"I have been materially benefitted by the infermation which I have received as to the attitude of the people in the different parts of the country as affected by local conditions. The receptions have been very cordial throughout and I am certain that in strenuous one, my health has continued good, and I have suffered no ill effects from the strain."

When hesteps down from his private car in Washington tomorrow morning Mr. Taft will bring to an end one of the longest trips both in numer of days on the road and in numer of miles traveled ever undertaken

The Presidential train has covered more than 15,000 miles and if automotile trips were to be included in the calculation the mileage easily would top the sixteen thousand mark. On the present trip the President has climbed mountains, gone into a gold mine, reviewed the greatest American fleet ever assembled, broken ground for a world's exposition, voted at an election and been put through all the "stunts" that Secretary Hilles would permit his entertainers to vent.

The President has delivered close tt 350 speeches, passed through about thirty States and been seen by crowds that Mr. Hilles estimates at over 5,-
