Famous Aviator Has Covered Six States in Flight From St. Louis. Landed in Apple Orchard Yesterday-Curious.

Castleton, N. Y., Aug. 23 .- On the last lap of his flight from St. Louis to New York, Harry N. Atwood, the aviator, tonight has his aeroplane hitched to an apple tree on top of a hill here, overlooking the Hudson river, and Albany, eight miles to the north. Tomorrow Atwood expects, in what he calls "two bird hops," to complete his journey in New York, landing in Sheepshead Bay, with a possible preliminary circle over Governor's Is-

On landing, the aviator will have the longest flight through the air ever made by man in a heavier than air machine. He will hold the world's record for a crosscountry flight and he believes he has set a pace in the development of aeroplanes which will result in more long distance attempts and a gradual elimination of fatal contests at aviation

Atwood hopes to sail over the 134 miles between here and New York ed here, Atwood in ten days had flown way in a run from Lyons, N. Y., to pany, New York; Federal Auburn. His biplane has endured the test without damage. It was only because of a slight wearing of the bearings of his engine that Atwood decided not to continue his flight tonight, but to put everything in shape for smooth sailing tomorrow.

Leaving here, probably early, Atwood will take a straight course down the river, flying over or near Kingston, Poughkeepsie, Fishkill, Newburn, Ossining and intermediate points. His appearance over Rhine Cliff, opposite Kingston, will mark his breaking the world's record for cross country flying, for at that point he will have ex-

Missouri, Illinois, Indiana, Ohio, Pennsylvania and New York. Cities: St. Louis, Chicago, Toledo, Cleveland, Buffalo and Albany. Will beat the world's long distance

record at Rhine Cliff, when he will be 13 miles more than present record of Expects to reach New York Thurs-

day afternoon when he will be 1,165 miles from his starting point. Atwood landed on the property of an irate farmer, who protested

against the appearance of the "man bird" and its consequent inrush of the people. The more the farmer protested the greater became the crowd and soon a nearby apple orchard was half denuded of its fruit.

#### RIOTING IN ENGLAND

Further Anti-Jewish Outbreaks

Philip Magnus Talks. Newport, Eng., August 23.-Rioting occurred tonight at Bargood, on the Glamorgan border. A dozen English and Jewish shops were wrecked the assistance of the police and dispersed the wreckers.

No further rioting has occurred in the Monmouthshire Valley towns, but the threatening attitude of the mobs at Tredegar and Rymney necessitates the continued presence there of the soldiers.

It is reported that Jewish families in other parts of South Wales are taking flight in fear of the extension of

the outrages.

Urge Legislation to Control Industrial Health and Accident Insurance Companies-Too Many Unpaid Claims.

Milwaukee, Aug. 23.-Important legi lation for the control of insurance companies doing industrial, health and accident business is proposed in the report of the special committee of the insurance commissioners of the United States, which was made public at the session of the convention here to

The basis for the legislation as pro posed is given in reports of the constitution of fourteen companies in which nearly 2,000 settlements effected by these companies are exam ined. In discussing the settlement of

these claims the report says: "Of the specific claims examined, where the amount involved is usually considerable, the percentage of scaled or rejected claims is high-very much too high to be explained by error of judgment or carlessness. Indeed, the sion legislation when Congress reconcommittee feels warranted in concluding that when dealing with companies doing an industrial, health or accident business, the policy holder-particularly those who through ignorance or poverty are unable to protect themthe wards of government as represented in this contention-has too frequently been the victim of unconscionable practices in the claims departments of the companies criticised in this report.

"Promises of reformation made at the hearings are therefore, not enough. This convention should take action which will guarantee the just treatment of policy holders in the fu-

Very Little Liklihood That They Wil Rejoin Regulars-Renewed Coalition With Democrats Probability-Tariff Board.

Washington, Aug. 23.-The Demo crats, the progressive Republicans, and the regular Republicans will have their own programme for tariff revivenes in December. This much was made clear today. All three elements in the Senate will be engaged in a great battle on the general subject of revision, the most important feature selves and therefore are peculiarly of the contemplated work of the regular session. Much of the trend of the fight will depend upon the report of the Pariff Board and the recommendations of the President in connection with that report. The regular Republicans did not an-

ticipate much actual tariff revision at the coming session by reason of the wide divergence of opinion in the Senate. They contend that failure is likely to follow attempts to bring together either the regular and progressive Republicans, or the latter and the Democrats. Neither the Democrats nor the progressive Republicans, whose alliance swept revision legislation through the Senate until the combination was broken on the cotton bill, are willing to predict the renewal of that alliance in December. ocratic leader of the Senate, declared today, however, that if the President's recommendations should be for large

Evelyn Wants Lunacy Commission Appointed-Harry Resists and Claims He is Sane-His Income Now \$60,000 Year.

Pittsburgh, Aug. 23 .- An answer was filed today by Harry K. Thaw, through his atterney, former Governor William A. Stone, to petition of his wife, Evelyn Nesbit Thaw, in which Judge L. L. Davis was asked to appoint a lunacy commission to take charge of the income of Thaw in this State and provide for the support of the wife. Thaw's income is said to Nine Jurymen Are Farmers-Father be \$60,000 a year.

Thaw claims that the verdict of the jury in New York State was not a finding that he was insane, and that the sentence confinint him at Mattewan was statutory entirely and not a proceeding as to the lunacy of Thaw. He claims that the lact that he is still confined in Matewan hospital. under the order of court, does not ju-dicially or in any way establish his present insanity. The answer alleges that the petitic asks the court to do what it has no authority to do. In the second part of the answer

Thaw states: "Your affiant is not at present insane. He is quite capable of attending to his own affairs, and does attend to his own affairs. He transacts his own business. If there was ever any derangement mentally the affiant has entirely recovered from it and is now in the possession of all of his mental faculties."

### THE BANKING TRUST QUESTION

Legality. Aug. 23.—Presiden Taft will decide if the government under the terms of the National Bank Act, can permit National Banks to own interests in other banking institutions. Attorney General Wicker-Departments has split squarely on the sham and Secretary MacVeagh have disagreed on the question, which was raised by the Attorney General's investigation of the relations of the Na tional City Bank of New York to the National City Company. As a result all the papers in the case were sent to the President at Beverly today.
