WHITE WOMAN ASSAULTED.

Horrible Crime Committed by Negro in Duplin County Monday.

News reached this city yesterday to the effect that Monday afternoon about 3 o'clock, while on her way from her home to the house of her brother, Miss Judge, 21 years old, daughter of Mr. J. W. Judge, of Duplin county, some 12 miles from Rose Hill, was accosted by a mulatto negro who forced her into the woods and held her a prisoner until she managed to effect her escape from the clutches of the brute about 8 o'clock at night.

Miss Judge's escape is due to the fact that it was raining and the negro had gone a little further into the woods to get material with which to make a covering to protect them from the rain. The negro threatened to kill her if she stirred. Although in a weakened condition and fearing the execution of the negro's threat she managed to ease her way through the thicket to the road without her foot-steps being heard. Once in the road she got home as quickly as possible and related her horrible experience. Posses were quickly organized and all night and all day yesterday they searched for the negro. Miss Judge, who is in a serious condition, was able to give a fairly good description of her assailant, and it was reported yesterday afternoon that a negro answering this description had been arrested at Magnolia, though there appeared to be some doubt that he was the right one. He was expected to be taken to Rose Hill for identification at a late hour last night.

COCA COLA IS HARMFUL.

Declares Dr. Busby, Government Expert, in His Testimony.

Chatanooga, Tenn., March 14.—The case of the United States against "forty barrels and twenty kegs of coca cola," was continued in the Federal court today with the hearing of the testimony of several government witnesses. The evidence, to a large extent, was purely technical. The experts who testified were Dr. H. C. Fuller, of the Bureau of Chemistry; Dr. Emery, of the laboratory of the Department of Agriculture; Dr. H. H. Busby, of Columbia University; Dr. E. A. Rudderman, of Vanderbilt; and Dr. F. P. Morgan, of the Department of Agriculture.

Dr. Busby, one of the principal experts for the United States, told of his study of the leaves of the kola plant. He had visited South America for this purpose, he said, and had written several authoritative books upon subjects relative to materia medica. He told of several incidents that had come under his personal observation in which he stated the effects of drinking coca cola had been harmful. Several quotations from historical works written by the doctor were read, all bearing upon the effects of coca cola leaves, the amount of caffeine and the injurious quantity he claimed they contained. He said coffee, tea and other species of domestic plants contained caffeine.

Dr. Morgan testified as to the effects of caffeine and coca cola and referred to experiments made with rabbits which, when dosed with coca cola properties, had died.

It is probable that Dr. Wiley will go on the stand some time tomorrow.

WORK MADE HER TIRED

Mrs. Sharp Tells About Her Troubles and How She Finally Won.

Mr. Pleasant, Tenn.—"Many a time," says Mrs. Jesse Sharp, of this place, "I wished I would die, and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me. I had to stay in bed most of the time. I could not do my house work. The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui helped Mrs. Sharp to regain her health and strength, promptly. Cardui has helped thousands of other weak and ailing women, in the past 50 years, in many cases after other medicines had failed to relieve them.

Cardui goes to the weak spots, and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything was wrong, and need something to quiet their nerves and strengthen the worn-out system. Ask your druggist about it.

Why should it not help you? Try it.

HISTORICAL CONTROVERSY.

Supreme Court to Decide Cast That Goes Back of Nine Centuries.

Washington, March 14.—Back over nine centuries of history the minds of the members of the Supreme court of the United States were directed today for the purpose of ascertaining if the rights of the Carthusian Monks in the manufacture and sale of liquor is being infringed in America.

Although the litigation required a review of history from the time the order settled in the Valley of Chartreuse, France, in 1084, to the present day, the present controversy grew out of the expulsion of the Monks from France. The French government appointed an administrator and liquidator of the property of the congregation in France. By contracts arising thereunder, the Cusenier company manufactured and sold a liquor of cordial, which the Monks claim violated rights to manufacture and sell liquor, which they have been making at Tarragona, Spain, since their expulsion from France.

The sale in America of the liquors now made in France is what gave rise to the present suit. Bottles of the liquor were taken into court today by the attorneys for the purpose of showing either the similarity or dissimilarity of the labels on the products from Spain and from France. The arguments were not concluded today. One attorney for the Monks told the court that probably the most famous trademark in the world was involved in the suit.

Theatrical.

One of the most important theatrical events of the year will be the appearance in this city Saturday, March 25th, of De Wolf Hopper in his latest success, "A Matinee Idol," which comes here with a six months' run in New York to its credit. Daniel V. Arthur, under whose management Mr. Hopper is now starring, has given the famous comedian a supporting company that is most excellent in its merit; it is headed by no less a personage than Miss Dresser. Miss Louise Dresser is known as the most expert singer of popular songs now before the public and one of the most beautiful women on the American stage. In addition to Miss Dresser, Mr. Hopper will be supported by the same company that so materially aided in the success of his long season at Daly's and the Lyric Theatre, New York.

Grand Theatre.

The Theatre Beautiful did an immense business yesterday and the hundreds that were fortunate enough to have attended were loud in their praise of the famous picture, "The Life of Moses." For today the bill is made up of four pictures two of which are scarcely out of the factory. "A Night of Terror," is the title of one of the greatest comedies in years. Another picture that tells a thrilling story is entitled "Jealousy Foiled." The scenes are laid in a large banking establishment and unfolds many exciting situations. "Rough Rider's Romance" and "The Old Family Bible" are the other pictures on the bill which will make one of the best programmes that the Grand has ever had. Mr. Henry has selected as his song "Louisiana Lou," which is one of the very latest, and as Mr. Henry has proven to be very popular at the Grand his effort today will no doubt meet with as much success as his previous ones. The orchestra will have an unusually good selection and as a feature will play some of the latest song hits from "The Girl in the Train."
