

NEW TEACHERS

Boom! What was that explosion that rocked the seats of our S.H.S. students? Maybe it was a bomb the enemy is dropping over our heads, or dynamite that someone set off. No! If we examine closely we will find that it is Mr. Benton in his chemistry class, showing the students how to make an experiment without having it explode.

Mr. Benton who is a graduate of Fremont High School and Atlantic Christian College in Wilson, is here for his first year teaching chemistry and biology. While at A. C., Mr. Benton double majored in science and mathematics.

Some of Mr. Benton's favorites are:

- Food - steak
- Color - green
- Music - popular
- Sport - basketball
- Movie - "From Here To Eternity"
- Hobby - amateur radio

Parlez-vous francais? Mais oui? Mais non? If your answer is yes, good. If no, beware! Mrs. Peele may have you in her French class yet.

Mrs. Peele, who came to join the S.H.S. faculty this year, graduated from Rich Square High School and Meredith College. Her majors were Latin and French.

Mrs. Peele admits she does not have time to develop a pet peeve and when asked how she likes our high school she quickly replied, "I love it." Before she taught here, Mrs. Peele taught in Middlesex, N. C.

Some of Mrs. Peele's favorites are:

- Food - Barbecue chicken
- Color - blue
- Music - dreamy
- Hobby - painting
- Sport - basketball
- Pass time - traveling

Welcome to Smithfield High School, Mrs. Peele and Mr. Benton!! Student, watch the next issue of the High Times for news of our other new faculty members!

Betsy Reid
