeds.

Aubrey Frye says he stays plenty busy these days. He has started his garden and is also helping his wife get the flowers started in the yard of their new home.

Safety Scoreboard

The accident rate for the first quarter of 1951 is not favorable compared with the rate for the first quarter in 1950. While there has been only one major accident during 1951 there have been many which required medical attention.

As long as we work in a manner such that an accident can happen, it will happen sooner or later.

Albert Holmes, for a long time an operator on the Pick Pulling Machine, is a tragic example of what can happen as a result of an accident. Albert has undergone untold pain and misery and will be disabled for a long time. The use of his left arm will be greatly affected by this accident.

Help prevent injury to your fellow workers.

In the chart below the first column shows the number of accidents requiring medical care while the second column shows the number of accidents resulting in loss of time.
