

People You Know

Earl D. Raynor of the Finishing Department, came to work at Caromount in January, 1946. He has worked in the Finishing Department since that date.

Earl was born on December 2, 1918 in the Benvenue Section of Nash County. He has lived in that area all of his life except for eight years when he worked in Warrenton with a tobacco warehouse company. After this he returned to Benvenue and sought work at Caromount Mills.

Earl is a sportsman. He likes hunting and fishing, attends all the baseball games and when not working on Saturday he gets in a football game.

While interested in all sports he is primarily a hunter and a dog trainer. He states that he has been training dogs since he was seven years of age and he has one of the finest packs of beagle hounds to be found anywhere. Earl raises puppies, trains them to hunt and occasionally sells a few; but he is primarily interested in having a good pack on hand when hunting season opens.

Earl is especially fond of beagles. They are small and can hunt out rabbits in thickets which larger dogs cannot penetrate. The beagle is a one man dog and will not hunt with strangers. He makes an ideal pet because of his size and devotion.

Earl hunts a great deal with Harvey Robinson of the Dyehouse and their pack of beagles is eagerly awaiting the rabbit hunting season which opens on Thanksgiving Day.

Last year their pack of dogs accounted for 140 rabbits.

Mending Dept

New Workers

There are a few new workers in this department who have not been mentioned. They are Roger Nines and David Weaver in the folding department (second shift). They live on Route 4, Rocky Mount. They worked on the farm prior to coming to Caromount. We also have George W. Lewis, Jr., Route 2 on second shift and Flonnie Parker, Nashville, Route 1 at pick-puller on 3rd shift. We hope all of these young men will enjoy working with us.

Returned To Work

We are glad to say that Mrs. Samantha McLamb has returned to work at this time. She had been out more than a month due to sickness.

Improving

Claud Perdue is improving after a long serious illness.

At Fort Bliss, Texas

Master Sergeant Grover A. Gupton, son of Mrs. Janna Gupton, is now attending a range operators course at Fort Bliss, Texas. This course deals with range activities pertaining to radar.

30 Bushel Loss

Lawrence Worrell had about 30 bushels of apples stolen from him recently. He had them for sale.

New Purchases

Otha Vick celebrated his birthday by buying a new 1951 Chevrolet.

Mrs. Clara Harlowe has a new radio phonograph which they enjoy very much. The children especially enjoy it.

Mrs. Minnie Inscoe has a new electric sewing machine. We know she will enjoy sewing now, but hope she does not sit up too late at night to use it.

Moved

John T. Parker, third shift, has moved to 1515 Burton Street. There are others looking for apartments or houses. Mrs. Edith Dunn and Mrs. Mae Hill Williams want a four or five room house or apartment.

ECS Council Meets

The Fourth Quarterly meeting of the Eastern Carolina Safety Council will be held at Braswell Graded School in Rocky Mount, Friday, November 30 at 7:30 P. M.

Guest speaker will be one of North Carolina's best authorities on Industrial Safety, Mr. C. H. Hyslup, Director of Safety for the Chatham Manufacturing Company, Elkin, N. C.

A Better Thanksgiving

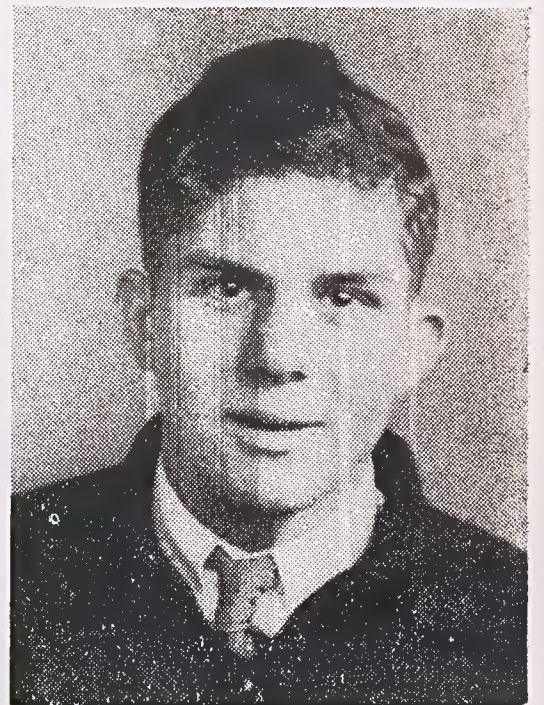

As we sit down to the Thanksgiving table far is the vast improvement in our festive fare as compared to that of the Pilgrims. And as we can enjoy the traditional turkey, we can reflect that it is not exactly the same type of fowl the Pilgrims feasted on. Modern turkeys are tendered, tastier, having been fed on nourishing, scientifically regulated feeds in turn have been grown in chemically protected and fortified soils. So also the bread, cranberries, vegetables and fruits which accompany the dish are better in quality and have been protected far more carefully in their journey from field to kitchen than anything our forefathers enjoyed.

As a result of this phenomenal change, we can give thanks that more of us are eating better food than ever before . . . that this food is more easily and safely preserved and transported over tremendous distances . . . and that science has given to modern man the promise of a longer life to be enjoyed in better health. Dyelines and Bylines.

"Next year either your dog goes or we plant another tree."

Our Service Men

Sylvester Gray Smith, formerly with the Caromount Engineering Department, is now in the United States Army. Sylvester had to report November 13, 1951. We hope to have an address soon.

From Westover, Mass.

Pfc. Gerald R. Frye AF 1437-3935; 1600th Communication Sqdn.; Westover A. F. B., Mass., writes that he is getting along fine, and that he has returned from the Azores where he helped in a search for a lost aviator.

From Savannah, Ga.

Pfc. Frank M. Weaver; A. F. 14409563; 2th Food Sqd.; Hunter. A. F. B.; Savannah, Ga., is getting along fine, and would like to hear from some of his friends at the mill.

From Dayton, Ohio

Capt. David Brake (Engineering) reported for Air Force Duty November 6, 1951. His address is Capt. David P. Brake; General Delivery; Area B; WPAFB; Dayton, Ohio.

Johnny Cockrell (Dyehouse), Sam Cockrell (Finishing), Pee Wee Simmons (Engineering), and A. B. Cockrell (father of Sam and Johnny of Nashville) are shown with their catch from Blount's Creek.
