ELEVEN CUMBERLAND MEN OFF FOR CAMP JACKSON

Exercises in Their Honor Sunday Afternoon Largely Attended—Throughs See Them Off.

Fayetteville, N. C., Sept. 10.—The first five per cent of Cumberland's quota of the National Army left here for Camp Jackson, Columbia, S. C., at 5:30 o'clock yesterday afternoon. Exercises in their honor, held at 2:30, were attended by a concourse of citizens which packed the LaFayette theatre. At the close of the exercises the soldiers of democracy marched to the railway station escorted by a thousand or more citizens in motor cars and on foot.

The 11 men called to the colors reported to the exemption board at 12:30 o'clock and were guests of the government for dinner at the hotel LaFayette, the hotel management also contributing to the expense of the dinner. At the theatre Rev. W. E. Hill made the address which dedicated the men to their country's service, and a rousing, inspiring, beautifully phrased address it was. As the roll of the men was called by John A. Cates, who presided, each man stood up and was warmly applauded by the crowd. Comfort bags were given the soldiers by the J. E. B. Stuart Chapter of the U. D. C., the presentation being by John H. Anderson; and the Sunnyside nursery, owned by the captain of Fayetteville's National Guard company, presented each man with a boutonniere.

The audience sent them off with "Onward, Christian Soldiers," and "America." The men who entrained were fine, stout, manly looking fellows. Several of them had already tried to get into some branch of the land or naval forces of the nation. They are: Thomas C. Ray; the first white man accepted in Cumberland; Walter C. Jones, formerly of N. C. O. in the National Guard; J. Oscar Tally, who has just secured his license to practice law; Archie C. Rasberry, Homer Butler, H. Nell McLaughlin, H. LeRoy Cain, Alfred L. Dyson, Lonnie Jackson, James L. McDaniel and John A. Carter.

AS CARPENTER LOCAL MAN FIGHTS GERMANS

L. E. Warren "Does His Bit" With Saw and Hammer. Renewed "Pep" Makes Him Better Fit to Rush Work on Ships Needed for War.

While not dressed in the military uniform of Uncle Sam, L. E. Warren, of 12 Queen street, this city, is doing his bit in helping America win this war. His "war weapons" are saw, hammer, plane and the like and his "military strategy" is carpentry, for Mr. Warren is one of the many busy shipbuilders engaged in the construction of vessels necessary to carry munition and food supplies safely past German submarines to our soldiers in France.

Mr. Warren has numberless friends in Wilmington and many of them know how, during the years past, especially more recently—when he has been going at full speed in ship building, he has suffered from indigestion. Indigestion, of course, caused him to suffer, as do all forms of indigestion, from sleeplessness, lack of energy and other symptoms of this dread malady. And these friends know how Mr. Warren had tried various remedies during these years without gaining permanent relief.

Now it is a different story, as all who know Mr. Warren will be pleased to learn. How his health transformation has come about is best told in his own words, which follow:

Indigestion was helping people right here in Wilmington and I got some of it. I am now on my second bottle and am pleased to report that it has helped me wonderfully. My indigestion is much improved; My appetite is better and my sleep is sound. For all of this I am glad to recommend Pep's—it did the work for me and I am sure it will do the same for others."

Commenting on Mr. Warren's wonderful story, the Peplac Expert said: "While Peplac has come wonders for persons suffering from stomach ailments, it has also done great work in instances of catarrh. Chronic catarrh, which affects the mucus membranes, is one of the most prevalent and distressing maladies known. The trouble is great in this city, too. Offensive breath, coughing, nervousness, sneezing, headaches, poor digestion, loss of appetite, unsound sleep and susceptibility to colds are among the results from catarrh. Rheumatism is another malady that Peplac combats with great success."

Peplac is explained daily by the Peplac Expert at the Bellamy Drug Store and may also be had at the Wilmington Hardin, Bunting, Green, Payne, Hanover, Southside, J. Rman & Putrelle, Fetters, and Hall drug stores. Peplac may also be obtained at Blue's Drug Store, Laurinburg; Watson's Pharmacy, Southport; Maxwell Drug Store, Whiteville; Palace & Ziegler Bros., Florence, and Sumter Drug Store, Sumter, S. C.

A. AND E. COLLEGE NOTES.

New Department of Vocational Training Is Added. (Special Star Correspondence.) Raleigh, Sept. 10.—A new department of vocational education began with the fall term.

Professor T. E. Bromne is head of the department. His assistant is Mr. L. E. Cooke, of Cornell University. Two courses are offered in connection with the training of teachers for farm life schools, one extending through four years and leading to a degree, the other a one year apprentice teacher training course. The demand for teachers of the technical branches is very strong.

The headquarters company of the first North Carolina Field Artillery gave a farewell dance at the college Saturday evening to the A. and E. boys. The music was furnished by their own band and the hall was decorated for the occasion with American flags and banners of the nation. Perhaps the largest crowd ever seen dancing in Pullen Hall was on the floor.

One of the improvements which all the old students welcome is the new laundry which is operating on the campus under the management of the Model Steam Laundry. The rates are very reasonable, in fact low, and each student is required to have all his laundering done on the campus. The laundry is located on the ground floor of the Textile building at the east end.

Debate Dragged Yesterday, Not An Amendment Being Reached. Washington, Sept. 10.—The soldiers' and sailors' insurance bill probably will be passed in the House tomorrow under a special rule. Debate dragged in the House today to such an extent that no amendment was reached, and tonight when Representative Madden, of Illinois, Republican, objected to meeting early tomorrow, the Democrats planned to invoke a special rule and close all debate.

KORNILOFF'S ULTIMATUM IS REGARDED AS AN ACT OF REBELLION

(Continued from Page One.) demand the surrender of all power into Korniloff's hands. M. Lvoff said that this demand did not emanate from Korniloff only, but was supported by a "group of political workers," meaning an organization of duma members, Moscow industrial interests and other conservatives, which had played the role of opposition at the national conference at Moscow.

This group, said M. Lvoff, did not object to Kerensky personally, but demanded that he transfer the portfolio of war to M. Savinkoff, assistant minister of war, who all along supported Korniloff's demands. M. Lvoff added: "If you agree, we invite you to come to headquarters and meet General Korniloff, giving you a solemn guarantee that you will not be arrested."

Premier Kerensky replied that he was amazed, and described Korniloff's ultimatum as an act of open treason so incredible that he was unable to believe his ears. Therefore, he resolved first to communicate with General Korniloff direct. In an exchange of telegrams Korniloff confirmed to the premier his demands.

M. Kerensky then announced to M. Lvoff that the provisional government would not consent to such demands and would take every possible step to crush Korniloff's criminal conspiracy. Lvoff was then placed under arrest and subjected to a severe examination, during which he gave the details of the conspiracy and names of prominent men involved.

FROST IN NORTHWEST

Damage to Crops Not of Disastrous Character. Chicago, Sept. 10.—Damage by frost in Minnesota, Michigan and Wisconsin last night was not of disastrous character, except as it affected corn in southern Minnesota. It was said by experts here today.

The southern Minnesota crop was three weeks late and the frost three weeks early, and this caught the cereal full of moisture. Damage to garden truck, it was said, will not be enough to figure much in Mr. Hoover's calculations. The potato crop, of which both states are heavy producers, is too near maturity to suffer much.

NO HUMBUG! LIFT OFF CORNS

Doesn't hurt a bit to lift a corn or callus off with fingers. For a few cents you can get a small bottle of the magic drug freezeone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezeone. Apply a few drops upon a tender, aching corn and instantly, yes immediately, all soreness disappears and shortly you will find the corn or callus so loose that you lift it out, root and all, with the fingers.

Just think! Not one bit of pain before applying freezeone or afterwards. It doesn't even irritate the surrounding skin. Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, just seem to shrivel up and fall off without hurting a particle. It is almost magical. Ladies! Keep a tiny bottle on your dresser and never let a corn or callus ache twice.
