FINAL NEWS FROM YOUR SQUADRON

333rd G. Is On The Beam

By SGT. FRANCIS T. FEENEY

Congrats to all the men on their recent promotions to the next higher grade. The Allied invasion of Europe wasn't anything compared to the invasion of Mt. Olive on June 19 by those two esteemed Lochinvars of Barracks 119. Cpl. "Dead Pan" Walsh claims sleep is good for all soldiers. Pvt. Cohen seems to think that he is running this outfit the way he goes out on passes and the passes the "buck" to somebody else. Sgt. Picariello is beginning to get on the beam with his new job as detail Sergeant. Our boys are careful. Sgt. Bennett or you'll be swinging a pick one of these nights. The "brotherhood of murder" S-B-G-I-Murphy, Cpl. Howe and Cpl. "Our Don" have given up Raleigh as their playground and are looking for new lands to conquer. We wonder why S-Sgt. Pierce doesn't stay in his barracks once in awhile after work. We miss your company Sgt., and we won't let you go.

Congratulations

Flash Cpl. "Andy" Lovask has gone and been promoted to sergeant, congratulations on your marriage. "Andy" Cpl. Kapinski got jealous of "Andy's" marriage, so he turned around and became engaged to his "Benny" Cpl. Deane. Cpl. "Our Don" Kapinski, our "Don" is Cpl. now and you should see the letters he is sending out, boy oh boy, the mail is catching it this week.

Cpl. "Dog Tags" Burke since his promotion is seriously thinking of running the main P. O. the way he orders everyone around. Some funny boy talk about the mail. Cpl. "Slingshot" Sawicki now has a problem on his mind, since his promotion he is thinking of how he can board his dog in the other barracks.

Sgt. Bennett has moved into Barracks 119. He says it's because Sgts. "Pic" and "Loggie" won't let him live the life of a dog in the other barracks.

Sgt. "Ducky" Clark is now back from his furlough and his assistant Pfc. (parade it's now Cpl.) "Curley" Free will have to get back on the beam. Pfc. Roy Kelly Nuto is on his way to spend his happy days in New Hampshire.

Wonder BOYS

We wonder what Pfc. Kenney, Carl and Cpl. O'Grady see in each other. They are sure to be getting quite a lot. Cpl. Alfaric says it must be love but we doubt it, they are afraid of getting out of each others sight as they must have something by their selves.

Pfc. "Sleep Time" DeVellis our new night OQ certainly knows how to pound his ear. Cpl. "Sammy" Shawver has given us his copy on "The Art of Mixing Love" and has settled down to a quiet life in the barracks. At Dental Inspection this week Cpl. Lascaris had the Dentist tell him he held his molars in his right hand, of course he was placed in Class 4.

Measles Man

The meanest man of the week to our "Red Back" Cpl. "W" is Pfc. Walden, he refuses to make the beds and shine shoes for the men in the barracks. It's pretty poor when our mail clerk can't even get any mail when I wonder why could it be, that he is going crazy counting the mail, please let us, Francis, Sgt. Sclare, our Sgt. mail, or is going home on a furlough next month to get married. Good luck, kid, you will need it.

Sgt. Patuchek

By CPL. LAPEBUTA & PFC. DWYER

Sgt. Patuchek of Ward 13 has been walking around in a daze for the last two weeks. The Barge arrived home one fine evening to find a double addition in the family, yep twin boys, congratulations Sgt. (what a man) Patuchek.

Sgt. (Big Noise) Trout was seen out auto riding with a couple of WAACE. Things aren't as bad as they used to be. Tech Sgt. Slim Eldridge-Sgt. (I have service) Martin and Pvt. Larro are now Blivoting. The hard hitting Officers soft ball club was saved by the rain the other night. At the end of three innings the score was 1-1. I suggest that the enlisted men hadn't even started to bear down. The next game we are going to allow them to use tennis rackets. We are considering swearing out a warrant for Lt. Archer for the way he umpired that game - ROBBER.

Cpl. Gene Penner a former white cover waver is now a Whim at first aid. Oh Yeah.

The nomination for the cheapest man is Cpl. Frawley according to Pvt. Rodgers. "He wouldn't give you the right time if he had two watches."

One of the best things we have seen yet is Pvt. Bendimer of the Sick and Tired Office running for a bus. WOO-WOO.

The answer to the 664 question. Why the Medical don't receive full laughs is because the Air Corps boys are soft and are always getting sick. Or is it just goldbricks? How about having another dance in the service club for the boys. Lt. Hecip O sentence description of Pfc. John O' Maloney. "Go but you are ugly."

913 Begins Honor Barracks System

By S-GT. R. W. BALL, JR.

Beginning this week the 913th Quartermaster Squadron has instituted the honor barracks awards system in line with the other squadrons of the Post. The awards for the past Saturday's inspection went to barracks 134 and Barracks 134. S. Sgt. Deignan, S. Sgt. C. Dwyer, and the men of their barracks are to be congratulated on being the first to receive this honor. The question is now: Will they be able to hold the award? The other barracks leaders are out to take away the plaques so let's see some real competition.

The winning softball team of the Squadron is now sporting new uniforms in two tone effect of brilliant green and yellow. What was to have been the twelfth straight game was rained-out, leaving the uniforms looking somewhat bedraggled, but a little dampening can't hurt the spirits of this team and the other teams will see plenty of that green and yellow.

The men were somewhat startled this week to behold a new Beau Brummel in the person of Cpl. Charles Weinstein, who has long been sporting the excess amount of cloth in his trousers. Now Charles is wearing the nearest thing to a tailor made suit that Army regulations will allow.

The night of something or other which happened on Sunday, June 20, when our day room attendant, Al Glasser, called his father for Father's Day and thoughtfully reversed the charges. Anyway we learned that Fapa was glad to hear from his "Little" boy.

Here's an Al Ease area between barracks of the 794th that really attracts the boys. Sitting in the foreground is Pfc. Dolphin E. Robinson of Norwood, Ohio. Standing by the gate and "gabbing" with him is Pfc. Odie C. Taylor of Weimert, Tex.

794th Welcomes New Officers

By SGT. BILL SPENCER

The squadron welcomes their new Commanding Officer Captain Jerome D. Malone this past week along with another new officer Lt. George "Brien" Along with the officers came several Non-Comms and other men. We are sure they will all find the 794th tops as a squadron.

Captain Malone started a new sport program off right away. The new baseball team has been organized under the management of Sgt. Harman, and all members of the squadron have not only been invited but urged to try out.

New Meeting Ring

The new hearing ring here in the squadron area gives promise of plenty of action for the men of the outfit. It is a regulation size and has the actual emergency system that covers the area now.

The best sounding voice on that system is Charge of Quarters Sgt. Albin. His voice is melodious and his voice is out of this world.

Sgt. Al Tomaszewski and his henchmen Sgt. Paul Kowalski were invited over the week-end. Kowalski stood up pretty well under the strain but poor Tomaszewski.

The softball team just about tore the place up in the other night in the softball league. The score was eleven to four and our men were only coasting.

The winners of the Mail department are S-GT. Bill Donahue and Cpl. Carl Melvin are planning a trip up to the scene of their latest conquest Baberville, N. C. The fellows rave about the wonderful time that they were given on their last trip. They called it real southern hospitality.

The lowest tier in the world in my opinion is that one who cleans the men's washing off the clothes line. If you're caught!!!! Well, let your conscience be your guide in a long drop into the Pit of Oblivion.

THREE VOLUME

A 32-page volume on service insignia which reproduced 64 descriptions of the Army, Navy Marine Corps and Coast Guard and naval aircraft, has been prepared by the National Geographic Society. Copies will be given to servicemen.

New Day Room Plans In 791st

By PFC JIM SOBRELLI

Within the not too far off future, the 791st Squadron will have another attractive Day Room similar to that in Building 641. Plans are underway for the interior decorations and part of the basic work has already started. It will be completely furnished with soft-cushioned chairs, venetian blinds, writing facilities, radio and record player and magazines. Model plates were made during the past week by five of the fellows from Barracks 823 under the direction of Lt. Honig. They have been put up in Day Room 841 and are for the use of the men in that barracks.

Each one was made according to a pre-determined scale. When viewed from a distance of 50 feet, they take the appearance of a real aircraft carrier. Each plane bears a number on the underside of its tail wing. These numbers estimate with those on a ship, as the wall which gives full details on each model.

Inventor At Large

When Aldo "Peter" Petropoli was first sent to this base he was intended that he was to become a mechanic student and in due time come out as a full fledged a. m. graduate. Lately many fellows from around and in barracks have been beginning to wonder if he really would make a good mechanic or that it would be better if he were put back in the Quartermaster Corps to do repair work on U. I. clothing. The reason for this is due to the fact that a few days ago Pete went into town and bought several yards of roofing material plus yard over yard of his tape. With these, needles and thread he went to work. After several hours of cutting, trimming, sewing and ironing, he had a beautiful hat. How and said that he was finished. Several of the boys gathered around to take a look, but some of them seemed to know what it was. It's maker informed them that it was a fly net to be hung over his cot. Since then he has been sleeping much sounder.

Love Bug Bites

From the way many of the fellows have been carrying on lately it is quite apparent that the flies and mosquitoes are not the only pests of insects or bugs that have been biting. Down in barracks 638

799th Loses Two Officers

By SGT. DON SUTHERLAND

Following close on the departure of Captain Stratton, two more officers were transferred out of the squadron during the past week. Lt. Garrett J. Mobley and Lt. Frederick W. Blackwell. The squadron's association with these two fine officers was always pleasant and they have our sincere and hearty wishes for success.

Every man is welcome to his own opinion, but the considered decision of the rest of the squadron is that Bob O'Brien definitely shouldn't have stood in front of Harry James and said (quote) phoney (unquote). Just goes to show what that first visit to the Bib City does to a guy.

On their return flights after singing "Mona" and "Alouette" fully merits the Excellency Banner they received for their vocal efforts. The squadron's association with these two fine officers was always pleasant and they have our sincere and hearty wishes for success.
