## The President

Just a week ago today at five forty-nine o'clock, the world was shocked by the news of the death of President Franklin Delano Roosevelt who died of a hemorrhage.

He received severe criticism for many of the projects which he undertook, but when one considers how many of these measures have been helpful to our country, the others are almost imperceptible.

Many of us ask, "Isn't it strange that at such a time as this the Lord should take from us such a brave, brilliant, and powerful personality." It may be, however, that the death of Franklin Roosevelt will do more to unite the world than any person or event could ever do.

Prime Minister Churchill asked for the adjournment of the House of Commons. Portugal's flags are at half mast, and the flag-ship of its navy is firing a salute every half-hour. People all over the world, regard-

We feel, that we can best pay tribute to the great president by making our own the great heritage of ideals which he believed would ultimately bring social wars and injustices to an end.

### How To Date a C. H. H. S. Girl

(The following discourse has been written after several months of hard, yet stimulating research. The data here is not necessarily correct or complete, and anyone obtaining results or having experiences contrary to what is found in this column should report their findings immediately in the interests of humanity.)

In dating a CHHS girl, one must first pick his victim. He has two types of females to pick from. First, there are those who like to sit around and talk. And then there are the ones who like to have some fun. As some forgotten soul said, "Women are like street-cars. Never run after one, there'll be another along any minute."

Now that you have the girl, the next thing to figure out is just what to do on your date. Most popular practice around Chapel Hill is to go to Smith's Cinema, more commonly known as the Carolina Theatre. If you decide to do this it is advised that you see the show in advance thereby familiarizing yourself with the critical points in it which you may use to your advantage and also to actually see the picture itself. Remember whether you be a wolf or a gentleman, it is always proper for you to sympathetically hold your date's hand (or to comfort her some other way) during the more touching moments of such a show as "Thirty Seconds Over Carrboro" starring Cas Gobble (Chapel Hill's answer to Van Johnson).

If you decide to go elsewhere, we will not attempt to advise you further because of the lack of space and the fact that Miss Mancini is at present looking over our shoulder.

Once alone with your date, you must decide on one of several approaches. First, there is the Indirect or Military (Use of the word "Military" does not signify an endorsement of this approach by the War Department as it does not endorse any approaches) Approach. In this approach, the aggressor (usually the boy) asks the victim if he or she has heard about how Patton broke through in Normandy. A negative answer immediately brings on a demonstration with the right arm representing the right flank advancing and the left arm representing the left flank advancing and so on . . . This should never be tried on Army Brats or Navy Juniors as they are already familiar with this strategy (Don't we know it).

Other approaches such as the "I've always wondered how your hair would look on top of your head" or the "Do you mind if I park my chewing-gum behind your ear" may be used and will be found effective.

If you need a special approach for a special girl just be sure to call on us. We will be glad to help you out. Just remember, if you ever get in a situation where you don't know what to do, be sure to call us right up, and we will be glad to come right over and help you out with your problem.
