BUTTERWOOD TOWNSHIP (Colored)

| | |
|---|--|
| Bowser Est. of W. W., 4 1-2 ac. old W. W. Bowser home | |
|---|--|

Farmers Produce Fine Grazing Crops

Farmers are making outstanding records in all sections of N. Carolina this year with temporary grazing crops for livestock, reports Dr. Emerson Collins, in charge of Extension Agronomy at North Carolina State College. He points out that these growers sowed relatively large amounts of seed per acre, in some instances as high as three bushels of small grain and 40 to 50 pounds of clovers per acre; fertilized heavily; and planted the crop early, generally in September for best results. Good moisture conditions have been instrumental in producing exceptional records in many cases. For example, County Agent L. T. Weeks of Wake County reports that Irving F. Hall sowed 22 acres with a mixture of 20 pounds of crimson clover and 20 pounds of rye grass per acre the latter part of August. He applied 500 pounds of 3-9-6 per acre at planting and topdressed with 200 pounds of nitrate of soda in early March. "From December until sometime in April this 22 acres carried 150 hogs and 40 head of cattle without any other feed of any kind," says Weeks. Alvin R. Askew of Goldsboro, Route 2, used 2 bushels of oats and 1 bushel of wheat per acre as his mixture. W. R. Chambers

Seate Museum Is Publishing Booklet

Raleigh, N. C., May 10th.—Harry Davis, Museum director, announced yesterday that a 16-page booklet on "Poisonous Snakes of the Eastern United States" will be published by the State Museum within the next few weeks. Although the booklet was written "for those who work and play in the out of doors", Davis said, the Army has shown great interest in the project and may use the booklet in its training program. Ten thousand copies will be printed in the first edition according to the announcement. Besides four color pages, there will be 12 text illustrations and a first aid guide. The booklet was written by C. S. Brimley, State Department of Agriculture entomologist, and Davis.

VOTE FOR

Cameron S. Weeks

Candidate for CONGRESS 2nd. District

LAWYER, FORMER SOLICITOR, STATE LEGISLATOR AND JUDGE
His Record Justifies Your Vote.
Friend of the Little Man - Farmer - Service Man and Wage Earner

THOUSANDS OF ARMY VEHICLES

USE SINCLAIR LUBRICANTS

In saving wear and avoiding breakdown the U. S. Army uses Sinclair lubricants in many "Jeeps", tanks and other vehicles. Your Sinclair Dealer has the same quality lubricants to reduce wear in your car.

To save engine wear he has Sinclair Opaline Motor Oil. Opaline stands up better and lasts longer because it is not only de-waxed but also de-jellied. Play safe, have your Sinclair Dealer drain and refill your crankcase with Opaline every 1,000 miles.

OIL IS AMMUNITION - USE IT WISELY
