Minister Gonzales is understood to be on his way from Havana to El Paso. The funeral will be conducted with military honors.

#### SIX DEATHS WITHIN TWO DAYS CAUSED BY PNEUMONIA

Deming, N. M., Dec. 20.-Six deaths have occurred here during the past two days from pneumonia. These deaths followed the "hike" made by the National Guard brigade encamped here during which temperatures dropped suddenly and caused much sickness

among the soldiers, according to hospital staff officers.

That a more aggressive campaign for the collection of the \$30,000 worth of

back taxes due the county will be inaugurated at once, was the statement made last night by J. A. McNorton, Esq., special county attorney for the collection of "Back Taxes." Mr. Mc-Norton, who was appointed to the foregoing position by the Board of County Commissioners last February, states that Claude C. Cashwell, Esq., will be associated with him in this work and that it is hoped to make a very good showing in the way of collections with-

in the next three months. Mr. McNorton points out that some of this \$30,000 worth of back taxes runs as far back as 1870, that it has accumulated and accumulated year after year through the failure of the people to pay their current obligations to the county in the way of taxes, and that as

a result of the long period during it is due, has frequently changed hands several times.

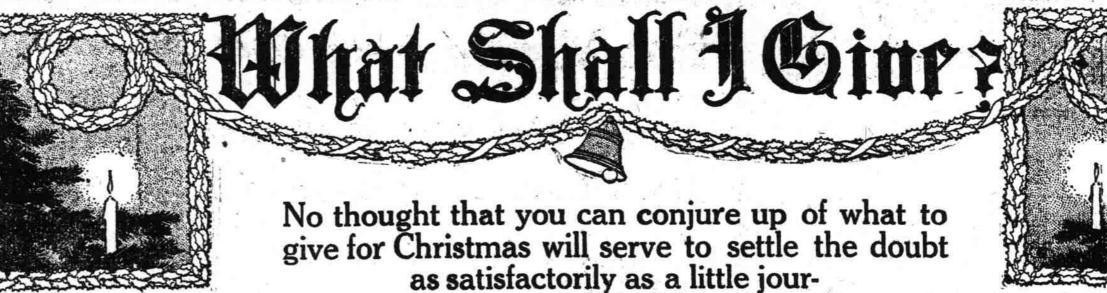

The large aggregate sum is made up of amounts all the way from the tiny pittance of 70 cents to \$500. Many of the claims for back taxes against single individuals amount to up in the hundreds of dollars, however.

No special and sustained effort to collect the back taxes was made, Mr. Mc-Norton states, until last February when the matter was placed in his hands. Since that time he says he has collect-

ed a little more than \$4,000, although the total sum outstanding remains practically unchanged owing to the fact that the current taxes for 1915, or the past year, ending November 30, to an aggregate amount of about \$4,000 were permitted to go uncollected.

Suits Started. Within the past two months, Mr. Mc-Norton has started six or eight suits against delinquent taxpayers, and at the last term of court got a judgment for \$490 in one case. Four or five suits are now pending, while more are in contemplation.

He states that L. Clayton Grant, Esq., representative-elect to the Legislature, is right in his contention that the back taxes should be collected, but that the go carrying facilities of the United work in connection with the filing of the complaints is considerable as it in-

ney through these varied, helpful and appropriate holiday stocks, for in them lies the happy-solution for every problem, large and small. Even with no thought in mind of purchasing we shall be glad to have you come and see the store in all the beauty of its holiday decorations. So for once and all you can safely dismiss the question of the proper gift to make-it is certainly here somewhere, and waiting to solve the question to your utmost pleasure. The store of a thousand gift suggestions is ready for you-splendidly ready!

the allied armies and the great civilian population of the allied countries is the reason behind the statement of Premier Lloyd-George that the shipping of Great Britain will be "nationalized." according to leading British shipping men here.

For some time, one of the representative steamship men said today, all British vessels have had about onethird of their cargo space commandeer. ed for grain. This space, he said, had been increased and now the New York agent has only one-third of his ships available to private shippers.

The same authority added that it was his belief that under the proposed new regulations even more space would be controlled by the government by regulations requiring that all cargo be officially designated. Destination of cargo will mean that shipping in British bottoms of any commodity other than that necessary for maintenance of army and civil life will be forbidden.

It is also deemed not unlikely that British ships now engaged in trade be. tween neutral countries will be called upon to take their place in the line of ships engaged in carrying supplies to Great Britain and her allies.

No serious consideration appears to be given to the suggestion that British ships will be heavier armed than the defense guns astern already approved by the United States in connection with the status as merchant men.

## REPLY TO PEACE NOTE IS EXPECTED BEFORE CHRISTMAS

Continued From Page One). mann-Hollweg, the German Imperial chancellor, in a secret conference with the party leaders preceding his announcement of Germany's peace offer in the reichstag, was given full power to conduct peace negotiations without further consultation even with the party leaders. "The chancellor," says the dispatch, "refused point blank to give the leaders any detailed particulars of his peace terms, although he stated bluntly that the terms would not take any consideration of the various expresesd wishes of the numerous parties within the empire. When the leaders objected to granting the chancellor's demands for full power to negotiate, Dr. Von Bethmann-Hollweg countered with the statement that he would resign forthwith unless his demands were met.

"After a long argument, the leaders voted the powers the chancellor wished, explaining later to followers that they were compelled to do this owing to the fear that if Dr. Von Bethmann-Hollweg resigned he would be succeeded by Admiral Von Tirpitz."

Under these circumstances, the man who can grab the most and rus the fastest would be the greatest statesman. If we are proceeding under Marquis of Queensburg rules, it is time we know it."

Senator Ashurst declared he was not disturbed by Mr. Reed's attack. He de-

volves the hunting up the titles in large number of cases where the property has changed hands. It also involves the very laborious and onerous operation of digging through old and musty tomes as far back as 1870.

In conclusion, Mr. McNorton stated that he and his associate are now prepared to give the matter practically their undivided attention and are determined to collect the entire \$30,000 owing the county at the earliest possible moment.

This announcement will, no doubt, be source of gratification to the taxpayers of the county who are in the habit of discharging their obligations to the county in the way of taxes promptly, and if successful will result in cutting down the size of the bond issues which the county is seeking to have submitted to the people in the near future. This tained. will only be practicable, however, in the event that a determined effort is

made by the tax collecting officials to collect the current taxes for 1916 as they fall due.

#### Action Not Suggested.

To the Central Powers the President says his action was in no way "suggested" by the Teutonic proposals, while to the Entente Allies he says his note is "in no way associated with them." To both sets of belligerents he says he would have delayed offering it until those overtures had been answered but for the fact that "it also concerns the question of peace and may thus be considered in connection with other proposals which have the same end in view.'

Diplomatists consider it incredible that the President would bring forward such a proposal at such a time unless he had reason to believe it would receive respectful consideration at the hands of all the beligerents and above all would not prejudice the position of the United States as a possible media-

The German embassy view, consistently hopeful that proposals of the Central Allies would lead to a discussion of peace, was expressed in this anthorized statement by Count Bernstorff, the German ambassador:

"Now," said he, "I am perfectly coninced that there will be a conference." The Nearest Parallel

The nearest parallel in world history for President Wilson's action was President Roosevelt's move in 1905 to end the war between Russia and Japan. But in that case the President had been assured that his proposal would not be disagreeable to either of the belligerents and curiously enough it was through Emperor William of Germany that the preliminary sounding crystalized into the suggestion that President Roosevelt take the steps. Befcre that time President Roosevelt had conferred with the Russian and Japanese diplomatists here, the American ambassador to Russia had had conversations with the foreign minister and the American ambassador to Japan had conferred wit the Japanese foreign minister.

Had Long Contemplated Move Those officials who would discuss the notes thought it worthy of attention that the President, after saying his action had long been in mind, added: "The President can only beg that his
