

MATERIAL WAYS TO A CHILD'S HEART

TOYLAND

Christmas time is drawing near—Santa Claus will soon be here, with his toys and—**BUT** not unless you make an early selection of those toys you want him to leave at your home for the youngsters. While our Toyland department is heavily stocked, it is not inexhaustible, and we suggest an immediate visit. Last minute selections are never as satisfactory as those which have been carefully chosen from a complete stock.

All the standard and old favorites are here, as well as many new, clever, ingenious novelties that will rival the old favorites in the children's heart.
