—Miss Nancy Tripp and Lottie Haddock returned last night from the Atlanta Exposition and report a delightful trip.

—It is rumored that Rev. R. D. Carroll contemplates locating in Ayden. We had the coming of such men as Bro. Carroll with joy.

—The residence of Mr. J. H. Cobb, which is now in course of erection on Main street, when completed will be the most commodious and handsome structure in the village.

—Our William went visiting Saturday evening and returned Monday. From the length of the visit and smiles he brought back, we judged he was gloriously received, and that she told him well, guess.

—Mr. John Tripp, who left this country a few years ago in search of a better land, was married in the State of Illinois about six weeks ago, and made the journey home, to his fathers, in a cab, a distance of about eleven hundred miles.

—Miss Alice Tripp, of Roxbury, after spending several days with Miss Pearl Wiggins, of Graingers, returned to her home Monday accompanied by Miss Pearl, who spent several days visiting friends in and around Ayden.

—We are instructed to say to those churches that failed to represent in the last Eastern Conference will forward their letters and contribution to the BAPTIST, and they will be represented in the minutes and the amounts of each one's contribution will be reported in the BAPTIST. Please forward them by Dec 5th 1895

—We expect to attend court at Snow Hill next week for the purpose of collecting for the BAPTIST. Hope all will meet us there and settle for the paper. We have been waiting patiently knowing that times was hard and money scarce; but now the fall season has come and more money is circulating, therefore we call on those that are indebted to the BAPTIST. We hope those that are not indebted to the paper, will not think that we have referred to them; but we do hope that those who are indebted will not think that it don't mean them. We have been waiting with some for a week to four years. Hop they will remember us and come forward and settle immediately.

FOLLOWING OUR ADVICE RECEIVED HIGH PRICES

We have been informed by Capt. Puce, manager Star Warehouse, that the reference made to their business in last week's issue, came to the notice of Bro. Adams, which induced him to try the Warehouse, and here is the prices he obtained for a two-horn load of tobacco: \$11, 25, \$18, \$16.50, \$17.75, \$18, 50, \$25, \$21, \$28, \$7.50, \$28, \$24.50, \$30, \$25 and \$32; yet some people think that advertising don't pay. When it comes to selling tobacco, it behooves the planter to have an eye on the man that has good light and where their tobacco is handled as it should be; but when they go rushing to first sales, because it is first sale, they need not expect the worth of their tobacco. Buyers take it or without any trouble just like other folks, and when they see you in a hurry to get rid of your tobacco, they know you are more bent on getting off than to realize big prices and naturally take advantage of it. We don't hesitate to advise our readers to try the new warehouse.

An insane man named Reed, living near Greensville, Rockingham county, attacked one of his daughters Friday week with a knife, cutting her throat almost from ear to ear. He then seized an axe and buried the blade of it in her body, killing her instantly.

Wilmin'ton Messenger, 10th: We learn that a man named English from Willard, N. C., was found dead by the railroad tracks yesterday morning near the Hill, on the Wilmington and Weldon railroad. His head was crushed and it is supposed that he was killed by jugging from a train.

The Herald tells of the good luck of some Beaufort fishermen while fishing in New river some time ago. They caught at one haul 525 barrels of mullets, being about 25,000, and weighing on an average 3/4 pounds each. The haul will net them something near \$1,500 at present prices.

In Richmon county week before last, a white man named D. W. Justice, killed Madison Quick, a negro. The murder is said to have been entirely unprovoked. Justice was drinking and shot the negro without provocation. The affair occurred about eight miles south of Rockingham. Local officers went on a hunt for Justice, but he escaped to South Carolina.

Six negro prisoners escaped from jail at Winston Friday by cutting through the wall. Harris down as he opened the

door to get a prisoner who was on his trial before a magistrate. One of them was charged with an attempt at rape and the others with larceny. At the account the prisoners were still at large but Sheriff McArthur thinks he will get every one of them.

In the freight wreck on the Atlanta and Charlotte Air Line Saturday two weeks, the first report stated that one man, the colored fireman, had been killed and this was thought to be the only fatality. Since then men have been employed clearing away the wreckage and two other bodies have been found in the creek. One of these was a tramp and the other a negro brakeman, says the Salisbury Herald.

In Barry county one might readily find a party of ten toughs and Charles and John McGrade in the road. A controversy arose over which should give the road, and the toughs opened fire on the two brothers. Charles McGrade was fatally wounded. Then the toughs went to the residence of a disolute woman and demolished things generally. They tore down the chimney, knocked out one side of the house, broke up the bedstead, threw all the bedding into the yard and made a bonfire of it, and then set fire to the house.

FINALLY, SOW WHEAT.

For some time The Democrat has been urging the farmers of this section to sow wheat. They have almost based the comparison of the matter of raising home supplies for the past few years; and now with plenty of home-made flour, the farmers would verily be "lords of the land."

We do not wish to take time and space here for a argument on the subject, for we have done that several times. We only call the attention of our former readers to the fact that during the month of November they may sow wheat, but later than this month will not do so well.

We believe that it is the best thing they can do towards completing the system upon which they have entered by making their farms self supporting. The conclusion we wish to draw is this: After studying the subject long and carefully, finally, we say sow wheat.—Scotland Neck Democrat.

IMPORTANT DUTY, INVOLVED ON THE CLERKS

Section 5, chapter 156, of the acts of 1895 is as follows: "That the clerk of the superior court of each county shall, within twelve months after the ratification of this act, establish, alter or create separate places of election in as to positive division, so as to provide, as near as may be, at least one separate place for voting for every three hundred, and fifty electors in every sub-division of their respective counties, who live such sub-division be a township, village, city or ward, of which and within the said clerk shall give due notice by advertisement in some journal published in the county, if any such there be; otherwise in some public place within the boundaries of each said voting places or precincts, and at the court house door in the county." Ratified 8th of March, 1895.—News-Observer.

A SNAKE STORY.

The Smithfield Herald is responsible for this, the biggest snake tale we ever heard: "Mr. J. G. Beasley, of near Hentonville, relates a very strange incident which happened to Mr.

A. Wellon's little boy. The child is only about eight months old. A few days ago while Mrs. Wellon was out of the house the child found a snake and by some means managed to get hold of the snake's head and tail with its hands. When Mrs. Wellon came in the child had bitten the snake near the throat and had almost killed it. The mother of course was frightened, and so soon as she could get the snake away from the child gave it something for poison, leaving it had been bitten. But the child has shown no signs of being poisoned since. It is supposed that the child by taking the snake as he did, so disabled the reptile that it could not bite him. The snake was 22 inches long. This is no 'fish story'."

HER COMPOSITION.

A little girl in Boston writes a composition on boys. Here it is:

"The boy is not an animal, yet they can be heard to a considerable distance. When a boy talks, he opens his big mouth like a frog, but girls hold their tongues until they are spoken to, and then they answer respectably and tell just how it was. A boy thinks himself clever because he can make words in a deep, but God made the dry land dry every living thing, and sowed on the seventh day. When the boy grows up he is called a husband, and then he stops working and stays out nights, but the grew up girl is a widow and keeps house."

A YOUNG CRIMINAL.

Sixteen Year Old Boy on Trial for His Life for Murder.

HURTINGTON W. Va., Nov. 9.—One of the youngest criminals ever brought before a bar of justice in this State is Perry Peyton, aged 16 years whose trial for murder in the first degree began this evening in the criminal court here. At a country school house five miles from this city, last August, Peyton shot down an innocent boy named Albert Davis, thinking the latter was poisoning him. He then escaped and was chased all over the country before being caught near Newport, Ky. His relatives are rich and have employed the most eminent counsel in this section to defend him. So much difficulty has been experienced in getting a jury.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being

a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
