## Wilson Addition Nears Completion

Shown above is the addition to the Wilson plant which is nearing completion. This addition, providing approximately 45,000 square feet, will house equipment recently purchased from Shepard Mills, Inc. of Manayunk, Pa.

This construction was done by the Company's Engineering Department under supervision of F. P. Laughbridge, Plant Engineer.

## Schilkowsky Begins Control Dept At Caromount

Carl Schilkowsky has been appointed manager of the Technical Control Department, which has begun operation in its new location at the Caromount plant.

Mr. Schilkowsky, a graduate of Harvard, began his employment with the Shelton division in July, 1936, in the printing department. He also worked in the chemistry and dye laboratory.

From 1942 to 1946 Schilkowsky was serving in the U. S. Army Medical Corps in the medical laboratory. He was in New Guinea 20 months. When he left the Army he returned to this company as a chemist in the Shelton Research Department in February, 1946, where he remained until his promotion to Manager of Control Department and transfer to the Caromount Division.

Mr. Schilkowsky has been a member of the American Association of Textile Chemists and Colorists, having served as Vice Chairman of the western New England section of this association.

Schilkowsky is a native of Shelton, Connecticut. Plans are being completed for Mrs. Schilkowsky and their son, Carl, Jr., to establish their residence in Rocky Mount at an early date. Mrs. Schilkowsky is a native of Bryson City, N. C.

Frank Pelters has transferred to Caromount to conduct the

sample dyeing in the Control Department. Mr. Pelters is an uncle of H. W. Rotters of Caromount, Dyeing Dept. He began his employment with the Company in April, 1913, as a dyer. He is a member of the Shelton Looms Service Club.

In 1923 Pelters transferred to the Design Department of the Shelton Division as sample dyer. Since that time he has been responsible for the development of new colors for all our fabrics and he is recognized for his outstanding contribution to this phase of our Company operations.

Frank Lovshin has moved south with the Control Department as its Electrical Engineer. Mr. Lovshin is a graduate of the University of Minnesota and is a native of Duluth, Minnesota. He has been with Sidney Blumenthal & Co., Inc., since April, 1941, at which time he joined the Research Department staff as electrical engineer. Lovshin has spent sometime in the Caromount and Wilson Divisions previously. Prior to his employment with our Company he was with General Electric Company.

The Caromount laboratory personnel will function as an integral part of the staff of the Control Department. Stephen Bennett will be responsible for development of colors and investigation of dyeing processes.

## Safety Council Meets In Roanoke Rapids

The third quarterly meeting of the Eastern Carolina Safety Council was held in Roanoke Rapids on August 21.

The speaker was D. C. Phillips, well known after dinner speaker of Chapel Hill, N. C. Mr. Phillips presented an entertaining yet thought provoking message relating to the need for increased attention to safety.

Herman Allen, (Warping) Clyde Evans (Weaving) and George Harper, Safety Director, attended this meeting.

The next regular meeting will be held in Rocky Mount during the month of November.

Plans are being made for the meeting to be a "Forum for Safety". This is a radio quiz show with many valuable prizes to be given away.

This program is presented by
