NEW REVOLUTION

Mexico City, Feb. 21.-It is certain that the new administration in Mexico must deal with a new revolution in addition to the remnants of the old one.

Venostiano Carranza, Governor of the State of Coahulia, with 1,200 men, is working with Emilio and Raulo Madero, brothers of the deposed President, who are at San Pedro, Madero's old home, near Satillo, which is Carranza's base. Jose Gayou, former Governor of Sonora, has telegraphed from Mexicali to Governor Maytorena, of Sonora, offering him 3,000 men and 2,000 pesos to restore Madero to office.

Governor Matonora has telegraphed the Senate and Provisional President Huerta tration. The Governor of Tucatan, ignorant of the death of Gustavo Madero, has wired him offering the services of 1,200 men and money to assist in a new resolution.

What will be done with ex-President Madero has not yet been determined. Juan Sanchez Azcona, Madero's private secretary, is in a prison at Puebla.

General Porfirio Diaz. ex-President of the Republic, who has been in exile in Europe is coming home. There is not the slightest possibility that he again will mix in the politics of Mexico, but his enforced exile is ended.

HUERTA OUTLINES INAUGURAL STAND PEACE PROGRAMME ABOUT COMPLETED

Being Made on Great Temporary Structure

Constructed for Photographers -Strange Docrkeepers on the Job

Washington, Feb. 21 .- A coat of white paint applied today to the square reading design from which Woodrow Wilson will deliver his inaugural address March 4th, constituted one of the real "finishing touches" to the great temporary structure that has gone up on the east front of the capitol in preparation for the inauguration.

Across the street carpenters are still working on the rampart-like stand from which the battery of cameras and motion picture machines will be trained upon the inaugural scene, but the managers of affairs at the capital promise that a week before the day of action practically every detail of the arrangements at the capital will have been completed.

Demands from photographers for space on the camera stand have resulted in the extension of the structure. Provision is now made for at least 50 cameras. These will be trained upon the square center platform, rising a few feet above the outside edge of the immense 8,000 seat stand, which stretches back in a gentle rise to the doors of the capital.

On every available corner of the capitol and from the top of the House and Senate wings of the building, supplementary stands have been reared looking down upon the main structure and affording perches for note be accommodated on the main structure.

PILGRIMS ON THE ROAD TO WASHINGTON

This photograph shows the advance line of the army of suffragettes who are marching from New York to Washington. One of the features of the gallant squad of "Votes" advocates is a map of the United State (shown above), in which are designated the States where women enjoy the suffrage franchise or where they soon expect to get it. These States are shown in beautiful bright colors, while the States which seem unalterably opposed to woman suffrage are painted in repulsive hues.
