Let's Keep Our School Clean

We are now in our new school which we have wanted for a long time. One thing we need is full cooperation. We should take time and think about how clean we should want our school to remain. We should cooperate by doing the right things, such as putting paper in the waste can, putting all waste food in the garbage can and cleaning our feet before entering the building.

We can do these things by keeping our school spirit high and always working together. Our school represents us, so let us strive for the best representation.
