RUSSIAN FRONT IS DYE INDUSTRY IS SUBJECTED TO THE TEUTONIC ATTACKS Project to Establish Plants in Further Discussion of Princi- Physicians Succeed in Stop-

German Official Report Claims It Has Been Pierced at Places.

FIGHTING IS VICIOUS

Probability of the Evacuation of Warsaw Being Seriously Discussed.

London, July 18-The Russian front, running from the Baltic in the north to Bessarabia in the south, a distance of nearly a thousand miles, is being subjected to violent attacks by the Germans and Austrians and in places of "untold value" in the development has, according to the German official of the American industry, according to report, been pierced.

In the Baltic provinces General Von Buelow, who is using large forces of Causery has crosed the Windau river and is moving toward Riga. In the Przasnysz district, Field Marshal Von Hindenburg, who is making his fourth attempt to reach Warsaw, has twice broken the Russian lines and compelled the defenders to relay toward the narrow river.

In Southern Poland, after a period of inactivity, Field Marshal Von Mackensen is again on the move and claims to have captured some Russian advanced positions which stod between

Cholm railway. in Galicia. As was the case in the drive through western Galicia, the Russians are fighting stubbornly, and on occassions are turning and delivering vicious blows at their opponents. But whether they will be able to hold

their present lines is problematical. The probability of the Russians having to evacuate Warsaw, which is threatened by Von Hindenburg in the neighborhood and Von Mackensen in the south, is being seriously discused. The possibility of a further retreat, however, is being calmly considered in Russia where the old theory that the further the enemy is drawn into the easily and effectively met." up their hopes of final victory.

For the present, Berlin is the only capitol celebrating and again Field Marshal Von Hindenburg, whoses success in the Przasnysz district is the cause of it, is being lauded.

the east-the greatest movement of ing importance in the west for some rate, no important move has been undertaken by either side. There have been artillery engagements all along the front and a few infantry attacks, but these were infinite comparison with the operations in the east.

Unofficial reports continue to refer to the fighting on the Gallipoli peninsula, but these reports are not confirmed by the headquarters concerned. News from that district is anxiously awaited as the effort to clear the peninsula of Turks is about due.

RUSSIANS GIVEN SURPRISE Berlin Rejoices Over Von Hindenburg's

Victory. Berlin, (via London), July 18 .- The news of field Marshal Von Hindenburg's newest surprise for the Russians, which he war office announces, has resulted important victories, was made known late yesterday, causing general rejoicing and the apeparance of flags

WILL INVESTIGATE LUMBER INDUSTRY

Trade Commission and Manufacturers Meet in Chicago.

MUCH TIMBER WASTED

Purpose of the Commission is to Find Out How Lumber Supply is Being Utilised-Forest Conservation.

Washington, July 18 .- Conferences between the Federal Trade Commission and lumber manufacturers, beginning tomorrow at Chicago, will form a part of a general investigation of the lumber industry.

According to an announcement from the commission's officers today, the work begun by the old bureau of corporations in co-operating with the forest service and bureau of foreign and domestic commerce, is to be taken up and effort to "find out how the lumber supply of the country is being utilized and whether or not normal and healthy conditions exist in the forest uning in-

"As the situation is declared by the forest service," said the announcement, "although logging and forest fires are reducing the lumber supply by eighty or more million feet a year, much low grade timber is not marketable. From a quarter to a third of the material grown in the forests is wasted in manufacture. From the lumberman's standpoint the country seems to be glutted with lumber; but there is no prospect of any permanent weakening in the attack of the 45,000 saw mills on the remaining forests. There has also been much speculation in timber which has tended to enhance timber values and to increase the prices demanded by sociations of lumber manufacturers and distributors has occasioned belief that prices were being raised artificially."

The Forest Service, the announcement says, is taking part in the investigation particularly because of its bearing on forest conservation.

FIRST MEETING TODAY.

Representatives All Lumber Manufacturers' Associations Are Invited. Chicago, July 18. - Members of the Federal Trade Commission will hold their first Chicago meeting tomorrow. The commission is on its way across to discover facts about the lumber in-

dustry. It will last two days. Representatives of all the lumber nanufacturers' associations in the United States have been invited to appear before the commission. A representative of the Federal Forest Service will give evidence regarding the lumber market as it affects the government's property.

Among those who will make statements are R. H. Dowman, New Orleans, La., president of the National Lumber Manufacturers' Association: Charles S. Keib, Kansas City, Mo., president of the Southern Pine Association: C. I. Millard, Norfolk, Va., North Carolina Pine Association, and George E. Watson, New Orleans, secretary of the Southern Cypress Manufacturers' Association.

Aside from the fact that this is the first meeting the commission has held government not only acts as an investigator of a large industry, but also appears as the owner of extensive timber holdings, which it has been en-

ATTENDING CHURCH IN MORNING

Went to Philadelphia and From There Will go to Pittsburgh Atlantic City, N. J., July 18,-Harry K. Thaw left here late today for Phil-

last things he did was to take a plunge in the surf. Thaw spent the day very quietly Shortly after breakfast he strolled out on the board walk and met James Mullen, an old friend of Dr. Sylvester L. Scoville, president of the University of Worcester where Thaw attended school Mr. Mullen, who is ninety years old, took him to the First Presbyterian

church, where they heard the pastor, Dr. Henry M. Mellen, preach. After church, Thaw again went to the beach. He posed for the moving pictures and spent the remainder of the afternoon at his hotel chatting

with friends. Thaw, who came here Friday night after being given his freedom by the New York supreme court, said he felt greatly refreshed by his two days stay. He was undecided as to when he would leave Philadelphia for Pittsburgh, but said that he expected to reach the latter city in a few days.
