TRIP TO NEW YORK

On Wednesday evening, April 13, Miss Wayne and I set out on quite an excursion. Our destination was New York. After a very restful (?) night on the bus, we arrived there around 7:30 a. m., Thursday morning. That day was spent in touring the city. Among the sights we saw were St. John's Cathedral, Columbia University, Mt. Sinai and Bellvue Hospitals, Fifth Avenue, Wall Street, Broadway Theater district, Empire State Building, the Statue of Liberty, and Chinatown. That night we went to the Martin-Beck Theater to see "Teahouse of the August Moon." It was a delightful comedy, which we enjoyed very much.

Friday was spent at the United Nations Building. This was a very valuable experience, for our own Dr. Frank P. Graham talked to us about the work of the United Nations. We went on a guided tour of the building, which is quite beautiful. In the afternoon we had a chance to spend some time in the gift center, where we had the opportunity to purchase souvenirs from all the countries represented at the U. N.

We left New York later Friday evening and arrived in Washington, D. C., that night. Saturday morning we visited our senators, the Capitol, and various other points of interest. Saturday afternoon, after a very successful trip, we started home and arrived in Raleigh about 8:30 a. m.
