December Blood Drives Scheduled

Traditionally blood supplies in Iredell and surrounding counties during December hover between a day-and-a-half and a two-and-a-half-day supply. Since an adequate supply is considered to be 5-7 days, several emergencies could quickly deplete blood reserves.

Therefore, the American Red Cross Greater Carolinas Chapter, really needs your help during the December blood drives. While type O and B are always in high demand, all blood types are needed.

Blood drives in Statesville during the rest of December are:
