**THANK YOU,
DOCENTS**

The Visitor's Center, under the management of **Susan Hayden**, topped \$41,000 in sales this year. This figure included the sale of several pots by Tashiko Takaezu, the proceeds of which went directly to the ceramics studio. The twice-weekly tours were very successful and, in addition, there were several large tour groups. We want to thank the docents, who told Penland's story close to fifty times!

NEA UPDATE

We had hoped to report that we had successfully completed our NEA match in this issue. As we go to press, we are \$73,000 away from our \$600,000 goal.

Early in December, we received word that a foundation with whom we have a large proposal pending changed their funding cycles and postponed review of our request until 1991. In addition, our board members who have been cultivating corporate gifts told us that given the current recession, they do not expect positive responses from their requests until sometime next year.

Under these circumstances, we decided it would be best to seek an extension for our deadline. When we spoke with the NEA Challenge Grant office, they told us that they have gotten many applications for extensions because of the state of the economy.

We know we'll make our match if we're granted the extension because we're very close now. We've gotten a tremendous response for help from Penland's friends. Many people have sent gifts with apologies for the small amount. At Penland, we accomplish some enormous tasks with a little input from a lot of people. We wouldn't be so close to our goal if we didn't have all of those "small" gifts. Thank you for your help. We'll keep you posted...
