COTTON RECOVERED LOSSES

Close Firm at Advance of 15 to 20 Points—Buying Not Active But Recent Sellers Appeared to Be Covering.

New York, Aug. 11.—Cotton today more than recovered yesterday's losses and closed firm at a net advance of 15 to 20 points. Trading was not active but recent sellers appeared to be covering on less favorable weather or crop news.

There evidently was little cotton offered on the advance which carried December to within five points of last week's best level. The market opened steady, unchanged to an advance of four points in response to relatively steady cables and sold about 5 to 6 points net higher during the first few minutes. Most of the demand seemed to be in the way of covering by local shorts, and the advance attracted some scattering pressure from operators who probably thought the demand would be satisfied and that the market probably would ease off should the detailed weather report for the Houston district show as much rain as indicated by yesterday's private reports. The Western belt forecast for generally clear weather held selling in check, however, and when the Texas details were published they proved a disappointment for bears.

The advance thus started was stimulated by the bullish showing of the weekly weather report and the market reached the best point of the day in the late trading, closing only a point or two out from the top under realising. Futures closed firm.

NEW ORLEANS COTTON. Crop Report Sent the Price Almost a Dollar a Bale Higher. New Orleans, Aug. 11.—Reports of crop deterioration resulting from prolonged drouth, sent cotton almost a dollar a bale higher today. Little attention was paid to news of rain over night. Bulls contended that damage done through shedding and premature opening of bolls could not be repaired, and favorable features in the daily weather reports were overbalanced by the unfavorable weekly review from the Weather Bureau.

First prices were at the advance and in early trading the market stood five points up. Toward noon strongest months were 15 points up, there was much short covering in the afternoon and the gain was widened to 15 to 17 points. The close was 15 to 16 up. The market closed steady at an advance of 15 to 16 points; October 9.23; December 8.51; January 9.64; March 9.87; May 10.07. Spot steady, unchanged; sales on the spot, 700 bales; to arrive 750; middling 9.45.

COTTON SEED OIL MARKET. New York, Aug. 11.—Selling of near months and purchases of later deliveries was the feature in cotton seed oil today. Very little crude was offered and domestic demand was slow, although exporters showed interest in early shipments of new crop oil. Weakness in the lard market tender to restrain local bulls, and closing prices were 1 to 6 points lower. Sales, 14,900 barrels. PRICE OF WHEAT ADVANCED

Reports of Large French Purchase—Possible Over-estimate of Crop Causes Bullish Sentiment.

Chicago, Aug. 11.—Reports that the French government had bought 100,000 barrels of flour at Minneapolis caused a sharp advance today in wheat prices here. Bullish sentiment was increased by assertions that estimates based on the government crop reports were 100,000,000 bushels too high. Prices closed unsettled, 1/2 to 1/4 @ 1/8 above last night.

Corn finished 1/4 to 1/8 @ 1/4 up, and oats with a gain of 1/8 to 1/4 @ 1/4. In provisions, the outcome varied from 1/2 % decline to a rise of 5c. Grain and provisions closing: Wheat—September, 1.09 1/2; December, 1.09 1/4. Corn—September, 75 3/4; December, 64 1/2. Oats—September, 41 1/2; December, 40 3/4. Lard—September, 9'02; October, 9'07. WEEKLY SUMMARY. Of Weather and Crop Conditions in North Carolina. Raleigh, N. C., Aug. 11.—The Raleigh division of the United States Department of Agriculture Weather Bureau today issues the following summary of weather and crop conditions throughout the State for the past week:

The week was favorable and all crops show considerable improvement, except over small areas where more moisture is needed. Rain during the first of the week was heavy to excessive in many places, and generally sufficient to relieve the drouthy conditions. High winds on the 2d caused slight damage to corn. Curing of tobacco has become general, with a fair to good crop. Cotton is taking on more form and the outlook is promising, but will be about two weeks late.

Foreign liquidation was a recurrent feature of interest. War shares were again shunned to a place of secondary importance with declines of 2 to 3 points. Striking exceptions to this tendency were shown by Bethlehem Steel preferred at 151 1/8, Willys Overland at 186 and Studebaker at 88, all new high records. Total sales of stocks amounted to 975,000 shares.

Exchange on London and Paris fell to new low records, despite the receipt of \$20,000,000 gold from London. Demand sterling was quoted at 4.74 5/8 and checks on Paris sold at 5.51 1/4. There was a better inquiry for investment bonds, with greater activity in subordinate issues. Total sales, par value, aggregated \$3,840,000. United States bonds were unchanged on call.
