All. Teams Show Improvement at Batting and Fielding-Y. M. C. A. Still Leads the Van.

Scanning the comparative tables of averages for the past two weeks, shows that the City League teams as a whole, are settling down to a better-grade of ball, which comes naturally as the different squads get more pracas the different squads get more prac- single tice together, and the individuals get one base on the hit." their batting optics trained and their "I know that, but what is the boob city yesterday." joints limbered. The .300 hitter class received three additional recruits as a result of last Saturday's games, the

list this week showing 18 embroyo Tycobbs hitting this clip or better.

Neither Waddill nor Fillyaw, who head the batting list this week, participated in last Saturday's events, the former having been in only one game, while Fillyaw has seen service in three games. Eliminating these contestants for lack of continuity of service, leaves the top round occupied by Boswell, of the Infantry, and Jones and Houston, of the Association team, tied for first honors with a showing of tied for first honors with a snowing of .437, these players having participated in every game that has been played. Jones dropped off from the .500 round, and Houston ascended from the .385 mark as a result of their activities in Saturday's battles.

The Association team, league leaders, still maintain their lead at both the batting and fielding game, al-

ers, still maintain their lead at both the batting and fielding game, although their percentage shows a slight falling off at both ends, while each of the three other clubs were making the most of their opportunities and increased their club batting and fielding considerably. The Giants showed the greatest spurt at the batting stunt, having risen from .204 to .229, displacing the Light Infantry as second best swatters of the pill.
