

Cisco firm plans more RTP hirings

Cisco Systems Inc. plans to hire 400 more people in Research Triangle Park than it originally projected last summer.

A California-based computer networking company, Cisco announce last summer that it planned to hire about 600 people, but President John Chambers now believes 1,000 employees will be needed to meet growth over the next two to three years.

Ground was broken May 20 for a 120,000-square-foot building in the Wake County section of the park. The building will serve as the headquarters for Cisco's eastern U.S. operations.

Cisco moved into an 80,000-square-foot office building in April and already employs 200. Its 43-acre site on Kit Creek Road has room for two 120,000-square-foot buildings in addition to the one for which ground has been broken.

For the nine months ending April 30, the publicly traded firm showed a 54 percent increase in revenue and a 23 percent increase in net income. Its stock has more than doubled in value since last July.

About 60 percent of the workers hired so far have been Triangle residents. Cisco President Chambers said workers transferring from RTP from California "think they have died and gone to heaven."

Amtrak to offer new service

There's a new way for Morrisville and Preston residents to travel to Charlotte.

Starting May 26, Amtrak will offer regular service from Raleigh to Charlotte on North Carolina's newest passenger train, the Piedmont.

A passenger car on the Piedmont, named the Honey Bee after the state insect, has 66 seats which recline and can be turned around to face the seat in the next row. Business commuters can plug laptop computers into an AC electrical outlet and use a telephone credit card to make calls.

The 172-mile trip, with a 7:10 a.m. departure, will take three hours and 45 minutes. Stops will be made in Cary, Durham, Burlington, Greensboro, High Point, Salisbury and Kannapolis. A round trip from Raleigh or Durham will cost \$36 and a one-way ticket is \$29.

The return trip on The Carolinian leaves Charlotte at 5:45 p.m. and arrives in Raleigh at 9:30 p.m. Meals will be served on both passenger trains.

Faircloth, Heineman endorse plan

Sen. Lauch Faircloth and Congressman Fred Heineman have endorsed the Environmental Protection Agency's plans to building a one million-square-foot building in the Durham County section of Research Triangle Park.

The proposed building, which would be located south of N.C. 54 off Alexander Drive, would house 2,400 employees now scattered at 10 rented sites in the Triangle. It would be a U-shaped structure with five interconnected buildings up to six stories tall.

Faircloth said May 20 that he agreed to support the plan after the cost was trimmed from \$265 million to \$232 million. He said he would propose capping the cost outside of Washington, had threatened to build its center in another state if its RTP plans were not approved.

EPA's budget includes spending \$50 million in the 1995-96 fiscal year on building roads, installing water and utility lines, and other site development. The project would be completed around the year 2000.
