IREDELL CITIZEN

"I AM A FARMER'S DAUGHTER, and proud of it. Dad calls me every morning at five and I'm off to my waiting chores; watering our flock of chickens, helping with the milking, and then returning to the house to cook breakfast while mother finishes washing up in the milk parlor. You might think I'd like to get away from this but no, after I finish college, I certainly hope there will be a farm in my future."
