WHY CHILDREN ARE PURY. Need More Food—Richer Blood, Better Appetite. Anxious parents often wonder why their children are so thin, pale and nervous and have so little appetite. Growing children need "lots" of food. They use so much energy in play, and their growing bodies require so much more, that unless they eat heartily they are bound to suffer.

RICHESON A MORMON.

Woman Makes Affidavit That Murderer is Mormon Elder. Boston, Mass., May 7.—Clarence V. T. Richeson, under sentence of death for the murder of Avis Linnell, has been a Mormon elder and secretly connected with the Mormon organization for several years, although preaching from a Baptist pulpit, according to a sworn statement just made before William A. Thibodeau, an attorney, and justice of the peace. The author of the affidavit, Mrs. Louise E. Brittain, claims to have been formerly connected with the Mormon church and to have been the celestial wife of a New York man, who is at the head of the Mormon organization in the East.

In the statement Mrs. Brittain asserts that she has known Richeson for several years, first meeting him three years ago at a Mormon conference held on Staten Island where she says the Baptist clergyman was recognized as one of the Mormon elders and was particularly active in the affairs of the conference. She has since seen him many times in and about Boston and has given him Mormon signs, which he never answered, she claims. She says she attended a Mormon conference at Providence, R. I., a little over a year ago at which Richeson was present and that she received commands from him as a Mormon elder at a Boston gathering of the leaders of the Mormon church and in short time ago, Mrs. Brittain became converted from Mormonism, she says. According to Attorney Thibodeau, who gave out the affidavit tonight, Mrs. Brittain recently divulged to some of her close friends her knowledge of Richeson's alleged connection with the Mormon church and he revealed upon to make the facts known previous to the time set for his execution, as it was felt that the information, if withheld until after his death, would seem unfair.

Mrs. Brittain has become known during the past few years to evangelists in and about Boston. In an interview tonight she said that to the best of her belief Richeson was converted to Mormonism while a student at William Jewell College, at Liberty, Mo., from which he was expelled in 1889. At that time Richeson became attached to a young woman who makes her home in Salt Lake City. To this young woman is due Richeson's trend toward Mormonism, Mrs. Brittain believes. The affidavit which was given out prior to the interview, described some of the meetings which she said she had seen Richeson and concluded as follows: "I have always considered Elder Clarence V. T. Richeson a member of the Mormon organization in good and perfect standing and to the present day and believe that he is considered so by the Mormon organization. While it is not common it is not unusual to find the more educated of the Mormon elders preaching in the pulpits of evangelical churches which baptize by immersion."

Miss L. V. Richeson, who arrived here last evening from her home in Virginia, talked today with Governor Foss on behalf of her brother, C. V. T. Richeson. She was accompanied to the State House by two of her brother's lawyers. The subject discussed was the plea which has been made for commutation of Richeson's death sentence on the ground that the former clergyman is unsound mentally and has been so always. Miss Richeson visited her brother in jail previous to calling upon the Governor.

CLOSE IN MISSISSIPPI.

Underwood and Wilson Run Neck and Neck—Light Vote Polled. Jackson, Miss., May 7.—First scattering returns from the Democratic preference primaries held throughout Mississippi indicate a close contest between Representative Oscar W. Underwood, of Alabama, and Governor Woodrow Wilson, of New Jersey, for control of the State's delegation to the Baltimore convention. The names of the other candidates for the Presidential nomination did not appear on the ballots. A light vote was polled, the returns at hand showing that not more than 25 per cent. of the normal vote was cast. Inclement weather, the floods and a general backwardness of farming operations, contributed to keep the voters from the polls. The United States Senator John Sharp Williams, Senator-elect James K. Vardaman, Governor Earl Brewer and C. H. Alexander were elected delegates at large without opposition. Williams and Alexander are supporters of Governor Wilson, while Vardaman and Brewer espouse the cause of Underwood.

Personal preference of the delegates, however, will have no bearing in connection with Mississippi's vote in the National convention, the delegates at large, as well as district delegates, being bound to vote as are instructed by the total vote of the State. The Democratic State Convention will be held in Jackson May 15th to formally announce the result of the primary and select a State executive committee to promulgate a platform.

GRAND LODGE I. O. O. F.

Sixty-Ninth Annual Session at Raleigh, Governor Welcomes Visitors. Raleigh, N. C., May 7.—The 69th annual session of the North Carolina Grand Lodge of Odd Fellows convened tonight, Grand Master W. H. Overton, of Durham, presiding, and only about half of the 400 delegates present owing to a couple of important trains being delayed. The address of welcome was by Governor Kitchin, who spoke impressively of the principles of Odd Fellowship being the foundation of all proper conceptions of human relations and the evolution of true manhood.

The response to the welcome address was by W. P. Evans, of Greenville, a graduate of the Odd Fellows' Orphans' home at Goldsboro, who paid high tribute to the hospitality of Raleigh and commended the lessons so forcibly impressed by the Governor as to the forcefulness of friendship, love and truth in all relations of life. Following the welcome ceremony there was a formal secret opening of the Grand Lodge, announcement of the committees for the session and the conferring of the Grand Lodge degree. The business sessions begin tomorrow.

MR. REHDER RESIGNS

Another Vacancy of the City Civil Service Commission. Mr. C. F. W. Rehder, chairman of the Civil Service Commission, has tendered his resignation and the same will be acted upon at the regular meeting of Council at 4 o'clock this afternoon. It was said at the City Hall yesterday that Mr. Rehder did not give any reason for his action. When Mr. M. S. Willard resigned some weeks ago it was reported that Mr. Rehder had been considering similar action and his resignation, announced yesterday, did not come as a surprise. Mr. Rehder had the two-year term and as he has held the office for one year his successor will have only one year to serve, but the two-year term carries with it the chairmanship. Mr. L. W. Moore was elected at the last regular meeting as a member to succeed Mr. Willard. The other member is Mr. S. J. Ellis.

INVESTIGATION RESUMED.

North Carolinian Testifies That Wright Entered the Land Deal. Washington, May 7.—The Florida Everglades investigation was resumed today before the committee of the House with the testimony of Edward J. Wilkinson, of Belhaven, N. C., who told of the operations of J. O. Wright, formerly a drainage engineer in the Department of Agriculture in a land development deal near Albemarle, N. C.

According to Wilkinson, Wright, while a government employe, entered the land deal, before he became drainage engineer for the State of Florida and offered to sell some of the land for \$5,000 worth of the stock. The stock was turned over, Wilkinson said, and shortly thereafter Wright appeared as the government drainage engineer to develop the land. Further testimony that money was advanced to C. G. Elliott, former chief engineer of the Drainage Bureau of the Department of Agriculture, to complete projects in North Carolina, will be taken tomorrow. Elliott and some other employes were dismissed from the department and later indicted on technical charges growing out of that feature of their operations.

A. M. E. ZION CONFERENCE.

Quadrennial Reports From Bishops Received—Resolutions. Charlotte, N. C., May 7.—The general conference of the A. M. E. Zion church today was presided over by Bishop George W. Clinton, D. D., of Charlotte, N. C. There were many resolutions offered, among them being one to repeal a section of the discipline wherein it says "Card playing and dancing is prohibited by the church discipline." Rev. R. P. Fisher, of Waterbury, Conn., was the author of the resolution. The general conference is receiving the quadrennial reports from the bishops and those who have reported are J. W. Hood, C. R. Harris and J. W. Alstock. The reports show that the Episcopal districts presided over by them are in good condition. The conference listened to the fraternal messengers representing the general conferences now in session, Rev. P. G. Simmons, D. D. Monticello, Ga., for the A. M. E. church in general conference session at Kansas City, Mo.; Rev. C. G. Bryant, D. D. Indianapolis, Ind., superintendent of Indian schools, in the M. E. Church, which is now in session at Minneapolis, Minn.

..Theatrical..

Tonight the Academy's Summer stock season rolls around a change of play. The bill is changed every other night, while the moving pictures and specialties are different every night. Tonight the Mason and Street Stock Company, filling the highly successful Summer engagement, will offer the powerful modern drama, "Still Water Runs Deep." It will be such a play as will strongly appeal to all. There is nothing blood-curdling about it, but the action is nevertheless intense and will grip the attention of all who behold it. There is also plenty of fine comedy, of the bright, snappy, wholesome type. The orchestra will, of course, be heard in some new and popular numbers. The change of pictures tonight will be a big feature, as the list shows some of the biggest photoplay creations yet turned out and some of the most novel. But the Mason and Street Company will not stop with one performance today, but will also be seen at matinee. The regular mid-week matinee, which is always looked forward to with much pleasure, will be given, the curtain going up promptly at 3:15 o'clock and the bill will be fully the equal of the best given at night. The matinee prices, as before, will be but 5 cents for children and 10 cents for adults. The same tiny prices, 10 and 20 cents, prevail for night.

At the Grand Theatre. The feature film at the Grand Theatre today will be "All on Account of Checkers," a Selig, which will be found a plenty and the spectator in situations delightful acting and a thousand laughs. The story is that of Prof. Bernard, whom his publishers have written that if he will eliminate one sentence from his book, they will publish it. This sentence reads, "Marry Me and I will do away with my wife, as I did her father." The professor tears this from the manuscript and leaves it unthoughtfully on the table after he leaves. The cook finds it and noting his absence, hurries to the police station with the evidence of the tragedy. Then what happens is plenty and the spectator is kept in a roar of laughter from start to finish. In addition to this film, there is another "Red Men's Honor," the scenes of which are laid in an Indian camp. It is very pretty and picturesque. In addition to these there is still another film and the bill will be found one of the best offered in some time.

FEEDING BABIES.

Needless Slaughter of the Innocent Results From Improper Feeding. Raleigh, N. C., May 4.—One hundred and sixty babies will be born in North Carolina tomorrow. Thirty-two of these will die within a year. Over half of these deaths will occur because of improper feeding. Breast fed babies have ten chances of living to the bottle fed baby's one. These babies should nurse their babies, if they possibly can. Mother's milk is the only natural and perfect food for a baby. Immediately after birth do not give artificial food while waiting for the milk supply to come. Give him nothing but cool boiled water. Never give ice water. During the first 48 hours after birth his greatest need is rest. Give him all the water he will take; at least a tablespoonful three or four times a day. He will not starve. Nurse the baby by the clock. "Meals at all hours" cause indigestion in babies every day. Do not feed the baby every time he cries. Crying is usually a sign of discomfort. Nursing may mean more discomfort. Often he is thirsty. Do not think he is crying from temper until you are sure there are no other causes. Feed a new baby every two or three hours, daytime and once or twice during the night. After he is four or five weeks old, nursing every three hours during the day and once at night is sufficient. If you suspect that you have not enough milk, that your milk does not agree with the baby, or if any other milk supply rises, ask the doctor before changing him to the bottle. He may be able to remedy the difficulty. Your own diet may be too rich or too poor in certain food properties. Perhaps you are overworked or worried, or you may lack sleep, fresh air, or exercise. All these affect the mother's milk supply and may make it injurious to the little one. Do not be content with advice of neighborhood grandmothers concerning the baby. Know the best life saving and health giving methods of child hygiene and apply them faithfully. The best remedy is "Care and Feeding of Infants," 75 cents, or write to the State Board of Health for their free bulletin on the same subject.

SOCIOLOGICAL CONGRESS.

Governor Hooper Ill and Unable to Attend Meeting at Nashville. Nashville, Tenn., May 7.—Governor Hooper, who conceived the idea of holding the first Southern Sociological Congress was prevented by illness from attending the opening session of the congress tonight which attracted hundreds of social service workers from all parts of the United States. Dr. Ira Landrith, of Nashville, welcomed the great gathering to Tennessee, reading the following telegram from Governor Hooper, who is ill at Mooresburg, Tenn.: "Please convey to the Southern Sociological Congress my profound regret and disappointment on account of my inability to attend its meetings. I hope that this initial congress will be followed annually by the assembling of the South's strongest and best men and women to study and discuss those great moral problems of organized society which are even more important than the exigencies of our commerce and the development of our material resources, with the slogan of the solid South for a better nation. "This congress can lead the march which has for its goal the universal education of the children, the more perfect care of the neglected and unfortunate, the removal of the spirit of vengeance from our penal codes, and the conduct of our corrective and charitable institutions in accordance with the most enlightened modern methods, free from graft, politics and inhumanity. In behalf of the State of Tennessee I extend to each delegate to this congress most cordial greetings. (Signed) "BEN W. HOOPER." Prof. G. W. Dyer, of Vanderbilt University, spoke on "Southern Problems That Challenge Our Thought"; John G. Woolley, of Chicago, discussed "The Destroyer of Social Safety," and Dr. Luther H. Gulick, of New York, spoke on "The Camp Fire Girls of America."

New Orleans, May 7.—A telegram received here early tonight from the Mayor of Grand Saline, Texas, states that the descriptions furnished by the New Orleans and Northeastern Railroad officials of the four unidentified victims of yesterday's wreck of the first section of the "Confederate Veterans' Special" near Hattiesburg, Miss., appear to indicate that they are Leonard Hollis, wife and two children, of Edgewood, Texas. The bodies of six of the nine victims of the wreck were brought to New Orleans today. Of the 54 passengers who were injured those whose wounds required their removal to the hospital at Hattiesburg were tonight reported as getting along satisfactorily.

Idleness the Root of All Sin.

Idleness is the unforgeable sin, because it is the mother of all other sins.

A "CURE" FOR BALDNESS

The above expression is one which is used frequently in connection with hair preparations. Just exactly what is meant by it in each instance is a question. Baldness is not a disease and hence does not permit of a cure. It is a result invariably of the condition of the dandruff germ and if the condition has become chronic, that is, if there is complete atrophy of the hair follicles, a "cure" is absolutely impossible. Approaching baldness, seen in falling hair, may always be checked and if the hair follicles are not atrophied, the hair may be induced again to grow. This is accomplished by regular applications of Newbro's Herpicide which cleanses the scalp and kills the dandruff germ. The destruction of the germ does away with the accumulations of scarf skin and thus eliminates the most common enemy to beautiful hair. Soft, glossy, fluffy hair cannot grow on a scalp infested with dandruff any more than a delicate plant can grow on an ash heap. The scalp must be kept clean and free from dandruff. The best remedy for doing this is Newbro's Herpicide which receives the highest endorsements from professional men, the stage and the best people everywhere.

Herpicide is sold and guaranteed in one dollar size bottles by all druggists. Applications obtained at all first-class barber shops and hair dressing parlors. Address The Herpicide Co., Dept. R., Detroit, Mich., enclosing 10c in postage or silver for sample and booklet. ROBERT R. BELLAMY, Special Agt.
