Some time ago the local board of trade and the Clinton chamber of commerce forwarded petitions to Superintendent Newell requesting that the passenger and freight departments here be improved. A reply was received from

the superintendent stating that the passenger department would be enlarged by building an additional ten feet to the present department and that umbrella sheds would be built along the right of way at the station also. He stated that the freight department would be enlarged to the

proper size. The citizens of the town accepted this proposition, who felt assured that the work would be done this spring. A letter has just been received from Superintendent Newell stating that the freight warehouse would be enlarged as he had stated, but that the passenger department would not.
