ready to everybody. At least the quarter-master's department thinks

we are here for the winter.

And this prospect for staying all winter is bringing some unrest. The Pa. men are openly calling for home. The N. C. soldiers are said to be the only ones on the border who so far have not complained about anything. But the novelty is gone; the men are used to new conditions. They still enjoy themselves somewhat, but the uncertainty of going into Mexico, home or stay here—is extremely trydiers from other States have committed suicide on account of home-sickness. In a Michigan outfit, there is an order against officers or men discussing home movements. In all cases so far home-going troops have been replaced by others. We are told now there are no others to come. Unoffi-cially it is proclaimed in some quarters we will move on Mexico since the election is over. The N. C. men are perfectly ready and willing to go. On the whole, considering we were or-dered here for service, I believe there is no better spirited and contented bunch anywhere than these Tarheels. What they can't help they won't wor-

There are still ways to improve our leisure and new pastimes are being found. The men are making friends burros, prairie dogs, gopher rats, rat-tle-snakes and Jack rabbits. The latcan outrun anything on legs. They are to be found everywhere from camp, and it is good sport shooting them. This calls to mind how Tarheels got a compliment from the Pa. men. Some one was guying the Keystone boys about the N brigade winning the first battle. "Thunder," was the reply, "What do you expect? Those blame fellows march 20 miles, fight a battle and then catch jack rabbits all the way back!" Some of our men did actually run down and catch a couple of these long-eared racers with their hands.

A PEN PICTURE OF MISERY. Another amusement is the kodak squad. Led by A. L. Fletcher of the News & Observer, with Capt. Leonard and the writer among the charter members, this organization roams everywhere seeking what and whom it may take record of in the camera. Old churches, the Rio Grande, the camp, the soldiers, the Mexicans, their ses, wives, children, daughters, dogs and all furnish a wide field for artistary, primitive houses you ever saw sticks. Mexicans live in large numbers along the banks of the Rio rapid rifle fire for miles around. The at the same time, to others of Mexican had it in mind to make the correction he was the most progressive of the "Canada Bars Picture Reflecting Up- nal troops, the commander kept in do not represent the Mexican nation." communication with the The best Mexicans live in the south-
