

State College Hints Farm Homemakers

By RUTH CURRENT N. C. State College

Do your part in preventing home accidents and sickness.

(1) Prevent home accidents by removing hazards.

(2) Be careful while doing every task. Dress suitably for your work. Use the right kind of equipment and use equipment properly.

(3) Avoid exposure and over-fatigue.

(4) Eat some of all the "Basic 7" foods every day. Good food keeps us physically fit.

(5) A "First Aid Kit" should be in every home. Simple ailments should be treated promptly.

(6) Take the Red Cross first aid course in home nursing and nutrition. If you have an opportunity, Hospitals are full of sick people. Doctors and nurses are scarce.

Washing such greens as spinach, turnip greens, and mustard in slightly warm water helps to remove grit and makes the bugs and worms that may be clinging turn loose.

To prevent salt shaker top evaporation, remove tops from the salt shakers, invert and pour melted paraffin through them. Enough paraffin will adhere to coat the surface and holes may be opened with a needle. This lasts indefinitely.

Urge Greater Use Of Nitrate Soda

Raleigh, N. C., May 18th.—In an attempt to create greater production of corn in North Carolina this year, the State Feed Advisors Committee is now urging farmers to use larger quantities of nitrate of soda, preferably 250 pounds to the acre.

Representatives of various agricultural agencies in the State agreed to push a campaign to this end. E. M. Hansen, of Raleigh, agronomist, recently presented experiments conducted by him last summer which showed that with nitrate of soda, applied at 250 pounds to the acre, the yield was 21 cents based on 250 pounds in the acre.

Hansen said the number of pounds of nitrate of soda required on the average to produce an extra bushel of corn was 10.6 pounds. He explained that an acre of land which normally produced 204 bushels of corn, an application of 250 pounds of nitrate of soda increased the yield to 37 bushels.

Robert C. Brown, representative of the State War Board, recently informed the committee that this States production of 4-million bushels of Canadian oats in Southern states was Monday set at 16,500 bushels, more than 100,000 bushels in the grain. On the advice of the committee, 40 per cent of this shipment will be used in the form of straight oats the remainder to be used in the manufacture of feed.

Despite the labor shortage and

other difficulties, indications are that farmers will increase their production of various crops. Coltrane said, in showing that from July last year through May 8, fertilizer tags for 1,308,854 tons of fertilizer were issued, as compared with 1,281,061 tons for the same period a year ago.

FSA Officials Met May 5 In Warrenton

Farm Supervisors and secretaries for the Farm Security Administration in Warrenton, Vance, Granville, Franklin and Halifax met in Warrenton Friday, May 5, 1944, at the Hotel Warren. The meeting was held to discuss and plan how to best carry out important phases of the FSA work needing attention now and in the near future.

Much emphasis was placed on advising with Farm families on various farm practices applicable to the farm families in this section with whom FSA is working. Every effort is being made to encourage FSA families to meet their war production goals and maintain and improve soil resources. The discussion of farm practices was led by J. E. Hill, District Supervisor.

Samuel E. Wilson, Associate District Supervisor had charge of handling the program on the administrative phases of the work.

The secretaries were instructed by Miss Carrie E. Barnes, Administrative Supervisor on various phases of better office management and routine.

Mr. Hill told the group that he had observed considerable progress among these counties in carrying out their program of work in such a way as to be proud of the progress shown.

FSA families in North Carolina increased their sales in 1943 over 1942 by 49 per cent for eggs, 29 per cent for poultry, 30 per cent for milk sales, 105 per cent for cattle and calves, and 71 per cent for hogs.

These figures have just been received from the Raleigh Office according to Thomas J. Swain, local FSA supervisor for Halifax County.

FATS

There are two types of fats—hard fats and soft or liquid fats. There is a real shortage of hard fats, the kind that you can salvage in the kitchen. Need for kitchen fats this year, - 500 million pounds.

To Increase Size Of Agricultural Review

Raleigh, N. C., May 18th.—The Agricultural Review, four pages semi-monthly State Department of Agriculture publication, will on July 1 be increased to eight pages according to Thompson Green-

wood, publicity director of the Department. He said the Department had been assured of a sufficiency of newsprint to increase the size of the paper, and added that "the enlargement is necessary because of the recent great increase in circulation and the resulting increase in want ads carried by the 70,000 subscribers."

Want Ads

All Classified ads must be sent in by Wednesday, 5 o'clock taken after that time.

J. O. U. A. M. MEETING MONDAY NIGHT

The regular meeting of the Edison Council No. 270 Junior Order United American Mechanics will

Donnell Gilliam, Solicitor Of The Second District Endorses Cameron S. Weeks For Congress

The following letter was written by Mr. Gilliam to many of his friends in the District soliciting support. The letter expresses the thoughts and feelings the people of Edgecombe County have for Cam Weeks and all others who know him.

Tarboro, N. C. May 12th., 1944

Cameron S. Weeks, as you probably know, is a candidate for Congress. He is making an active and aggressive campaign and it is likely that he will see you before the Primary. I am deeply interested in him and in his campaign and am prompted by this interest to write you. Cameron is a wholly sincere gentleman, with great earnestness of conviction and purpose, which laudable ambition and determination to succeed in spite of the hindrance of blindness. I believe he deserves this success, and so will you when you come to know him.

Due to an accident when he was twelve, he has been unable to see anything since April, 1909, but this misfortune only served to inspire him with even greater determination and ambition, and for fourteen years he has met the responsibilities and problems of life cheerfully, manfully and successfully. His attainments during this period serve to demonstrate clearly his character and ability. With the aid of some one to read to him, he obtained his LL.B. at the University in 1933 and his license to practice law in the same year. Since that time he has practiced in Tarboro and has served as County Solicitor, Legislator and County Judge, which position he gave up to run for Congress. All of these important positions he has filled with honor and credit and to the satisfaction of the people of Edgecombe who have put their confidence in him. Encouraged by this confidence and matured by the experiences of forty-years of uphill struggle, he is now asking the people to send him to Congress. In doing this, he is not asking through sympathy what he would not claim upon merit.

It is my confident opinion that if elected to represent our District in Congress, he will serve us honorably and competently. May I hope that you will give due consideration to Edgecombe's candidate when you come to mark your ballot.

With kind regards, I am, Sincerely yours, DONNELL GILLIAM.

"Paid for by friends of Cameron S. Weeks."

D. W. McPherson On State Committee

Raleigh, May 16th.—William E. Griffin, Durham business man, is the newly elected Chairman of the Brewing Industry Founda-

tion's North Carolina Committee.

Chairman Griffin and the following members of the Executive Board were elected at the Committee's annual meeting in Raleigh.

C. P. Nanney of Gastonia, C. F. Smithson, Jr., of Fayetteville, N. S. Forester of North Wilkesboro, D. W. McPherson of Littleton and H. G. Wright of Greensboro, representing the distributors.

S. I. Lewis of Raleigh, Walter Bartlett of Norfolk, Douglas Gordon and C. L. May of Newark, R. K. Kennedy of Greensboro and W. J. Huster of Cincinnati, represent-

ing the brewers.

W. S. Burruss of Raleigh, Treasurer of the Committee.

4-H A new 4-H contest, whose chief objective is to prevent soil waste and deterioration by practicing approved methods of protection and conservation, will be known as the "National 4-H Soil Conservation Contest."

HOGS The price support program for hogs has been temporarily extended to include good to choice butcher hogs of 180 to 200 pounds, announces the WFA. The program now applies to hogs from 180 to 270 pounds, good to choice

My name is Hermann Goering. ACK IN the days when the German war machine was steam-rolling over Europe, the Reich Marshal boasted: "If one enemy bomb should ever fall in the city of Berlin, then my name isn't Hermann Goering!" Well, Fat Boy, they've fallen—and there are plenty more on the way! With plenty of giant bombers to bring them—and well-trained crews to see they reach their mark. And back of these aerial armies the productive power of free men and women—multiplied many times by ELECTRIC POWER, turning the wheels that turn out the weapons of war. There's plenty of electric power where that comes from, Herr Goering—plenty for all essential war and civilian needs. VIRGINIA ELECTRIC AND POWER COMPANY. DON'T WASTE ELECTRICITY JUST BECAUSE IT ISN'T RATIONED

THE OLD JUDGE SAYS... "Guess we're pretty lucky in our town, Judge, that we don't have the youth problem you read about in other places." "Don't know as you can call it lucky, Harold... we saw it coming with the war and we did something about it before it hit us. We gave our 'teen age youngsters the recreational facilities they needed and really wanted. Those familiar with this wartime problem know that young folks go to places they shouldn't only when the proper places are not provided for them. Young people always want to be with others of their own age... want their own type of entertainment. Town after town has found out that once these simple wants are met, the problem is well on its way to being licked." "Guess I didn't really know how far-sighted our town really is, Judge. If we hadn't looked ahead we wouldn't have had anybody or anything to blame but ourselves, would we?"

My name is Hermann Goering.
