## AMERICANS DEVELOPING SEVIER IS LEARNING INTO PATROL EXPERTS

Pershing's Men Are Fast Learning Every Officer and Man Must At-Trench Warfare

Already Stories of Individual Heroism Rumors of the Movement of Troops Are Being Related-Five Men Stay Off Repeated Raiding Attempts of Germans.

With the American Army in France, Monday, Nov. 12 (By The Associated Press) .- American soldiers are rapidly becoming expert at patrol work and their officers say they carry it on in No Man's Land as if they have been at it for years. This is explained partly by the fact that activity in No Man's Land, along the sector held by the Americans, virtually is open warfare,

Through its control over transportation and the supply and distribution of coal, the government can stop the operation of any business and already has made a start by checking the use of coal for electric display advertising.

Coal consumption is outstripping production and the supplies of steel and other raw materials will not be sufficient for war purposes if manufacturers of non-essentials are permitted to draw all the materials they require. Therefore, the purpose is to get curtailment under way before any general shortages of materials are felt.
