### Merchants Form Wake Forest Credit Bureau

Several merchants of Wake Forest have joined the Wake Forest Credit Bureau this week getting in motion a system designed to keep merchants informed of customers who make a practice of over-extending their credit or running up a credit account and switching to another merchant.

Under this system merchants will mail a letter to customers who owe a delinquent account asking them to make payment or satisfactory arrangements. Failure to do so will result in their names being forwarded to the Credit Bureau where a list will be compiled once a month and this list will be distributed to all participating merchants. Once a name is placed on the list, it may be removed by paying the delinquent account.

Horace L. Macou, a spokesman for the group, pointed out that this is intended to keep merchants informed so that they might not lose their profit through bad accounts, and should improve the credit rating of everyone whose name is not on the list.

Merchants who have not been contacted yet will be contacted soon and given an opportunity to join.

Lee Issues Statement to Outside Area Residents

Wakette Fire Dept. president, Ira "Shorty" Lee, this week issued the following statement to notify Wake County residents who do not live in a fire district how they should report a fire:

"Since I cannot talk to each of you personally or as a group, I feel this is the next best way to try to explain to you what to do in case of a fire and please don't just read this and say 'Well, it won't happen to me anyway'. I don't have to worry." But fires do happen and remember that they are making new and better fire fighting equipment every day to fight fires that people thought would never happen to them anyway. So please after reading this, give it some thought, discuss it with your family so they will know what to do. We stand ready and willing to help you in anyway we can. Remember this is strictly for the people who are not in any fire district of Wake County only.

"In case of a fire, dial Operator ask for WX6000. The operator will know when you call this number that it is a fire call and she will dial Central Fire Station in Raleigh. THIS CALL IS FREE. Tell Central where the fire is and what Fire Dept. is the nearest one to you. This does not mean that the nearest Fire Dept will always answer your call, for it could be that this Fire Dept. is already out on a call. Therefore they would be unable to go, but Central will dispatch another one. But there will be no delay. We notify Central when we go out on a call; therefore they will know to call another.

"Now if you forget what to do in case of a fire . . . call the Wake Forest Police Dept. Their number is 556-3176. I promise you we will start but we will notify Central on the way by radio and tell them where we are going, and if they can get another Fire Dept. there quicker, they will notify us and we will turn back.

"If you would like to get a group together anywhere and I can talk to them to help in any way, I'll be only too glad to do so. I will be glad to answer any of your questions that I can."

Ira D. Lee, President  
 Wakette Fire Dept.
