#### ster Simmons Warns of Butler and Banger of Harm Being Done to Suffrage Amendment.

With Senator F. M. Simmons deliv ering the keynote speech the Demo-cratic State Convention held a harand largely attended meeting in Raleigh last Thursday. The feature of the occasion was a great speece by Senator Simmons, in which he re-viewed the great achievements of Denocracy in state and nation during the past four years. No previous administration in the history of the country, he declared, had so much constructive work to show for its stew-ardship. He declared that the present would take care of the rural Congress would take care of the steps banking problem and would take steps to place the American flag again in high place among the maritime powhad to stay in Washington until snow

The senior Senator sounded a warning to the Democracy of North Carolima to be up and doing, as there was a denger confronting the state. Rather two dangers, the Senator said, but both coming from the direction of Marien Butler. Any trick of fate that might put the Republicans in power would saddle upon the backs of white North Carolina thousands of illiterate negre Republican votes, disfranchised through the amendment of 1900. He said he was sure that if Marion Butler should control the fortunes of the state, a return to the dark days was in store for the people. He also warned them that Butler was still the father of the bond fraud and that if he got a chance North Carolina would have to feel the weight of an unjust

### WHAT THE DOCTOR KNOWS

#### KIDNEYS MUST BE RIGHT TO IN-SURE HEALTH.

Few people realize to what extent their health depends upon the condi-tion of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical an-alysis of the patient's urine. He knows that unless the kidneys are doing their

work properly, the other organs can-not readily be brought back to health and strength.

When the kidneys are neglected or

When the kidneys are neglected or abused in any way, serious results are sure to fc'low. According to health statistics, Bright's Disease, which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in one year, in the State of New York alone. Therefore, it is par-ticularly necessary to pay more at-tention to the health of these impor-tant organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder

## Shooting of Paul Burgess The Mount Airy Times-Leader has the following to say regarding the shooting of Paul Burgess, noted in last week's Dispatch:

The people of Mount Airy were greatly shocked last Saturday afternoon when it became known that Paul Burgess had been shot and killed by Carl Jones, son of Mr. and Mrs. John W. Jones, a boy about the same age of the Burgess boy though con

siderably larger.

The unfortunate boy and Carl Jones together with two smaller boys, How-ard Jones and Zeb Roberts were in an old barn near the Jones home in rear of the McCargo block. Immediately after the shooting the wound-ed boy was placed in an automobile and rushed to the Memorial Hospital where he died probably within 15 minites after reaching the hospital.

There are conflicting rumors as to now it occurred. The Jones boy declares that it was purely accidental. The boys, it seems, were playing in the parn when the pistol was discharged The circumstances connected with the case indicated that it was accidental, and taking this charitable view of the case, after having been placed under arrest, he was released on a \$500 bond o appear before Justice of Peace, Allan Sparger, Monday afternoon at 4 p. m. But on account of the absence of one or more material witnesses it was again postponed till tonight, (Wednesday night,) when an effort will be made to get at all the facts

blame attaches to the Jones boy. After the death of Paul Burgess the body was taken to his home on Cherry street and undertaker Earp was called and he prepared the body for burial. The remains were placed on the early train Sunday morning and taken to Thomasville for interment,

Paul Burgess, the unfortunate boy would have been 16 years old in Sep tember. He was popular with all who knew him, and he was known by near-ly everybody in Mt. Airy.

His death has brought sadness to everybody in Mount Airy; the blow, the loss of their dear boy came with crushing and cruel force to the father and mother. The bereaved family have the sympathies of the entire town. To give you seven fundamental reasons the father, and mother and sisters the Times-Leader extends unfeigned sympathy.

#### Simmon's Tribute to Wilson.

The following excerpt is taken from the speech of Senator F. M. Simmon the Democratic State Conven tion at Raleigh last week:

"I know these sentiments represen the hopes and the prayers of the sorely tried man in the White House. "The confusion which now exists i the matter of legal speed limits is de-plorable. It is largely a matter of local regulation, a hodge-podge of conflicting and overlapping enactment whose ken is beyond human comprewhose ken is beyond numan compre-bension. It is an impossibility to drive an automobile any considerable distance out into the country without violating a score of local laws, some of them obsolete and stupid beyond description. There are sections in which the specified speed limit is eight miles an hour. In fact, this is the least speed maximum in Contral the legal speed maximum in Central Park New York City, and signs bear-ing this warning face the police offi-

Now, there are about 250,000 people in the Seventh District and only about others live in the country and small villages, and are essentially farmers like you and me. Get this fact clearly in mind and then listen carefully to

what I am going to say. There are now four candidates for the nomination to Congress from the Seventh District; three of these are lawyers, and one is a combination business man, farmer, good roads advocate, newspaper editor and philanthropist—a man in sympathetic touch with every class of citizenship of the Seventh District, and who knows to the minutest detail the needs of the average man in every county he seeks to represent. I would have somewhat preferred a good farmer to represent the 238,000 of us farmers in the next Congress could one have been found to fill the bill, but, since no bona fide farmer seems to be available for a candidate, I have decided to support the man in whom is combined the best qualities, not only of the farmer but of the business and professional man as well—a man who can equally represent all of the different classes of our citizenship and the whole of our industrial interests, many of which he has been instrumental in promoting.
