Bishop Discusses Freedom, Authority

WASHINGTON - (NC) - A bishop said here conflict between freedom and authority causes frightening situations.

The problem perplexes courts, concerns theologians and philosophers, agitates universities and social institutions, Auxiliary Bishop George H. Guilfoyle of New York declared.

Preaching at the annual Red Mass for lawyers in St. Matthew's cathedral here, Bishop Guilfoyle said whatever the proper roles of freedom and authority, there must be boundaries.

Archbishop Patrick A. O'Boyle presided at the Mass which was offered by Auxiliary Bishop John S. Spence of Washington.

The Second Vatican Council, stated. Bishop Guilfoyle "stressed freedom - the individual freedom vital to each man's person and dignity. "IT IS in freedom," he said, "that man properly directs him-

self toward goodness." "Indeed," he added, "authentic freedom is an exceptional sign of the divine image within man."

"In recent years," Bishop Guilfoyle told jurists, diplomats, lawyers and government offi-cials at the Mass, "increasing stress has been placed on the exalted dignity of the human person —every human person." "This heightened awareness of man's dignity is evident in the courtroom and in the legislative chamber as it was in the deliberations of the council," the bishop said.

man is not an island. Man is,

by his very nature, a social be-ing, forming with all other men one human family.

"In this family God wills that one person treat another in a spirit of true brotherhood. The dignity and the rights of each human person have become daily more evident and their fulfillment more urgent, but so also has human interdependence.

"Acceptance of human interdependence, in the spirit of brotherly love," the bishop de-clared, "is the hope and need of mankind in our time."

BISHOP GUILFOYLE said "the central thoughts of the Second Vatican Council have special pertinence not only for you who are members of the bench and bar, but for those of you whose responsibility it is to enact and administer our laws. . . ."

Bishop Deplores Those Giving Without Love

BOSTON - (NC) - "Aid without knowledge and without love hurts him who gives and him who receives," the keynote speaker told some 600 persons at the opening here of the fourth annual national conference of the Catholic Inter-American Cooperation Program (CICOP).

Bishop Mark G. McGrath of Santiago de Veraguas, Panama, cautioned North and Latin American participants in the conference against such aid and pointed to CICOP as a means for developing the mutual understanding and love on which, he said, all aid should be based.

Tracing the work of CICOP since its launching in 1963 by the U.S. Bishops' Committee for Inter-American Cooperation, Bishop McGrath emphasized that the organization's "message is not a sales talk, not an appeal, but an effort to make Latin in North America known" America.

"Ignorance and indifference" concerning Latin America must be eradicated, he said, before cooperation is possible. CICOP is attempting to do that than er

and unity," the letter states. It declares that ". . .the Church today has to be a bond of unity among all Christians" and "what we in Latin America now receive we will soon be able to give. . .

An appropriation of \$30.000 from the 1966 U.S. bishops' national collection for Latin America has been made available for use in a pastoral program de-signed to aid one-third of the people of Chile.

The Latin America Bureau, National Conference of Catholic Bishops, announced the \$30,000 program will be administered by Raul Cardinal Silva of Santiago, Chile.

It has been estimated the program will affect some 3,100,000 persons residing in the Santiago area. The program of religious renewal, it was reported, was necessitated by the acute shortage of priests in Chile, where there is one priest to each 3,135 Catholics.

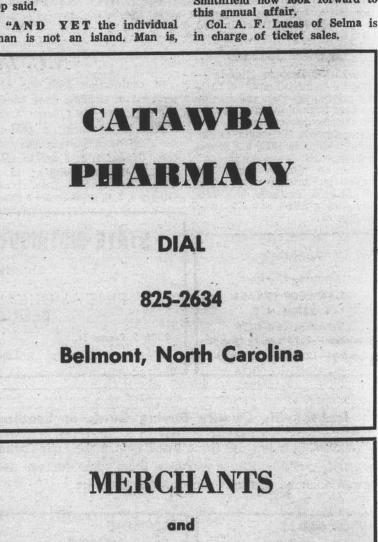

Made by Pope SAN FRANCISCO - (NC) United States Catholics serving the Church in Latin America have more than doubled since the 1960 papal plea for in-creased aid to the Church in Latin American countries.

The increase from 2,405 to 5,116 was reported to Pope Paul VI by Archbishop Joseph T. McGucken of San Francisco, chairman of the committee for religious personnel of the U.S. Bishops Committee on Latin America.

"We are happy to report substantial progress to Your Holiness," Archbishop McGucken wrote to the Pope. "The most reverend Ordinaries of the dioceses of the United States, as well as the major superiors of the religious communities recognize the gravity of the responsibility placed upon them to an-swer this extraordinary call."
