

DEAL IN KENTUCKY COAL LANDS

Fifteen to Twenty Millions in Big Industrial Enterprise in Kentucky—Other Announcements in The South.

(Special Star Correspondence.)

Baltimore, Nov. 10.—About \$15,000,000 to \$20,000,000 will be the outlay involved in the purchase just closed of 100,000 acres of coking coal land in eastern Kentucky, its development and the construction of over 100 miles of railroad by the Louisville & Nashville and other systems in order to reach the coal field, contracts for the railroad work having already been let.

The purchase price of the land was \$4,500,000. Though this is the big event of the week in Southern industrial activity as reported by the Manufacturers' Record, another event of greater significance is the organization of J. I. Westervelt, of Greenville, S. C., and New England capitalists controlling large textile machinery making plants, of a \$900,000 company to build a mill for manufacturing in yards lawn and linens from combined farms of 80's to 100's which marks an important development in the production of fine goods in the South. The mill buildings will be of brick with steel beams and the machinery will include 50,000 spindles and 1,200 looms. As indicating the interest of New England textile machinery builders, a number of whom have recently formed a combination by which they can build and equip an entire plant in Southern opportunities, the construction of this mill is of special interest, as it originates with them. Among the other enterprises reported in detail in the Manufacturers' Record for the week are the following:

Standard Knitting Mills, Knoxville, Tenn., announced additional details of the extensive enlargement recently undertaken; contracts have been awarded for cotton mill, knitting mill and other buildings costing \$70,000 for 13,000 spindles, 50 knitting machines, 450-horsepower boilers and engines, etc., costing over \$150,000; construction is progressing on this plant.

Geary Land & Development Co., Lexington, Ky., was incorporated with \$150,000 capital stock by Chicago parties, to develop 8,000 acres of coal and timber land.

Golden Ranch Land & Development Co., Lockport, La., was incorporated with \$1,000,000 capital stock to reclaim 50,000 acres of wet lands.

Virginia Pocahontas Coal Co., Coalwood, W. Va., is reported as to spend \$700,000 for further developments, but has stated that plans are not ready for announcement.

Portsmouth Cotton Oil Refining Corporation, Portsmouth, Va., will build a refinery to replace the \$80,000 plant destroyed by fire recently; daily capacity about 1200 barrels of oil.

Lexington Interurban & Street Railway Co., Lexington, Ky., is reported as having surveys made for the construction of a street car line to cost \$300,000 but states it is not ready to announce details.

Oklahoma Railway Co., is understood to have arranged for its proposed \$500,000 loan to be expended on the construction of additional terminal buildings, train sheds and similar structures.

Greenville Mantel & Novelty Co., Greenville, S. C., will be incorporated with \$25,000 capital stock to manufacture hardwood mantels, show cases, interior finish, etc.

Dietrich Bros., Baltimore, Md., announce plans for their proposed structural shop; main building of brick and stone with concrete foundation, five stories high, 31 by 114 feet; another building will be of iron, brick and stone, three stories high.

Barlesville Oil Refining Co., Oklahoma City, Okla., recently incorporated with \$300,000 capital stock, will build oil refinery, the building to cost about \$137,000.

Morill Molds Corporation, Alexandria, Va., was incorporated with \$100,000 capital stock to manufacture molds for construction purposes.

F. T. Parker, Philadelphia, has about perfected arrangements for his proposed press cloth mill, to be located in the South; \$150,000 will be the capital stock, but no other details have been decided.

George Singleton, Dover, N. J., will build two silk mills at Southmont, N. C.

Phoenix & Georges Creek Mining Co., Philadelphia, will build a coal briquetting plant in Allegheny county, Md., and has ordered the necessary machinery.

TOWN BOOMING SCHEME.

San Antonio Chamber of Commerce Gives Instruction to Guides. (Special Star Correspondence.)

San Antonio, Texas, Nov. 12.—The aid of the sight seeing cars and the personally-conducted trips around the city on the observation trolley car has been secured by the Publicity League of San Antonio to make every tourist, visitor and stranger conversant with the history of San Antonio, its present growth and importance and its future. The officials of the Chamber of Commerce and affiliated organizations have been thinking for some time past of ways and means to interest possible new residents and home-seekers in the city's future, instead of letting them wander through the streets strangers.

A definite plan of procedure has now been outlined, the first of its kind, it is said, in the United States. One of the first things accomplished is the education of the guides on the sight seeing automobiles, observation trolley cars and tourist vehicles concerning the wonderfully rich history of San Antonio so they may be able, in a few chosen words they have memorized, to explain the interesting facts about the city's past as they call off the points of interest through the megaphone. A comprehensive description and account has been prepared by Joseph Emerson Smith of the Publicity League which account has been furnished all the professional megaphone-speaking guides in the city.

It is as though the guides were reading an historical work brought up to date and filled with data about the Modern San Antonio.

The following subjects are treated: Climate and weather conditions; The

Alamo, short, breezy, historical sketch, Houston Street explaining the erection of skyscraper within the last year and a half; San Fernando Cathedral, historical and a brief account of the Missions; the plaza and the Court-house; Military Plaza, historical; the City Hall with a few facts of interest to strangers concerning the city's government; South Flores Street and the United States Arsenal; the Mission Loop and the things to be seen on the twenty-mile trip; Mission Concepcion Mission San Jose; Mission Mission Espada, with a short sketch of each; Southwestern Insane Asylum, Hot Wells, Brackenridge Park and Fort Sam Houston.

DEVELOPMENT AT CHADBOURN.

New Depot Erected—Drainage District—Other News Notes. (Special Star Correspondence.)

Whiteville, N. C., Nov. 10.—The Star's correspondent visited Chadbourn yesterday, and was surprised to see a beautiful new passenger depot erected there, at the intersection of the two roads, both owned by the Coast Line. Hon. J. A. Brown stated to us that this improvement was made without any request from the citizens, and the first intimation they had that their town was to have a new depot was when the hands disembarked from the train and started to work. The superb management of the Coast Line Railway is ever watchful for the comfort and convenience of the public, and for this reason everybody is a friend to that great line.

Your correspondent was driven over the projected new drainage district by Hon. J. A. Brown, and was shown maps of the improvement. There will be about 15 miles of drainage ditches cut, and over seven thousand acres of land dried off. The ditches will average about six feet deep, which will drain the country for many miles around. The cost of drainage will be \$4 per acre, and it is confidently predicted that the increased yield of crops the first year will fully repay the entire cost of a farmer permanently drying his lands. It is believed that the establishment of this Chadbourn drainage district will be an object lesson, and before many years every acre of water-soaked land in Columbus county will be surveyed for drying.

But even before drainage, the lands around Chadbourn produce large crops. It is not unusual to see a field that will this year make a bale and a half of cotton per acre, in fact of a short crop. Mr. Brown tells us that on his Sweet farm this Spring he made 35 bushels of wheat per acre. A hundred bushels of corn to the acre is not an unusual crop. Mr. Brown pointed out a 50-acre farm that he paid \$250 for and it was considered a high price. He sold it for \$1,500, and thought he was robbing the purchaser. Mr. Brown afterwards bought this tract back for \$4,000, and then sold again for \$5,000. This is only a fair sample of advances in real estate around Chadbourn.

The many friends of Mr. R. E. L. Brown will be delighted to know that he has gained 18 pounds since his residence in Hendersonville, and says he never felt better.

IN MEMORIAM.

In the early dawn of Nov. 10th, the pure spirit of Mary Bridgers was borne in the "Everlasting Arms" to that new and beautiful home prepared for her by Heavenly hands, where the "Sun of Righteousness" was already shedding His beams in the "New Jerusalem" of that "Great Beyond."

As her gentle spirit bade adieu to its earthly habitation and sped its flight from earth to Paradise, it seemed to leave a lingering smile, for those who love her so dearly, upon her guileless lips—those dear lips, now so silent, that have ever been ready to give a loving welcome or a word of counsel and encouragement to all. Truly from her heart or mouth proceeds no evil thought or word of bitterness but "Holiness Unto the Lord." Harmony, truth and loving kindness were the virtues that were her constant thought and the "daily bread" upon which she lived.

Lovely and good from her birth, with a gentle demeanor and docile nature, her childhood and girlhood she bided into young womanhood with all the rare graces that can adorn her sex. To know her was truly to love her, for though of the earth, she seemed almost as one unearthly.

Trained in childhood by loving teachers, whose privilege it was, she was ever loyal to them and to the memory of those days, seeking in her womanhood to be a comfort and pleasure to them in their declining years, which mission she faithfully fulfilled, as she did all others.

Baptized and confirmed in St. James', for years she gave most untiring service to the church she loved so well, and when in later womanhood she embraced Christian Science, she was equally true to her convictions, acting upon them to the end of her earthly life.

Possessing that "most excellent gift of charity," the bond of peace and of all virtues, without which whosever liveth is counted dead before God, nothing was ever beyond her forbearance or forgiveness.

May that mantle have fallen upon those she loves that we on that great "Resurrection Morn" may stand with her face to face before our Maker, having "a conscience void of offence toward God and man!" "Blessed are the dead who die in the Lord; even so saith the Spirit."

Good Looking Brides Wanted. Shortly after an angry looking couple founced out of the chapel the pastor of an uptown church presented a perplexed countenance before the busy sexton.

"As you know," said he, "I am new in this parish and new in the city. Perhaps there are a few things I ought to know. Why, for instance, do so many people who never attend service in this church wish to be married here?"

"Because our church," said the sexton, "has the name of turning out the youngest and handsomest brides in New York. Our reputation for good works is dwarfed by our reputation for beautiful brides. To say that a woman is married here is equivalent to saying that she is a 'good looker.' We are not supposed to deal in brides of any other description."

"No wonder," groaned the pastor, "that that plain looking woman went away in a huff. I earnestly advised her to be married in her own parish."

—New York Globe.

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send you some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, Notre Dame, Ind.

Western North Carolina the Finest Growers in the World. (Southern Field.)

More attention is now paid than ever before by North Carolina people to the fruit industry, they are awakening to the full realization of the value of the fruit districts and are buying orchard lands and planting them while people from other sections are coming into the State to engage in the industry. It is probably true that nowhere in the world can cheaper good orchard lands, land which will pay the highest profit to the grower of high grade fruit, be found than in the fine fruit regions of North Carolina. There are at present two or three well defined districts where the fruit is being grown to the greatest advantage and in all these districts it is possible to secure well located and well adapted lands for apples at from \$10 to \$25 an acre.

The Brushy mountains, in fact this whole mountain section, embraces one of the finest of the Appalachian apple districts and grows large crops of the finest of apples. The winesap, the Jonathan, Grimes, Newton Pippin, Hoover Dula Beauty, and other varieties are grown. An orchard man at Taylorsville has estimated that a 20-acre orchard of 400 trees may be planted and brought to the bearing age for \$775, including the cost of the land at \$15 an acre. Some very large yields are reported from this district and it is known that some orchards have reached the century limit.

Remedy Saved Her Child—Try it Free

PHILIP LLOYD, GRANDSON OF MRS. JONES. The following are some extracts from letters Dr. Caldwell has received:

"I wish to thank you for the sample bottle of Dr. Caldwell's Syrup Pepsin. My little grandson, Philip Lloyd, had suffered from stomach trouble; when I sent for the bottle of Syrup Pepsin he was suffering all the time and had an acute attack of gastritis. I gave him the medicine, which he said was nice. (He is six years old) and by the time the bottle was empty, he was cured. I was so pleased that I want to write you a valuable remedy you have made.—A. D. W. Widow, Mrs. Elizabeth B. Jones, 4185 Perry St., Chicago, Ill.

"I liked the sample of Syrup Pepsin so much that I sent at once to my druggist for two 50c bottles, so I have it in the house regularly. My children like to take it, which pleased me very much, as sometimes we have trouble with them to take other laxatives.—Chas. H. Reicher, 1111 Jamaica Ave., Richmond Hill, L. I.

"We have received your sample bottle which you sent upon request. I have never had anything in a medicine form that has accomplished anything like yours. It is simply great. I have already used two bottles of the 50c size after the arrival and using of your sample.—Mrs. Katherine Haberstroh, Kees Rocks, Pa.

There are literally thousands of women in this country who gratefully acknowledge that they owe the present good health of their children to the timely use of Dr. Caldwell's Syrup Pepsin. The crying baby usually is constipated or suffers from intestinal trouble due to some error in diet. It needs no heroic measures—just a gentle laxative like Syrup Pepsin. A small dose of it will fight the baby. It is a great laxative and digestant, pleasant-tasting and non-gripping. No baby or child refuses it. Many mothers never give their children anything else, and they have robust children and no doctor's bills. It is a great money saver as well as a great life saver. If space permitted, thousands of women's addresses could be given who write they will never be without Syrup Pepsin in the house. It is for all the family—for anyone who realizes that salts and strong cathartics are only temporary expedients. You can buy a bottle of your favorite drug at fifty cents and one dollar, or if you wish to make a trial of it first, you can obtain a free sample bottle from Dr. Caldwell by sending him your name and address.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him, whether for the medical advice or the free sample. Address him Dr. W. B. Caldwell, 641 Caldwell Building, Monticello, N.Y.

MRS. J. E. KENNEDY'S BABY. The following are some extracts from letters Dr. Caldwell has received:

"I attribute much of my own present good health, and surely that of my baby, to the use of Syrup Pepsin. I always have it in the house, as it is so often needed, and I could not exaggerate its value to me.—Mrs. J. E. Kennedy, Good Will, Okla.

"I received your sample bottle of Syrup Pepsin and also bought a 50c bottle. It is the finest remedy I ever bought for constipation for children. I am very much pleased with it.—Mrs. Ella N. Williams, Wathena, Kas.

"I received your sample bottle, used it, and got a 50c bottle and find it is the best thing I could get. My baby was troubled with constipation and I now have no trouble.—Mrs. Toomey, Emlingville, Pa.

"About two years ago I sent to you for a sample bottle of your Syrup Pepsin. After taking it I concluded to give the remedy a fair trial, for I had been suffering for some time with indigestion. My stomach would ache so badly at times that I could not be still. I concluded to try your Syrup Pepsin and found it to be a good remedy. I can eat anything I want now. I have found it to be a good remedy for children. Now I keep a bottle on my mantle in the time.—Mrs. Ida A. Fortune, Grand Junction, Tenn.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation.

The Only Keeley Institute In North Carolina

If you haven't been interested in what I have had to say about the Keeley Institute at Greensboro perhaps it is because you know of some so-called "drink cure" that has failed to make good its claims. And so you confuse this other treatment with ours and blame us for the failure. There are a number of "sanitariums" and "institutions" in different parts of the country that seek to trade on the reputation of the famous Keeley Institute. And they try to give the impression that their treatment is the same as the specific discovered by the late Dr. Keeley.

Let me do away with any misunderstanding once and for all—and say with all possible emphasis that there is only one institute in North Carolina where the Keeley treatment is administered—and that is the Keeley Institute at Greensboro.

Moreover, there isn't a part of the country better situated for such a sanitarium than Greensboro.

Its high elevation, equable temperature and healthy climate make it a perfect health resort in every season. Over one hundred miles of graded and macadamized roadways leading from the city in all directions give facility and pleasure to riding, driving and motoring.

The Institute itself is centrally located in Greensboro, accessible to railroad station, post-office and business section, yet surrounded with large grounds covered with trees and shrubs that give it privacy and seclusion.

Whether you are interested in the Keeley Treatment for yourself or someone else, write to me for booklets describing the Institute and our treatment. Your letter will be treated in strictest confidence.

W. H. OSBORN, President THE KEELEY INSTITUTE Greensboro North Carolina

Childhood's Appreciation

of the healthful products of sugar cane has never wavered in a hundred years. Don't impose upon it now. Pure cane syrup is Nature's best food. Georgia ribbon cane is the kind your great-grandmother used in her cakes and cookies and candies—it sweetened the buckwheats fifty years ago.

is the genuine Alabama-Georgia product—made by the old plantation "open kettle" process. Not a by-product but a buy product. Sensationally old-fashioned. Made because there's still a market for the best. Order it today—any good grocer.

Alabama-Georgia Syrup Co. Refiners Montgomery Alabama

WE CLOTHE THE FAMILY \$1.00 a WEEK! Buys guaranteed clothing, hats and shoes for men, women and children. We do as we advertise. "From Maker to You" means that YOU save the middleman's profit. Low, Plain Prices—always. Farley & Co., 116 Market Street WILMINGTON, N. C.

The Real Attraction Is not the man in the window, but the hundreds of useful articles of Furniture on our floors. Our stock is by far the most complete, the largest, the newest in the city. As usual, our prices are much lower. All are cordially invited to walk through and be convinced. The Wilmington Furniture Co. Wilmington, N. C. Garrell Building. 126-128 Princess St.

Stands Government Test The Pompeian Olive Oil Marketed under direct supervision of government experts. Guaranteed pure in every respect. Unquestionably the finest Olive Oil on the market.
