Reports of the loss of life vary from five to 500, but in only a few instances have the reports been confirmed. With all communication cut off from the devastated section, only an inkling of the enormous extent of the catastrophe was received by the outside world Wednesday night; but last night equivalent to an. additional 118,000 with a wire here and there restored, the dispatches began to come through tically every vestige of the crop has revealing the tale of one of the greatest calamities that has visited any been used and the mills have had to portion of North Carolina.

The disturbance extended up the coast as far as Maryland, and in this State swept on in land with diminished intensity until it spent itself in the Bine Ridge country.

Little news has been received from the sea, owing in some instances to the fact that wireless communication was not possible. Last night the revenue cutter Seminole received orders to leave this port for Diamond Shoals, per pound for middling for the year at 12,20 cents, compared with 10.16 to render assistance to the schooner Annie R. Heidritter, reported drifting with her rudder broken and topmast and jibboom gone.

> Mills Remarkably Active Mr. Hester says that American mills have had another year of re-marable activity both North and South, the number of bales used having been greater than ever before and aside from mention in some instances in necessity for more labor there has been a singular absence of complaints of any kind. In the South, which has been the most active, mill replies, as a rule have contained the stereotyped statement of "full time.

> Southern Mills Increase An increase of 545,000 spindles is shown in Southern mills in operation and seven mills, in course of construction with liberal additions of spindles to old concerns embrace a total of exceeding 300,000 additional spindles, most of which may come into piay n the near future.

> Mr. Hester says last year the mills as a whole did not reach their maximum consumption until the last half of the year. This year while the aggregates have varied, there has been no let up from month to month and early indications of record consumption were sustained as the season

> The report puts the spindles in the South at 12,819,333 including old, idle and not completed, against 12,318,3561

The consumption of American cotton by Northern and Western mills is put at 2.617,000, against 2,481,000 last year. North and South, the aggregate court here was notified today that the consumption was 5,587 000, while they used 218,000 bales of foreign cotton making a total consumption of all kinds of 5,805,000, against 5,433,000

> World's Consumption Mr. Hester puts the world's consumption of American cotton at 14.-903,000, an increase over last year of 388,000 and an increase over the year plane plunged 300 feet to the ground before last of 2,849 000.

In the South Mr. Hester makes the consumption 225,492 bales over last year and 605,943 over the year before. Of the total of 841 mills 804 have been in operation including one exclusively on foreign; 30 were idle and 7 in course of construction. The year's consumption is divided

In a letter replying to two communications relating to the gubernatorial situation sent by the Governor to the former President while he was traveling in the West, Colonel Roosevelt

"You owe it to yourself, and to all those who have supported you to take the earliest opportunity to answer the charges made against you."

Governor Sulzer made the Rooseelt letter public today without comment. Asked if he would follow the former President's suggestion the Governor referred his interrogators to his general denial of the charges issued by advice of his counsel August 10th, three days prior to the adoption of the impeachment resolution by the Assembly.

The Colonel's Letter Colonel Roosevelt's letter in part follows:

"On my return from Arizona I received your two letters. I believe thoroughly understand the assault now being made upon you.
