## EDITORIAL

Two years ago a number of high schools in different states co-operated in getting students to fill out, and have unsigned, questionnaires concerning shooting in the schools. Results showed that approximately 75 percent of the students admitted to carrying a gun with a .38 Smith & Wesson; ninety percent admitted to at least one act of shooting; and twenty percent admitted to carrying a gun.

Now Smithfield High School is the only school in the area where all were taken care of.

When in the place we might now refer to as "The S. H. S. Madhouse" can be shot or at least allowed!

If anyone would go in, get the doors closed and make them exit as quickly as possible, it would help the
