### EXPECTS 5,000 SCHOOL CHILDREN TO TAKE PART

#### In Robeson County Commencement Friday, Apr. 7.

#### Love vs. Redfern Case Again Continued—Land Sold for Drainage—New Law Firm—Republican Meetings.

(Special Star Correspondence.)  
 Lumberton, N. C., Feb. 12.—The one week term of civil court, which convened Monday morning, adjourned Thursday morning in time for Judge Daniels to leave on the 10:25 A. M. train for his home at Goldsboro. A good deal of business was disposed of, the greater part of which was granting divorces. If no divorces were granted in this county for a year, it would come very near taking a special term to grant divorces.

Friday, April 7th, has been named as the day for the county commencement to be held in Lumberton. County Superintendent Pools expects to see at least 5,000 school children here on that day, representing every nook and corner in the county. No pains will be spared to make the occasion bigger and better than the commencement held last year, and everybody in the county knows what a tremendous affair that was. Altogether now, for the greatest educational day Robeson has ever had.

This town and section has a few citizens that can't be exactly classed unless they are termed the "silent butler." They dress genteelly, are clever, sociable in all that the word implies, and it is a hard matter to find a flaw in their general make-up. Their greatest weakness seems to be pressing and gardens do not seem to be spared to see when who of their friends receives a quart. They are apt to see when some special gift gets his package—and then in a short time they are smiling and making a friendly call, "just drop in," making a cold or something else. Nine times out of ten they get what they go after before they go to call on another friend.

Martha Blackwood, the 60-year-old colored woman, who was shot from one night this week, (the next morning) is doing as well as could be expected, and her physician confidently expects her to recover unless complications arise.

The chicken proposition is giving some Lumberton people a good deal of concern. People who persist in keeping chickens and allow them to roam the streets and their neighbors' yards, while on the other hand housewives who take an interest in trying to beautify their yards with flowers, are greatly annoyed. The there are some who seem to raise collards, turnips, etc., just for the benefit of their neighbor's chickens. It has been

#### suggested that the "chicken law" be repealed or enforced.

### Redfern Case Deferred.

The plaintiff in the case of Love vs. Redfern, which was set for hearing on the 18th, has been notified that the matter will again have to be deferred, as the physical condition of the defendant will not be such as to allow him to be present. Chief Redfern is improving as rapidly as could be expected from the operation for appendicitis, but is still very weak. It is not known yet when he will be able to leave the hospital.

Sheriff Lewis had on a big sale last Monday when he sold 3,645 acres of land for taxes in the drainage district known as the Back and Jacob Swamp Drainage District, lying from one to six miles west of Lumberton. The people in the district, that is the property owners, voted \$150,000 drainage bonds on themselves, and, while there is no doubt of the fact that the land has been greatly increased in valuation, all those interested, for some reason, do not pay the tax, hence the sale.

No use to cuss the sheriff because you have not paid your taxes, and now have costs added. He didn't fail to use printer's ink in sounding the alarm. But for the past two weeks the tax-payers have been coming in and has retired from the mercantile business. There is now more vacant stores in Lumberton than has been seen here in a long time.

Mr. C. Normont celebrated his 75th birthday yesterday, and since the writer's earliest recollection Mr. Normont has been one of the leading reliable citizens of Lumberton. "Grand old Southern gentleman" may be spared to see many more birthdays.

**New Law Firm.**  
 Messrs. T. A. McNeill, Jr. and H. J. Singleton, two of Lumberton's prominent young attorneys, have formed a partnership for the practice of their profession, and will occupy the offices for some time occupied by Mr. McNeill in the McLeod building, formerly occupied by the National Bank of Lumberton.

Wednesday was a regular summer day in this section in one respect at least. From early morning till late in the afternoon thunder showers came along same as April or May.

Workers are engaged in making preparations for changing the light system in Lumberton, and at the same time material is being put on the ground for the erection of a filtering plant.

Some of the good, broad minded parents of Lumberton need not become offended when some of their little boys get pinched for using their little harmless air rifles in town, the kind of guns that break out windows, put out eyes, hit innocent children in the yard or on the street. And if a lady undertakes to remonstrate with them

#### for breaking out a light shooting the cat on the back porch or anything they choose to shoot at.

### Mr. Mitchell National Forest for People's Pleasure.

#### Arrangements for Opening the Reserve Made by U. S. Forest Service in Co-Operation With the Southern Railway.

Mount Mitchell National Forest, in the very heart of the Southern Appalachian Mountains, one of the most beautiful and picturesque spots in the Western World, is to be opened to the people for camping and recreational purposes. In loveliness of scenery, in salubrity of climate, in wonders of natural resources and in accessibility of location it will be the most wonderful park in America.

Arrangements for the opening of the reserve have been completed by the Forest Service of the Government in cooperation with the Southern Railway.

In protection of the superb primeval forests and the vast natural beauty of the area of the reserve, after mature consideration, it was decided to convert it into a recreation park—a magnificent playground for the people of the entire country.

In conformity with this plan, the Forest Service and the Southern Railway are preparing literature and maps for the disposal of the reserve to place at the disposal of those who may desire permanently or temporarily to locate within the park. It is the purpose of the Government to place within the reach of all either locations for cottages or sites for camps. Here they may spend all or any part of the year in an environment unsurpassed in beauty and healthfulness.

A recent letter written by Mr. H. S. Graves, Chief Forester of the United States, to Mr. W. H. Taylor, Passenger Traffic Manager of the Southern Railway, outlines the plan which the Government will make effective in the Mount Mitchell National Park.

"I am very much interested," writes Mr. Graves, "in the development of the Appalachian national forests for recreational purposes. The enjoyment by the public of the national forests for all sorts of out-door recreation is recognized as one of their important uses, and ample regulations exist for the purpose of facilitating this use to the fullest extent. The roads and trails built primarily for the purpose of administration and protection are open to all who desire to tramp or ride through the national forest, and the only restrictions existing are that the user observe the ordinary precautions against the burning of woods or the destruction or injury of timber or other property.

"Free permits may be obtained for temporary camping purposes and it is required only that necessary precautions be taken in building and extinguishing the campfire, and that the cutting of green timber be avoided

### OPEN FOR CAMPING AND RECREATION PURPOSES

#### Mount Mitchell National Forest for People's Pleasure.

#### Arrangements for Opening the Reserve Made by U. S. Forest Service in Co-Operation With the Southern Railway.

and that the grounds be kept in clean and sanitary condition.

The most important problem in connection with the recreation development of the Appalachian national forests is to provide means for bringing the opportunities offered to the attention of the public and making it easy for people who are interested in camping or in building permanent summer homes to find the exact location which will best suit their needs. In bringing this about the Southern Railway can, I am confident, be of great assistance through the facilities offered by the organization for the dissemination of detailed information concerning the recreation attractions of the country tributary to its lines.

Chief Forester Graves has authorized the District Forester to prepare maps and reports upon the Mount Mitchell National Park which will disclose in detail its recreational features and explain to the public the opportunities afforded. The maps will indicate the main routes of travel, those parts of the tract of special interest from a scenic or other recreational viewpoint, and the localities which have special advantages either for temporary camping purposes or permanent cottage sites.

It is explained by Mr. Graves that "for camps of a permanent nature, or for summer cottages, permits will be required and charges levied in accordance with the exclusive privileges thus granted." The charges, however, are substantially negligible. As further explained by Mr. Graves, "the primary object of the term permits is not to secure a revenue, but to promote the use of National forest lands for recreation purposes. The annual charge for summer-home permits is not less than \$10.00. The rates for revocable permits for summer homes may be as low as \$5.00 per annum." Temporary camps sites, of course, are free.

In the Mount Mitchell National Park campers may live a delightfully carefree life in ideally beautiful and healthful surroundings, at practically no expense except their subsistence. Thus the opening of the park will afford to thousands of people, who otherwise might not be able to avail themselves of such advantages, all of the real pleasures and profits of an expensive summer outing.

Mount Mitchell, from which the park takes its name, is one of the grandest upheavals on the Western Hemisphere. Its summit is lifted 6,711 feet into a sky of deepest azure. It is the loftiest peak in Eastern North America. For eons it has stood in primeval solitude and solemn grandeur, while above and around and beneath, the clouds have swept and storms have raved.

From its top is disclosed a panorama of scenery of surpassing beauty. Below, Nature has risen great gorges and built everlasting cliffs; and the neighboring peaks of the Black Mountains, many of them ranging above six thousand feet and clad in the dark rich green of the balsam, rank worthily with the giant Mitchell. Across the marvelous Asheville Plateau, of an average altitude of 2,200 feet, is the summit of the Blue Ridge, where such wonderful peaks as the Dome, the Pinnacle and the Bull's Head toss their tops into the sky, and in the purpling distance, are such mountain wonders as Table Rock, Roan, Grandfather, Tennessee Bald, Pisgah and scores of others, which

#### largely employed as miners. The Russian consul here said in explaining the call to the colors that the regulations of that country make obedience to military commands imperative and that strikers are regarded as deserters and are subject to martial law.

### DODGE CARS UTILITY CARS

#### Percentage of Pleasure Drivers Grows Smaller, Says Hubbs.

"The percentage of car owners who drive for pleasure only is growing smaller every year," says George C. Hubbs, assistant general sales manager of Dodge Brothers, Detroit.

"Motor cars today are an economic necessity and this is true particularly of the cars in our class. Even the wealthy man, who has one or more big cars for pleasure touring, is turning to the smaller car with its light upkeep for business purposes.

"We had a striking example of this immediately after the last time Galveston was swept by the sea. Naturally we looked for a slump in business in the Galveston territory, but instead our representative there made demands for more cars and specified roadsters. When we inquired we ascertained that the big men of the community, who were throwing themselves, heart and soul, into repairing the damages done by the waters, were buying Dodge Brothers Roadsters so that they could get around the city more quickly.

"It is the fact that more and more people are buying cars from the utilitarian principle that the business has grown despite the general business slackening up in some sections of the country. Cars are no longer luxuries, but necessities, and there is always a demand for necessities."

**RUSSIANS MUST ENLIST**  
 Those Residing in Australia Notified They Must Take Part in War.  
 Sydney, Australia, Feb. 9.—The 20,000 Russians resident in Australia have just been notified through consular channels that all men among them of military age must take part in the war. They are given the option of either joining the armies in Russia or enlisting in the Australian Expeditionary Forces. The Russians in Australia are nearly all of the working class,

#### Richmond, Va., 12.—The Virginia House of Delegates on motion of Captain Myers, of Richmond, adjourned at noon today in honor of Abraham's Lincoln's birthday.

### Near Side Stop.

#### Beginning Tuesday street cars will stop on the near side of street to take on and drop passengers. (Advertisement.)

### GIRLS--DO YOU KNOW WHY YOUR HAIR IS UGLY?

Abigail Moore, the noted beauty authority, says, "The hair is a register of the physical condition. Cleanliness and massage, as well as careful combing and brushing are most important. Many women do not realize the necessity of keeping the hair and scalp absolutely clean in order to look their best at all times. And yet, with only a few minutes of tonic massage, the hair may be brought to a beautiful, thick, lustrous luxuriance, and that at very little cost.

Just try these few simple directions today: Into the palm of the hand pour a soft tingling sensation comes stealing over the head. Do this regularly for a few days and occasionally wet your brush with the tonic and gently brush out the hair—you will surely be surprised and delighted with the results. The genuine Parisian Sage is obtainable from R. R. Bilyam, who always sells it with an absolute guarantee of perfect satisfaction to the user or the money paid will be returned.
