

HAVE NEED FOR ROBIN.

Sentence of Fallen Banker Deferred for Month. The Supreme Court will withhold for one month sentence upon Joseph G. Robin, guilty by his own plea of larceny from the Washington Savings Bank, in order that Robin may continue to aid District Attorney Whitman in the grand jury investigation of the Carnegie Trust Company.

"I found that Robin's presence was needed before the grand jury," the district attorney said, "and I was unable to get matters in his case in such shape that he could be sentenced on March 27th."

Both Mr. Whitman and Samuel J. Goldsmith, Robin's lawyer, denied a report that Robin wished to withdraw his plea of guilty and substitute one of not guilty.

There has been no promise to Robin that his sentence will be mitigated because of evidence he has given the State in the Carnegie Trust Company investigation. Mr. Whitman declared this had been left entirely to Justice Seabury.

The grand jury continued its investigation of the Carnegie Trust Company's affairs today with the examination of several bank officials and clerks.

DETECTIVE SERIOUSLY HURT.

Guarding Non-Union Firemen He Sustains Several Wounds.

Somerset, Ky., March 14.—Charles Swartz, a St. Louis detective guarding non-union firemen on No. 3, a passenger train of the Cincinnati, New Orleans & Texas Pacific Railroad, was brought here today suffering from a bad gunshot wound received near Stearns, Ky., 30 miles south of here, in a riot early this morning.

Swartz attempted to hold back a crowd which attacked the locomotive and tried to catch a negro fireman. An exchange of shots followed, and the detective was shot in the mouth. It is reported that several other negro firemen were lynched near the Tennessee line. This, however, could not be verified.

Lexington, Ky., March 14.—Partial confirmation of reports of rioting at Stearns, Ky., and south of there was received here today, when the engineer of a passenger train declared three men were killed last night between Kings Mountain, Ky., and Glen Mary, Tenn.

One of the belated passenger trains arriving from the South today, came in with broken windows as the result of an attack by strike sympathizers.

Reports from Danville stated that 100 St. Louis men armed as guards for trains, arrived there, and will be sent South for duty this afternoon.

CAMP CROCKETT LIVELY.

Drills Feature of the Day—Missouri Mules Arrive.

Galveston, Texas, March 14.—Eighty Missouri mules arrived at Camp Crockett today. They are attached to the fled hospital corps and ambulance train No. 5 from here to St. Louis to join the brigade commanded by Brigadier General Mills. Among yesterday's arrivals were 58 more mules from Fort Totten, N. Y., being part of the equipment of the troops now en route here by transport from Hampton Roads.

The fled hospital will contain 108 beds and there are five surgeons in the corps. The corps comes prepared for active service. General Mills is not even attempting to speculate upon the possible move to be made by his brigade, once it is organized. Company and battalion drill for three hours daily is occupying the attention of the 1,200 men on the ground.

The transports are expected to arrive Thursday. The scout cruiser, Salem, tried to pick them up by wireless today to learn what progress they were making, but was unable to do so, all preparations have been made for the disembarkation of the troops and for their transportation to Camp Crockett.

Hearty Welcome Given the Former President by Texans.

Fort Worth, Texas, March 14.—Although he arrived in the midst of a disastrous fire in the stockyards and during an intermittent rain storm, Col. Roosevelt was accorded a hearty welcome, when he reached here today. The city was decorated in his honor and a parade of automobiles escorted the visitor to the hotel. Capt. S. B. Burnett first received Col. Roosevelt, taking the party to breakfast. It is not the first time he has played host to Col. Roosevelt, as it was the captain who arranged the famous Oklahoma wolf hunt five years ago.

Col. Roosevelt paid but a flying visit to the city, his train pulling out for El Paso shortly after 9 o'clock. During his stay he was also the guest of National Feeders and Breeders Show, which opened here yesterday, and of which Capt. Burnett is president. Immediately after breakfast the colonel was taken to the stockyards where the show is located and where he delivered an address.

Report Regarding One from New York to Delaware Bays.

Philadelphia, March 14.—The committee on traffic for the proposed Intra-coastal Canal between New York and Delaware Bays completed its report to J. Hampton Moore, president of the Atlantic Deeper Waterways Association today. The committee states that on a conservative estimate at least 2,500,000 tons of traffic would be shipped through the proposed canal during the early years of its operation. The report advocates a sea level canal with dimensions as great or larger than those of a sea level canal between New York and Philadelphia with a bottom width of 125 feet and a depth of 18 feet, will be \$35,250,000. This is less than the value of the property lost along the Atlantic Seaboard by shipwrecks during the last ten years, which is stated to have been about \$38,000,000.

COURT MARTIAL IN NORFOLK.

Important Witnesses Tell of Damage To Monitor Puritan.

Norfolk, Va., March 14.—Professor Philip R. Alger, who is on duty in the Bureau of Ordnance in Washington, and a member of the Board of which Captain Knight is the president, stated that the explosion caused much more serious damage to the Puritan than was anticipated by a member of the board. He said that in the opinion of Captain Knight it was unlikely that any serious damage would result from the tests of the Isham explosion.

Speaking of a memorandum which had been prepared in Washington, from suggestions of Captain Knight and others members of the board, and which is in evidence in the case, Professor Alger stated that the memorandum had been prepared more for the satisfaction of Inventor Isham and Congressman Hobson than for any fear that the suggestions contained therein would be really necessary. He said that he did not think that this memorandum had been transmitted to the commandant of this navy yard as it had no hearing on him at all.

Asked by Major Leonard if he thought that the experiment was conducted in proper manner, Professor Alger said that he thought it was and that everything connected with the actual experiment was properly carried out.

A Reader Cures His Constipation—Try it Free

Simple way for any family to retain the good health of all its members. The editors of "Health Hints" and "Questions and Answers" have one question that is put to them more often than any other, and which, strangely enough, they find the most difficult to answer. That is "How can I cure my constipation?" Dr. Caldwell, an eminent specialist in diseases of the stomach, liver and bowels, has looked the whole field over, has practiced the specialty for forty years and is convinced that the ingredients contained in what is called Dr. Caldwell's Syrup Pepsin has the best claim to attention from constipated people. Its success in the cure of stubborn constipation has done much to displace the use of salts, waters, strong cathartics and such things. Syrup Pepsin, by training the stomach and bowel muscles to again do their work naturally, and with its tonic ingredients strengthening the nerves, brings about a lasting cure. Among its strongest supporters are Mr. John Graveline of 38 Milwaukee Ave., Detroit, Mich., Mr. J. A. Vernon of Oklahoma City and thousands of others. It can be obtained of any druggist at fifty cents and one dollar a bottle, or if you want to try it first a free sample bottle can be obtained by writing the doctor. Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him to Dr. W. B. Caldwell, 541 Caldwell Building, Monticello, Ill.
