## Motenson Speaks at Davidson College

Greg Mortenson, co-founder and executive director of the Central Asia Institute, will speak at Davidson College on Thursday, Dec. 4, about the incredible personal journey that led him to devote his life to creating community-based, locally-initiated development projects in this volatile region of the world.

A 1993 attempt to climb Pakistan's treacherous K2 almost cost Mortenson his life, but local villagers saved him. He consequently founded the Central Asia Institute to help them escape their poverty and poor conditions, and during the past decade has devoted his life to that cause.

There is no charge for the talk,

which begins at 7 p.m. in the Building. Call 704-894-2240 for details.
