

CHARGE FOR TUITION HAS BEEN INCREASED

Has Gone Up About One-Fifth in the Past Ten Years.

Annual Report of the Carnegie Foundation is Made Public—\$674,000 Spent in Retiring Allowances and Pensions.

New York, June 18.—The cost of education, in the matter of tuition alone, is increasing, according to the Carnegie Foundation for the Advancement of Teaching, which made public its annual report today. It is just ten years since the Foundation was established, and in the statistics it has kept of the charge made for tuition by the representative universities and colleges of the country, it has been found that the charge was increased by about one-fifth.

The tendency to increase was active ten years ago, according to the report, "but was checked by the general financial disturbances of 1907. Since that time it has developed steadily, so that the last four years represent more than half of the advance during the decade. During the present year, following the recent examples at Columbia and Yale, the fee at Princeton has been increased from \$160 to \$175, and next year the Harvard fee of \$150, which has remained unchanged since 1869, will be increased to \$200.

"It may be said that the representative or median fee of our representative institutions has increased, during the decade, from about \$80 to about \$100 a year, and that the tendency to advancing fees is increasing.

The report states that \$674,000 has been spent by the Foundation during the year in retiring allowances and pensions. Twenty-three retiring allowances, and twenty widows' pensions were granted, the average grant being \$1,550. The total number of allowances now in force is 327, and the widows' pensions amount to \$1,200,000. The total expenditure for allowances since the Foundation was established has amounted to \$4,225,000.

A study of legal education, undertaken by the Foundation at the request of the American Bar Association, has been in progress and practically every law school in the United States has been visited and conditions studied at first hand. The report presents the "first complete list of law schools in the United States," showing that there are 137 resident schools conferring degrees, 10 resident schools conferring on non-resident students, and 17 correspondence schools; a total of 164.

The study of legal education has enlisted the active and at times continuous cooperation of nearly two score deans and professors in law schools and members of the bar. The investigation is not yet finished, and it appears it is proving a difficult task to get all the information which the investigators seek. The question of "when is a law school a law school" is by no means easy to answer. However, a great deal of important data has been gathered relating to the standards of law school work and the requirements for admission to the bar in the several states. "We hope," says the report, "by proceeding slowly and inviting comment and advice from many different sources, to make a few fruitful clearings among the weeds and tangled growth, the maze of formula, precedent and rule which this field is at present encumbered." During the year the investigation resulted in the publication of a survey of the present system of teaching in American law schools, by Prof. Josef Redlich, of the University of Vienna.

The study of Engineering Education, which was undertaken at the request of a joint committee representing the six national engineering societies and which has been conducted with the co-operation of those societies, is approaching completion. The experience and judgment of several thousand engineers have been drawn upon to estimate present conditions in the profession as they might be in the future. The records of student apprentices in several large corporations have been compared with the school records of the same men, some twenty representative engineering schools have been studied minutely, and a group of psychologists and engineers is endeavoring to develop a series of tests which may provide an improved means for judging engineering ability at the student's entrance upon and completion of engineering training.

The development of pensions for public school teachers has shown remarkable progress, says the report. "State after state is beginning to recognize that it cannot lag behind its neighbor if it is to retain its teachers."

"Since the last report of the Foundation, twelve states—Connecticut, Illinois, Indiana, Iowa, Michigan, Montana, Nebraska, Nevada, New Hampshire, Pennsylvania and Washington—have considered the establishment of state pension systems for public school teachers. In eight of these the systems have been established; in four—Connecticut, Iowa, Pennsylvania and Washington—the proposed measures failed of enactment."

The study of the Training of Teachers in Missouri, undertaken at the request of the state superintendent of education, and a hundred representative educators of that state, has completed an educational census of the 18,000 teachers in the state, and this is being studied, together with observations made at all the institutions in the state which train teachers, by a group of principals of normal schools and professors of education from Harvard, Columbia, George Peabody College and the Universities of Illinois and Kansas, who are co-operating for that purpose with the regular staff of the Foundation.

The report further presents a summary of the legislative results of the Foundation's study of Education in Vermont, which was made at the request of an Educational Commission of that state in 1913, concluding "the ability to consider measures for the public welfare in a large, unselfish way was abundantly displayed, and the resulting mass of legislative constitutions of really distinguished quality, with perspicacity and public spirit of the representatives of the people in Vermont."

Laredo, Texas, June 18.—Five hundred infantrymen and 250 artillerymen of the Mexican army arrived in Nuevo Laredo, Mexico, opposite here today and paraded through the streets of that town. The parade was witnessed by a large but orderly crowd. An anti-American demonstration is reported to have been prevented in Nuevo Laredo last night by General De La Garza.

PRESIDENT WILSON CALLS OUT ALL STATE MILITIA

(Continued from Page One.)
to pursue bandits who attempt outrages on American soil.
"The militia are being called out so as to leave some troops in the several home stations where necessary recruit-stations. They will be mobilized at their own expense."

ORGANIZATIONS OF MILITIA WHICH HAVE BEEN CALLED OUT

Organizations of the militia called out by telegrams to the various governors, with places of assembly designated, follow:

Alabama—One brigade of three regiments of infantry, two batteries field artillery, one company signal corps, at Montgomery.

California—One brigade of three regiments of infantry, one squadron of cavalry, one battalion of field artillery, one company of signal corps, one ambulance company, one field hospital, at state camp grounds.

Colorado—Two battalions of infantry, one squadron of cavalry, two batteries of field artillery, two companies of engineers, one company of signal corps, one field hospital, at Rifle Range, near Golden.

Connecticut—Two regiments of infantry, two troops of cavalry, one battalion of field artillery, one company of signal corps, one ambulance company, one field hospital at Natick.

Delaware—Two battalions of infantry, at New Castle.

Florida—One regiment of infantry, at state camp, Duval county.

Georgia—One brigade of three regiments of infantry, one squadron, and one troop of cavalry, one battalion of field artillery, one field hospital, at Macon.

Idaho—One regiment of infantry, at Gem State grounds.

Illinois—Two brigades of three regiments each of infantry, one regiment of cavalry, two battalions field artillery, one company of engineers, one company of signal corps, two field hospitals, at Springfield.

Indiana—Two regiments and two separate battalions and three separate companies of infantry, one battalion of field artillery, one company of signal corps, one field hospital, one ambulance company, at Fort Benjamin Harrison.

Louisiana—One regiment infantry, one troop cavalry, one battalion field artillery, at Camp Stafford, Alexandria.

Maine—One regiment of infantry, at Augusta.

Maryland—One brigade of three regiments of infantry, one troop cavalry, one battery field artillery, one field hospital, one ambulance company, at Halesthrope.

Massachusetts—One brigade of three regiments and one separate regiment of infantry, one squadron cavalry, one regiment field artillery, one company signal corps, one field hospital and one ambulance company, at South Framingham.

Michigan—One grade of three regiments of infantry, two troops cavalry, two batteries field artillery, one company engineers, one company signal corps, one field hospital, one ambulance company, at Grayling.

Minnesota—One brigade of three regiments of infantry, one regiment field artillery, at Fort Snelling.

Mississippi—Three battalions infantry, at Jackson.

Missouri—One brigade of three regiments and two separate battalions and one separate company of infantry, one troop cavalry, one battalion field artillery, one company of signal corps, one field hospital, one ambulance company, at Nevada.

Montana—One regiment of infantry, at Fort William H. Harrison.

Nebraska—Two regiments of infantry, one company signal corps, one field hospital, at Lincoln.

New Hampshire—One regiment of infantry, one troop cavalry, one battery field artillery, one company signal corps, at Concord.

New Jersey—One brigade, three regiments of infantry, one squadron cavalry, two batteries field artillery, one company signal corps, one field hospital, one ambulance company, at Sea Girt.

New York—One division, including three brigades of three regiments each of infantry, one regiment of cavalry, and one machine gun troops cavalry, two battalions field artillery, two battalions engineers, one battalion signal corps, three field hospitals, four ambulance companies, at New Dorp.

North Carolina—One brigade of three regiments of infantry, two troops cavalry, one field hospital, one ambulance company, at Camp Glenn, Morehead City.

North Dakota—One regiment of infantry, at Fort Lincoln.

Ohio—Two brigades of three regiments of infantry, one squadron cavalry, one battalion field artillery, one company signal corps, three field hospitals, one ambulance company, at Columbus.

Oklahoma—One regiment of infantry, two troops cavalry, one company engineers, one battalion field artillery, at Chickasaw.

Oregon—One regiment of infantry, one troop cavalry, one battalion field artillery, at Clackamas.

Pennsylvania—One division, including three brigades, three regiments each of infantry, one regiment cavalry, one regiment field artillery, two companies engineers, one battalion signal corps, one field hospital, two ambulance companies, at Mount Gretna.

Iowa—One brigade of three regiments of infantry, one squadron cavalry, one battalion field artillery, one company engineers, one field hospital, one ambulance company, at Des Moines.

Kentucky—One brigade of three regiments of infantry, one company signal corps, one field hospital, one ambulance company, at Fort Thomas.

Rhode Island—Three troops cavalry, one battery field artillery, one company ambulance company, at Quonset Point.

South Carolina—Two regiments of infantry, one troop of cavalry, Lexington county, near Columbia.

South Dakota—One regiment of infantry, at Redfield.

Tennessee—One regiment and two separate battalions and three separate companies of infantry, one troop of cavalry, one field hospital, one ambulance company, at Nashville.

Texas—One squadron and two separate troops of cavalry, one battery field artillery, at Fort Douglas.

Vermont—One regiment of infantry, one squadron cavalry, at Colchester.

Virginia—Two regiments of infantry, one battalion and one separate field artillery, one company signal corps, one field hospital, at Richmond.

Washington—One regiment of infantry, one troop of cavalry, Lexington county, near Columbia.

West Virginia—One regiment of infantry, one troop of cavalry, at Charleston.

Wisconsin—One brigade of three regiments of infantry, one troop cavalry, one battery field artillery, one field hospital, one ambulance company, one field hospital and one ambulance company, at Camp Douglas.

Wyoming—Two battalions infantry, at Cheyenne.

SECRETARY BAKER'S TELEGRAM CALLING OUT NATIONAL GUARD

Washington, June 18.—The President's calling the National Guard into the Federal service went by the covering of the form of the following telegram signed by Secretary Baker:

"Having in view the possibility of further aggression upon the territory of the United States from Mexico, and the necessity for the proper protection of that frontier, the President has thought proper to exercise the authority vested in him by the constitution and laws and call into the organized militia and the National Guard necessary for that purpose. In consequence I am instructed by the President to call into service of the United States forthwith, through you, the following units of the organized militia and national guard of the State of _____ which the President directs shall be assembled at the state mobilization point, state camp ground (or at the place designated to you by the commanding general of the Department) for muster into the service of the United States: (Here follows a list of the organizations to be furnished by the designated state.)

"Organizations to be accepted into Federal service should have the minimum peace strength now prescribed for organized militia. The maximum strength at which organizations will be accepted and to which they should be raised as soon as possible is prescribed in section 2, table of organization, United States Army. In case any regiment, battalion or squadron now recognized as such contains an insufficient number of organizations to enable it to conform to muster to regular army organization to tables, the organizations necessary to complete such units may be moved to mobilization camps in the State, and the orders of the department commander to determine fitness for recognition as organized militia by the War Department.

"Circular 19, division of militia affairs 1914, prescribes the organizations desired from states as part of the local tactical division and only these organizations will be accepted into service. "It is requested that all officers of the adjutant general's department, quartermaster corps and medical corps, duly recognized as pertaining to state headquarters under table one, tables of organization organized militia, and not elsewhere required for duty in state administration be ordered to camp for duty as camp staff officers. Such number of these staff officers as the department commander may determine may be telegrams for the adjutant general's department for the purpose of proper camp administration and will be mustered out when their services are no longer required.

"Where recognized brigades or divisions are called into service from a state, the staff officers pertaining to these units, under tables of organization, United States Army, will be mustered into service and also the authorized officers of small arms practice pertaining thereto.

"Except for these two purposes of mobilization camp service and of the prescribed camp service and of tactical units, officers of State headquarters or other units, not mustered into service at this time, if tactical divisions are later organized, the requisite official of staff officers with rank as prescribed for division staff will, as far as practicable, be mustered into service at such divisions.

(Signed) "NEWTON D. BAKER."

EFFORTS TO BRING MEXICAN ARMY TO UTMOST STRENGTH

Chihuahua City, June 18.—Fervent efforts to bring every unit of the Carranza army of the north to the greatest possible strength for service in the event of hostilities with the United States were being made today. A message from General Obregon, Mexican minister of war, directed General Trevina, commanding the northern division, to urge patriotic citizens to volunteer for the army. He said that to fight the American army in case of a rupture of relations, and to prevent "the further raiding of American territory by armed bandits."

"The Mexican government is convinced that the greater part of its citizens are desirous of enlisting in the army so that in case of an international war they may be available with arms in hand, the integrity of our sovereignty. Further, since, in the northern states and especially in the border territory there are being organized bands of hostiles between the United States and with the object of preventing the further raiding of American territory by armed bandits who are cutting the lines of communication, all patriots should rally to the national standard."

MEXICANS CUT ALL WIRES FROM NOGALES IN ARIZONA

Douglas, Ariz., June 18.—Advices from Nogales, Ariz., state that all telephone wires between that town and Nogales, Sonora, have been severed by Mexicans. All Mexican state and federal officials have left with their belongings and funds for Hermosillo. Federal and state officials have also left Agua Prieta and Naco.

Immediate arrangements for bringing out American employees of mines in Sonora met with opposition by General Calles, military commander of the State of Sonora, who arrived at Agua Prieta tonight.

To American miners here, apprehensive for the safety of their employees, the general said:

"I gave you my adequate personal guarantee that in the event of hostilities I will go in person by special train to Nogales and see that every American citizen reaches the border in safety. Admitting the situation is critical, General Calles expressed hope that the crisis might "in some unforeseen manner" be bridged.

LOWER CALIFORNIA WOULD NOT TAKE PART IN WAR

San Diego, Cal., June 18.—Lower California will remain neutral in the event of hostilities between the United States and Mexico according to advice received here today from Colonel Eteban Cantu, military governor of the territory.

SEIZE RAILROAD AND CUT ALL WIRES TO THE BORDER

Tucson, Ariz., June 18.—Sonora military authorities have seized the Southern Pacific of Mexico system, and cut all telegraph wires at the border, according to private advices here late today.

VIRGINIA MILITIA MEN ARE READY FOR SERVICE

Richmond, Va., June 18.—Virginia has three regiments of infantry, one separate battalion of infantry, one battalion field artillery, one company signal corps, one field hospital and one ambulance company, at Camp Douglas.

one battery field artillery, one field hospital, at Camp Douglas.
Wyoming—Two battalions infantry, at Cheyenne.

AMERICAN REFUGEES BEING BROUGHT TO BORDER BY AUTO

Nogales, Ariz., June 18.—All telephone and telegraph wires leading from the American to the Mexican side of the border have been cut in Sonora. Americans are being brought to the border in automobiles from Nogales, where an anti-American demonstration occurred today. Carranza authorities had refused a train for the refugees.

GREAT LOCAL INTEREST IN PRESIDENT'S CALL

(Continued from Page Five.)
breeds without the law as it is to send missionaries to teach them Christianity. Humanity in Mexico cries aloud for help; national honor and dignity demand the mailed fist; our countrymen in the disordered, blood-stained land lift their eyes to the northward and their hearts are ached. "Sound the bold anthem" shouts Watson, and the nation applauds. The time has come for decisive action. The people demand it, the world expects it and however short of war will answer the demands of the hour."

Mebane, N. C., June 18.—David Alexander White, general manager of the White Furniture Company, was in the city here today when his automobile turned over while he was returning from church. He was pinned beneath the car. Mr. White was 55 years old and widely known.
