TAMMANY REPUDIATED; BAY STATE DEMOCRATIC

Democratic Leaders in New Jersey Claim a Safe Plurality For Fielder For Governor—Massachusetts Elects Walsh, Democratic Candidate, Governor, While Blair Lee Was Chosen Senator in Maryland—Three Democratic Congressmen From New York—State Goes Republican—Mitchell and Sulzer in New York City.

Election returns at a late hour tonight showed a complete triumph for the Democrats in Massachusetts where a Governor and State ticket were chosen in a four-cornered fight; the selection of a Democratic Governor and State ticket in Virginia without contest; the ascendancy of fusion over Tammany in New York City, with indications of Republican victory for the New York Assembly and judicial ticket; and a close fight for the State ticket in New Jersey, where President Wilson and administration forces fought to elect James J. Fielder to the Governorship.

Results From New Jersey. Trenton, N. J., Nov. 4.—Indications point to the election of James J. Fielder, Democrat, as Governor by a plurality of about 15,000 over Edward C. Stokes, Republican. Only a light vote was cast for Everett Golby, Progressive, who raised about 3,000 as compared with 145,410 received a year ago by Col. Roosevelt for President. Fielder's vote in the returns at hand is running slightly below that received by the late Governor Wilson a year ago, which was 158,283.

HARVESTER CASE CONTINUES

St. Paul, Minn., Nov. 4.—Judge William D. McHugh, fighting the government's suit for dissolution of the International Harvester Company, today in the United States District Court pictured the concern as a great educational and beneficial force. He assigned to George W. Perkins credit for this achievement. "One hundred and twenty millions of dollars were put into it," he said, "and of this amount, one-half, \$60,000,000 of stock, was issued for cash. The rest was put aside to cover the properties of the various large concerns that were interested in it."

STRIKE-BREAKERS GO UNPROTECTED

Thirty Policemen in Indianapolis Refuse to Ride Street Cars With Them. ONE MORE DEATH RECORDED. Revolting Officers Hand in Their Badges, But Are Ordered Back on Patrol Duty—Charges Will be Preferred.

Indianapolis, Ind., Nov. 4.—The abrupt refusal of 30 members of the police force to ride with strike breakers, caused the fourth day of the street car strike to pass without car service here. The policemen turned in their badges which were returned with orders to remain on patrol duty. It was announced that charges will be preferred against them after the strike has been settled. An unusually large number of men were on the streets due to the election holiday, but little rioting was reported. The strikers and sympathizers gathered at a large meeting on the court house grounds and cheered several ministers who counselled them to avoid violence. Resolutions denouncing violence were passed by the strikers.

CHINA PLANNING MANY REFORMS

Commissioners Visit America To Study Our System of Government. MAKES STEADY PROGRESS.

New York, Nov. 4.—The Chinese government plans many reforms in its various departments, according to Lo Tong, Hu Chen Shin and Far Sung, the judicial commission which has just arrived here. Several commissions of investigation have been sent to this country and Europe by heads of the different departments. Upon their report will depend what sort of legislation the Chinese Parliament will adopt in these matters. Messrs. Lo, Hu and Far will make an inquiry into the judicial system of the United States with special reference to the judges and the courts, prisons and reformatories. Mr. Hu is senior clerk of the ministry of justice, and is a graduate of Tien Tain University. Mr. Lo is chief of the criminal department of the ministry of justice. He is a graduate of the Imperial Japanese University. Mr. Far represents the department of finance on the commission. "Everything is quiet and orderly in Peking," said Mr. Hu in answer to a question. "The government is making steady progress. Business is improving and this is true not only of Peking but all through the country. Trade is beginning to flow between the interior and the seacoast. Our Parliament soon will take up the question of executions. The old method was by cutting off the head. Of late there has been a great deal of sentiment against such a barbarous and cruel method of putting a criminal to death, and since the revolution most executions have been by shooting. We have been very much interested in the matter of electric execution, and there has been considerable debate as to which was the more humane method. The commission is particularly interested in prisons and we shall learn all we can about the workings of your reformatories."

DEFENSE SCORED. In Proceedings Against Mendel Beliss for Murder.

Kiev, Russia, Nov. 4.—The defense scored today in the proceedings against Mendel Beliss, who is on trial for the murder of the Christian boy Yashinsky, when Prof. Kokovsov and Timonoff, theological experts, ridiculed the idea that a man could be sent to prison for murder. Prof. Kokovsov, who is attached to the St. Petersburg University and is a relative of the Russian Premier, said: "Were I told that the body of a child had been drained of its blood, and were it proved to me that this had been done by a Jew, the supposition that the crime had been perpetrated for the purpose of eating would be less absurd to my mind than the theory of ritual murder."
