

Mike Long, son of Mr. and Mrs. James Long, of Wake Forest is the first Cub Scout of Wake Forest, Pack 5 to receive the Webelos Badge. Pack 5 has been active since March 1951. Mike was presented his Webelos badge by his father following the usual custom of having the parents hand the badges to Cub Scouts.

The completion of the wolf, bear and lion Cub Scout badges must be made before a Cub Scout can do work on the Webelos badge which they receive at age 10 1-2 years before becoming a Boy Scout.

Mike is already a Boy Scout but retained his interest in Cub Scout work long enough to receive the Webelos badge.

## Roving Around

Our nomination for "meanest person of the week" goes to the unknown person, or persons, who stole the 200 pound Iron Dog and replaced from the arch at Crenshaw Hall, west of town. Mrs. T. Jones, owner, says that it has been there for more than 30 years. Any of you know where it is, please do your good deed, and return it to the lady.

Another sure sign of spring is the painting of street signs, and signs and markers that the town is doing. A well-kept town is like a well-groomed person — a pleasure to be seen at any time by anyone. It will look nice for Easter!

Someday — there is going to be every serious accident out on Rte. 1 at the red light in front of the middle school. Often have we seen cars neglect to stop, or even slow down, for the light. They plow through it, regardless of the color — and not all the violators are out-of-state cars, either. There is a double reason for obeying the law there — a school zone and a red light. Let's break it up!

This Sunday is Easter, and we invite your inspection of the full-page advertisement in this issue, sponsored by many of your local merchants. They, and we, take it as a means to express our greetings to you all for a nice Easter holiday. Also, the many churches of the area invite you to attend services with them. Be sure to go to the church of your choice on this glorious Resurrection Day.

Someone read this column last week — our thanks to R H Branson, who suggested that we say something this week about the "thorn" approach to town. He refers to the deplorable way in which the trees are cut and butched up to allow the power and telephone lines clearance. If you do not agree with him — go down the way today (as Branson does once a day or more to his home in Forestville) and see for yourself nothing should be done about it. We can't do it, we just call it your attention. You must be the one to do something about it!

## Here's the Story of Two Local Honor Students

Two Wake Forest resident students were elected to Phi Beta Kappa, highest national scholastic fraternity, by the faculty selection committee at a recent meeting.

They are Mrs Hildegarde Webb, wife of Marvin L Webb of Fountain, N C, and Wake Forest, and Charles Albert Wilkinson, son of Dr and Mrs C T Wilkinson of Wake Forest.

There were 17 other students elected to the fraternity. In order to be a member a student must have a 2.3 average on all work and at least a 2.5 average on all upper division work.

Mrs Webb is a German girl who met her husband while he was serving with the U S Army of occupation in Germany. She was working in an office at Army Headquarters when she met young Webb. She studied English in high school for six years and spoke English very well. She says the German High School work begins with the fifth grade and continues through the tenth and that English is taught in all schools.

### Married in 1948

She and Webb were married in April, 1948, and she joined her husband in the United States in October of that year. He had already enrolled at Wake Forest College when she arrived. He insisted that she enter college too, so in February, '49, she began her career as a student at Wake Forest. She has a major in French and an minor in education, and she will have a teaching certificate in history. She will receive her degree in August.

### Teaches in Youngsville

Mrs Webb has been doing practice teaching at Youngsville this spring. Besides her school work, she keeps a neat apartment, cooks and takes time out for some social activities.

## 'Mother Is A Freshman' Will Be Given Thurs.-Fri. At High School

"Mother Is A Freshman", the big spring production of the Dramatics Club and the senior class of Wake Forest High School goes on the stage for an audience three times next week, and the gossips whisper that it will be well worth seeing.

Performances are Thursday morning at 10:30 and Thursday and Friday evenings, April 17 & 18, at eight o'clock.

The play, written by Raphael David Blais, is currently one of the most popular plays for amateurs. It is remembered by many, as the movie filmed several years ago starring Loretta Young as a mother, who decides to attend college with her teen-age daughter for reasons which only David could create. The college is willing to accept a thirty-five year old woman, declaring that the whole set-up is a big publicity stunt.

Taking Miss Young's place in the Wake Forest production is

Miss Peggy Jeffosat, a newcomer from Greenville, S. C. As a junior she played the role of Juliet in a high school production of "Romeo and Juliet" in Greenville last yr. This year she is portraying the most attractive Abigail Abbott, whose age is thirty-five, but who is so lovely that the boys take her for a normal eighteen year old freshman and desert daughter Susan for mother.

The leading male role, Professor Michaels, is played by Harold Arthur Wilkinson. Professor is a handsome zoology professor with whom all of the girls are madly in love; the professor, though disappointed them all, and will let you find out for yourself.
