Year-Attitude of Spinners-Outlook for 1910 as Seen by Rountree & Co.

New York, Jan. 1.-Precedents have

The quantity brought into sight some 35 years, with the single excep. country. Your friends, tion of the Sully year. This has been the result of an admittedly short crop in this country and also in Egypt, co-incident with a revival of trade in

The crop is estimated by the Government at only 10,088,000 bales, while the world's consumption is eshomeand abroad were curtailing prolish authority the other day frankly out all over the country. said that, with the exception of last year, when the world's takings were That is the keynote of what might

It is certain that prices, in spite of State and territory in the Union. there is something behind the ad- help?" vance besides speculative manipulation. Such manipulation has, undoub- line a definite comprehensive plan the fact has become sufficiently clear that spinners are at last aroused from their lethargy, and, alarmed by the outlook, have been buying more freely, not only of actual cotton, but of

Leading operators on the bull side, with their following, have liquidated from time to time, or, at any rate, considerably reduced their holdings, and the result has been that on the whole, the long interest has been less unwiel dy this season than in perhaps most of the bull campaigns of the past. Profiting by the experience of others in the past, the leaders have from time to time taken profits, and thus fertified themselves against the time when the market might need support. And this is the technical position of

Liquidation during the past week has been heavy. At the same time, the legitimate demand for cotton has now play a more important part in the market than they have for some time past. The price is undoubtedly cedents, not a follower of precedents. manifested a great interest in the interest he has shown from start to Precedents have been made from time to time in the past. A new pre cedent may be making now. We ap pear to be on the threshold of some the past ten years have been raised more or less, not only by the facts of supply and demand affecting various staples, but also by the world's interest of Maine, endorsed the educational of crease in the supply of gold, which of Maine, endorsed the educational Mr. C.
