Senators Bristow Smith, of Michigan, Sterling, Smoot, Lodge and Cummins led in the attack on the sugar schedule which bids fair to hold attention of the Senate for several days. No time has been fixed for a vote on the Democratic rates of amendments proposed today by Senator Bristow, which would provide for a gradual reduction of the tariff on refined sugar until the figure would reach \$1.26 a

hundred pounds in 1919. Democratic leaders asserted tonight that the Bristow amendments would be voted down, and that there would be no Democratic votes to be cast agains the majority, except those of the Louisiana Senators, Thornton and Ransdell, who gave notice of their purpose to the Democratic caucus,

In today's discussion Senator Bristow asserted that the American Sugar Refining Company, which several years ago started out to acquire the beet sugar factories, abandoned the plan because "they found it would be cheaper and easier to destroy this industry through free sugar than to contrel it by purchase of stock. Senator Walsh declared that testi-

mony of beet sugar men before the obby committee was to the effect that the reason the American Sugar Refining Company reduced its holding in the beet sugar plants in the West was because of fear of the Sherman anti-trust law.

Senator William Alden Smith vigorously supporting the Bristow amendments, declared:

"I venture the assertion that the American Sugar Refining Company, s owners, has not pur nor any t sugar stock since the chased any Democratic party came into power and will not buy any until you have passed your bill and your three years of strangulation have persecuted the beet

Senator Sterling said agitation for free sugar had deterred capitalists rom erecting beet sugar factories in South Dakota. Senator Walsh, of Montana, expressed the belief that many projected beet sugar factories in the West had been kept from entering he field by the "powers that be" in

Administration Officials Puzzled at the Latest Turn of Events-Situation Discussed at Official Conference in Washington.

Washington, April 18 .- Administration officials were puzzled late tonight when they received the announcement through press dispatches that Provisional President Huerta had delivered an ultimatum demanding recognition of his government in Mexico by

the United States. Secretary Tumulty, at the White House, read the Associated Press dispatch from Mexico City received shortly before midnight stating the intention of the Huerta government and immediately communicated it to Secretary Bryan. President Wilson had retired early and was not awakened.

Secretary Bryan said he had received merely cablegrams announcing the rejection by the Huerta government of the American suggestions for a peaceful settlement. In the absence thought about \$1,550 of a total of \$3,- of official confirmation, Secretary Bryan said no announcement would be made by this government.

The Huerta government's rejection brokers, he said, he called upon Rep- of the suggestions made by the Unitwice, but had not discussed the loan the Mexican revolution reached Wash ington late today. President Wilson, Secretary Bryan and Counsellor John Bassett Moore, of the State Department, discussed for nearly two hours the dispatches of John Lind, personal representative of President Wilson, in Mexica, describing the attitude of the Huerta officials.

The President and his advisers vere plainly disappointed at the turn the emphatic statement that under no recognize the Huerta regime because the world of President Wilson's ideas

as to constitutional government in Latin-America. In all likelihood today's events means the end of any dealings with the Huerta officials. Though there was much talk in official circles of lifting the embargo on arms and permitting the constitutionalists to get the munitions of war with which they claim administration, it is likely that such a policy will be carefully considered in the Senate before any action is taken.

The position taken by administration officials tonight was that the United States had done all that a friendly neighbor could do without actually using force. The only interest, it pointed out, that the United States can have in Mexico, is the protection of lives and property. Financial los-ses can be met by indemnities, it is believed here, and lives can best be protected by the withdrawal of Americans from the danger zone. end officials are considering the removal of Americans and the payment of transportation for the destitute.

A strong sentiment in favor of givequality with the Huerta faction exists in the Senate. President Wilson is peace, but he has not finally made up his mind on the subject. Senator Bacan, chairman of the foreign relations committee, was informed by the State Department of the rejection of the American communication by Huerta. He made this statement on the situa-
