

In a recent issue of the... a communication from the... able and dignified Presiding... D. T. Mitchell, of the Wilming... district of the North Carolina Co... ference upon the subject of "Reco... nition." I would not make any r... ply to that dear brother's remarks... had he not done me such kindness... This causes me to take this means to... thank him for it.

In the first place, I want to thank Rev. Mitchell for his advertisement of the jubilee, for his attack on me has given publicity to the affair that it would not otherwise received.

Then, again, my thanks are due him for the very Christian-like way he spoke of me. For many other remarks he has made, he will hereby accept my thanks.

The learned Doctor seems to have leaped at conclusions. Had he waited awhile he would have found that his own precious name was on the program in three different places to read two papers and respond to the address of welcome, also that the others whom he is trembling for are well-cared for on the program. The reason these honorable gentlemen were not mentioned on the program in the STAR is this: I had received information that the local committee had prepared a very able program for Tuesday evening, the 14th. This was to contain many addresses of welcome, etc., which would call for responses from men able to respond. Thus we retained the best of the wine for the last of the feast.

I am surprised the more in Rev. Mitchell when I remember that when I suggested calling the executive committee to meet and arrange a program, as I did not want to meet criticisms such as were aimed at Rives concerning Bishop Hood's anniversary, he, Mitchell, said, "Go ahead and get up the program and we will endorse all you do." Now he is the first to kick. I am sure of the fact that I had not one of the men of the North Carolina Conference on the program, but I did not want all of them wished or excluded on it. Then, again, my calling on others outside of the conference was to cause those who were Dr. Jones had neither presided to the jubilee, seeing their pastors in the program I did not want members of this Conference through love for the fatherland to rally to do so if their names did not appear on the program at all. I look upon Zion as a Conference line, with no East and no West.

Dr. Miles has been called to deserve a Jubilee, need not fear. I think it is my Jubilee, only an humble servant of his Master and in the great centennial anniversary, I had a charge.
